Driving from Japan Wanda James, 2015-08-13. This study chronicles the success of the Japanese car in America. Starting with Japan's first gasoline-powered car, the Takuri, it examines early Japanese inventors and automotive conditions in Japan, the arrival of Japanese cars in California in the late 1950s, consumer and media reactions to Japanese manufacturers, what obstacles they faced, initial sales, and how the cars gained popularity through shrewd marketing. Toyota, Honda, Datsun, Nissan, Mazda, Subaru, Isuzu, and Mitsubishi are profiled individually from their origins through the present. An examination follows of the forced cooperation between American and Japanese manufacturers, the present state of the industry in America, and the possible future of this union, most importantly in the race for a more environmentally sound vehicle.

J-Management Parissa Haghirian, 2009. Following the economic crisis, Japan is on its way to regaining its position as an economic powerhouse. The bubble burst in the 1990s and a decade of recession led to numerous changes in Japanese society and management. *J Management: Fresh Perspectives on the Japanese Firm in the 21st Century* presents a comprehensive overview of the reforms and changes in the Japanese economy and their impact on management processes. *J Management* gives insights into the current situation of Japanese firms, explains Japanese views on current developments, and answers questions about contemporary Japanese firms, such as: How have Japanese firms handled the recession and how have they reinvented themselves after it? Is lifetime employment still relevant in today's Japanese society? Does the seniority system still apply? How has globalization impacted today's Japanese corporations? How advanced is gender equality in the J firm? What challenges do foreign workers face in the J company? Written by students at Sophia University in Tokyo, *J Management* not only contains an overview of relevant sources on the topics but also includes the personal experiences and opinions of these young international writers who provide comprehensive, fresh, and insightful commentary from the Japanese perspective.

improvement on the shop floor and in the office creating a heightened sense of responsibility in all stakeholders and enhancing productivity and efficiency to improve the bottom line In this second edition the author addresses management's role in Lean production Early observers of Japanese methods focused on the shop floor to see amazing things unlike anything practiced elsewhere And the thinking was if the methods could be adopted by companies elsewhere those companies would experience the success of the Japanese What the early observers hadn't considered were dramatic differences in the way those companies were managed both daily and strategically The management side of Lean production is addressed in two new chapters one devoted to daily management the other to strategy deployment Additionally there is a new chapter that addresses breakthrough improvement and an approach to achieving it called Production Preparation Process Every chapter has been revised and expanded to better tell the story of Lean production its history applications practices and methods

Just Another Car Factory? James Rinehart, Christopher Huxley, David Robertson, 2018-09-05 This study of CAMI Automotive a unionized joint venture between General Motors and Suzuki is the most comprehensive ever undertaken of a lean production plant James Rinehart Christopher Huxley and David Robertson address a topic that has inspired fierce debate in industrial relations sociology labor studies and human resource management Heralded as a model of lean production when it opened in 1989 CAMI promised workers something different from traditional plants a humane environment empowerment and cooperative labor management relations However the enthusiasm workers felt during the orientation and early phases of production steadily declined as did their involvement in participatory activities Workers came to describe CAMI as just another car factory Union challenges and shopfloor resistance to key elements of the lean system grew capped by a five week strike in 1992 The authors attribute workers' disillusionment to lean production itself rather than to North American managers' inadequate implementation
