Hitler's Charisma Acclaimed historian and documentary filmmaker Laurence Rees examines the nature of Hitler's appeal and reveals the role his supposed charisma played in his success Here is a fascinating social psychological and historical investigation into the formation of a personality whose determination and vision would at the outset convince a small group of like minded political and social outcasts but would eventually win over an entire nation and plunge the rest of the world into a cataclysm unlike any that had ever been seen before Hitler's Charisma is a natural culmination of twenty years of writing and research on the Third Reich and a remarkable examination of the man and the mind at the heart of it all With 16 pages of black and white illustrations
