Value Free Science Ideals And Illusion:

Value-Free Science Harold Kincaid, John Dupre, Alison Wylie, 2007-03-15 The contributors to this volume investigate where and how values are involved in science and examine the implications of this involvement for ideals of objectivity

Value-free Science? Harold Kincaid, John Dupré, Alison Wyley, 2009 **Value-Free Science** Harold Kincaid, John Dupre, Alison Wylie, 2007-03-15 It has long been thought that science is our best hope for realizing objective knowledge but that to deliver on this promise it must be value free Things are not so simple however as recent work in science studies makes clear The contributors to this volume investigate where and how values are involved in science and examine the implications of this involvement for ideals of objectivity

Meta-Philosophical Reflection on Feminist Philosophies of Science Maria Cristina Amoretti, Nicla Vassallo, 2015-12-21 This volume offers a meta philosophical reflection on feminist philosophies of science It emphasizes and discusses both the connections and differences between traditional philosophies of science and feminist philosophies of science The collection systematically analyses feminist contributions to the various philosophies of specific sciences Each chapter is devoted to a specific area of philosophy of science general philosophy of science philosophy of biology philosophy of climate sciences philosophy of cognitive sciences and neurosciences philosophy of economics philosophy of history and archaeology philosophy of logic and mathematics philosophy of medicine philosophy of psychology philosophy of physics and philosophy of social sciences Since some of these areas have so far rarely been addressed by feminist philosophers this new collection provides new angles and stimulates the debate on pivotal issues that are part and parcel of both traditional philosophies of science and feminist philosophies of science Using a range of different methodologies and styles the essays all show great clarity in both arguments and contents Eppur si muove: Doing History and Philosophy of Science with Peter Machamer

Marcus P. Adams, Zvi Biener, Uljana Feest, Jacqueline A. Sullivan, 2017-03-23 This volume is a collection of original essays focusing on a wide range of topics in the History and Philosophy of Science It is a festschrift for Peter Machamer which includes contributions from scholars who at one time or another were his students The essays bring together analyses of issues and debates spanning from early modern science and philosophy through the 21st century Machamer's influence is reflected in the volume's broad range of topics These include underdetermination scientific practice scientific models mechanistic explanation in contemporary and historical science values in science the relationship between philosophy and psychology experimentation supervenience and reductionism

Current Controversies in Values and Science Kevin C. Elliott, Daniel Steel, 2017-03-27 Current Controversies in Values and Science asks ten philosophers to debate five questions two philosophers per debate that are driving contemporary work in this important area of philosophy of science The book is perfect for the advanced student building up her knowledge of the foundations of the field while also engaging its most cutting edge questions Introductions and annotated bibliographies for each debate preliminary descriptions of each chapter study questions and a supplemental guide to further controversies

involving values in science help provide clearer and richer snapshots of active controversies for all readers

The ^AFight Against Doubt Inmaculada de Melo-Martín, Kristen Intemann, 2018-07-02 Dissent about widely accepted scientific claims can promote doubt about scientific evidence intimidate scientists stymie research and lead the public and policymakers to oppose needed policies To limit these problems The Fight against Doubt calls for facilitating greater trust between scientists and laypersons and recognizing the limits of science in policymaking

International Handbook of Research in History, Philosophy and Science Teaching Michael R. Matthews, 2014-07-03 This inaugural handbook documents the distinctive research field that utilizes history and philosophy in investigation of theoretical curricular and pedagogical issues in the teaching of science and mathematics It is contributed to by 130 researchers from 30 countries it provides a logically structured fully referenced guide to the ways in which science and mathematics education is informed by the history and philosophy of these disciplines as well as by the philosophy of education more generally The first handbook to cover the field it lays down a much needed marker of progress to date and provides a platform for informed and coherent future analysis and research of the subject The publication comes at a time of heightened worldwide concern over the standard of science and mathematics education attended by fierce debate over how best to reform curricula and enliven student engagement in the subjects There is a growing recognition among educators and policy makers that the learning of science must dovetail with learning about science this handbook is uniquely positioned as a locus for the discussion The handbook features sections on pedagogical theoretical national and biographical research setting the literature of each tradition in its historical context It reminds readers at a crucial juncture that there has been a long and rich tradition of historical and philosophical engagements with science and mathematics teaching and that lessons can be learnt from these engagements for the resolution of current theoretical curricular and pedagogical questions that face teachers and administrators Science educators will be grateful for this unique encyclopaedic handbook Gerald Holton Physics Department Harvard University This handbook gathers the fruits of over thirty years research by a growing international and cosmopolitan community Fabio Bevilacqua Physics Department University of Pavia
