Understanding Conflict and Change in a Multicultural World H. Roy Kaplan,2014-05-09 Learning about the history of cultural conflict helps teachers reduce it in classrooms This book shows our common origins and reviews sources of conflict in the former Yugoslavia Northern Ireland and the Middle East It reveals how prejudice and stereotypes about racial and religious minorities create problems in our schools Beginning with the human exodus out of Africa 60 000 years ago tension arose among ethnic groups separated by geographic barriers Changes in population immigration work and the role of religion are creating clashes in society and schools Students from different cultural backgrounds are being thrown together as mass transportation and telecommunications shrink our world Inclusive classrooms with respectful learning environments can be achieved when we identify the sources of tension that separate and divide us Students are more alike than different Knowing about our common origin and challenges will help teachers become more effective Commentaries on Selected Model Investment Treaties Chester Brown,2013-01-17 The existing literature on the substantive and procedural aspects of bilateral investment treaties BITs relies heavily on investment treaty arbitration decisions as a source of law What is missing is a comprehensive analytical review of state practice This volume fills this gap providing detailed analyses of the investment treaty policy and practice of nineteen leading capital exporting states and emerging market economies The authors are leading experts in government academia and private legal practice and their chapters are largely based on primary source materials Each chapter provides a description of the regulatory or policy framework governing foreign investment both inflows and outflows with a historical presentation of the state s Model BIT an examination of internal government processes

and practices relating to treaty negotiation conclusion ratification and record keeping and a detailed article by article analytical commentary of the state s Model BIT elucidating the policy behind each provision and highlighting the ways in which the actual investment treaty practice of that state deviates from this standard text This commentary is supplemented by the case law relevant to that state s investment treaties This commentary will be of immense assistance to counsel and arbitrators engaged in arguing and determining the proper interpretation of BITs and investment chapters in Free Trade Agreements and to government officials and scholars engaged in BIT policy formulation and implementation It will serve as a standard resource for legal practitioners scholars policy makers and other stakeholders in the field of international investment policy law and arbitration
