cosmic radiance and human awareness The Structure of Illumination Divided into four movements The Mystery of Light The Anatomy of Luminosity Living in the Light and The Return to Source the book moves from cosmogenesis to embodiment guiding the reader through the physics and metaphysics of awakening Each chapter unfolds as a contemplative rhythm rather than argument blending philosophy neuroscience and sacred poetry into a single act of remembrance that light does not come from the sun or stars but from the awareness that perceives them Key Insights The cosmological birth of light how darkness gives rise to illumination The Daoist anatomy of body breath and spirit as mirrors of Heaven and Earth The heart as the furnace of Dao where energy refines into virtue and compassion The alchemy of emotion sexuality and mortality into radiant consciousness Meditative methods for perceiving the white born of emptiness without leaving the body The final recognition that the light within the reader is the same light that reads these words A New Science of Seeing Like The Tao of Physics The Secret of the Golden Flower and The Radiance Sutras this work dissolves the boundary between mysticism and science Matthews language is both precise and devotional each page a mirror polished to reflect stillness itself The Light of Self can be read linearly or opened at random like scripture its rhythm is its message This is not a book of doctrine but of direct perception an experiment in awareness The Trilogy of Light The Light of Self stands as the first volume in Laing Z Matthews Trilogy of Light followed by The Light of the Worlds and The Womb of Light Together they form a modern cosmology of consciousness light not merely seen but lived Chambers's Journal of Popular Literature, Science and Arts ,1889 **Chamber's Journal of Popular Literature, Science and Arts** ,1889 *The New World* ,1841 *American Druggists' Circular and Chemical Gazette* ,1916 Druggists' Circular ,1916 Energy Medicine Technologies Finley Eversole,2013-05-20 New and suppressed breakthroughs in energy medicine ways to combat toxins and electromagnetic fields and the importance of non GMO foods Explores the use of microcrystals ozone and hydrogen peroxide therapy and how to tap in to healing antioxidant electrons from the Earth Reveals the scientifically proven health risks of genetically modified foods Examines the suppressed cancer curing electromedicine of Royal Raymond Rife and Nobel laureate Albert Szent Gy rgi Natural nontoxic inexpensive and effective alternatives to conventional medicine exist yet they have been suppressed by the profit driven medical pharmaceutical complex Presenting a compendium of some of the most revolutionary yet still widely unknown discoveries in health and energy medicine this book edited by Finley Eversole Ph D explores the use of microcrystals to harmonize the energies of body mind and environment the healing effects of ozone and hydrogen peroxide therapy ways to combat electromagnetic fields and environmental toxins sources of disruptive energy that cause stress and health problems including other people s negative emotions and how to tap in to healing antioxidant electrons from the Earth The book reveals the scientifically proven health risks of genetically modified foods the first irreversible technology in human history with still unknown consequences It looks at the link between industrial farming and the precipitous rise in heart disease cancer diabetes and Alzheimer s over the past 100 years providing a 10 point Low Toxin Program to reduce your risk
