The Uncensored War The Media And Vietnam:

The Uncensored War Daniel C. Hallin, 1989-04-14 Vietnam was America's most divisive and unsuccessful foreign war. It was also the first to be televised and the first of the modern era fought without military censorship. From the earliest days of the Kennedy-Johnson escalation right up to the American withdrawal and even today the media's role in Vietnam has continued to be intensely controversial. *The Uncensored War* gives a richly detailed account of what Americans read and watched about Vietnam. Hallin draws on the complete body of the New York Times coverage from 1961 to 1965, a sample of hundreds of television reports from 1965-73 including television coverage filmed by the Defense Department in the early years of the war and interviews with many of the journalists who reported it to give a powerful critique of the conventional wisdom both conservative and liberal about the media and Vietnam. Far from being a consistent adversary of government policy in Vietnam, Hallin shows the media were closely tied to official perspectives throughout the war, though divisions in the government itself and contradictions in its public relations policies caused every administration at certain times to lose its ability to manage the news effectively. As for television, it neither showed the literal horror of war nor did it play a leading role in the collapse of support; it presented a highly idealized picture of the war in the early years and shifted toward a more critical view only after public unhappiness and elite divisions over the war were well advanced. *The Uncensored War*

Daniel C. Hallin, 1989 *Don dam paí chos kyis rnam par rgyal ba ... mdo*, 1949 **War and the Media** Paul M. Haridakis, Barbara S. Hugenberg, Stanley T. Wearden, 2014-01-10 Mass communication is used by governments to support their war efforts while media images are created or manipulated to inform, persuade or guide the consumers of those images. But this book looks beyond the obvious. The contributors examine historical and contemporary examples that reflect the role of the media or mass communication or both during wartime. The essays highlight the centrality of communication to the perpetuation and to the resolution of war, suggesting that the symbiotic relationship between communication and war is as important to understand as war itself. **Politics, media and war: 9/11 and its aftermaths** The Open University, This 84-hour free course assessed the wider consequences of the 9/11 terrorist attacks on domestic and world politics and the media.

Defence and the Media in Time of Limited War Peter R. Young, 2013-09-13 First Published in 2004. Events in the Gulf Crisis of 1990-91 have highlighted the importance of the increasingly complex and difficult relations between Defence and the Media in time of War, especially in time of limited conflict when the well-being let alone the security of the home nation may not be affected. This problem has become especially acute given the growth of the new high technology media and its global spread and immediacy. The question of how to reconcile the competing demands for secrecy on the one hand and the public's right to know on the other is fast emerging as a major question of our times. In Brisbane during 3-5 April 1991 there was held what is believed to be the first ever International Conference on the topic of Defence and the Media in Time of Limited Conflict to look at this and other issues stemming from the problem. Jointly funded by the Queensland University of

Technology and the Australian Department of Defence the three day Conference was a major success attracting 160 delegates from Great Britain the United States Zambia Papua New Guinea Brunei New Zealand France Indonesia and of course Australia This volume publishes nearly all the papers delivered at this conference whose main focus was on post 1945 limited wars especially Vietnam Northern Ireland the Falklands Grenada and the Gulf all of which receive detailed analysis

The Media Offensive Alexander G. Lovelace, 2022-05-25 World War II was a media war President Franklin D Roosevelt used the press to a great extent of course but as the war progressed the media also came to influence commanders decisions on the battlefield Rescuing General Douglas MacArthur from the Philippines in deference to public opinion forced the Allies to divide the Pacific War between two competing theaters Omar Bradley's concern over US public opinion convinced General Dwight D Eisenhower to include Americans in the final assault against Axis forces in Tunisia General George S Patton Jr raced across Sicily to gain media attention and British respect General Mark Clark's hunger for publicity and the glory of capturing Rome allowed an entire German army to escape destruction Negative media pressure and the fear of V 1 bombs damaging British morale provided the impetus for the breakout of Normandy and the unsuccessful attempt to liberate the Netherlands in the fall of 1944 British general Bernard Montgomery's remarks to the press during the Battle of the Bulge almost caused him to lose his command and created tremendous ill feelings among the Allies Soon afterward Eisenhower was forced to hold the dangerously exposed city of Strasbourg because of French public opinion By V E Day even Eisenhower was attempting to get more publicity for American as opposed to Allied units The Media Offensive offers a new way to understand military media relations during World War II The press and public opinion shaped not only how the conflict was seen but also how it was fought Alexander Lovelace demonstrates that the US military repeatedly discovered that the best effects resulted from accurate news stories Truthful news reporting defined as news reporting that accurately depicts the events it describes could not be created by the military or even the media but could only emerge through a free press searching for it Lovelace recasts World War II in a new and unique fashion by placing media and public opinion at the center of battlefield decision making Unlike past scholarship on the media during World War II that focused on censorship propaganda or the adventure stories of war correspondents The Media Offensive takes the historiography of war reporting in a new direction In what could be called the new history of war reporting the focus is switched from how the military controlled reporters to how military decisions were shaped by the press

The Media and International Security Stephen Badsey, 2013-09-13 A collection of the papers from the 1995 Sandhurst conference presented by leading members of the armed forces the media and academia The conference marked a major advance in British thinking on this very topical and fast moving subject bringing together authorities from various fields in a multidisciplinary investigation which has been and will be of great interest to a wide

variety of specialist readers *A Companion to the Vietnam War* Marilyn B. Young, Robert Buzzanco, 2008-04-15 A Companion to the Vietnam War contains twenty four definitive essays on America's longest and most divisive foreign conflict. It represents the best current scholarship on this controversial and influential episode in modern American history. Highlights issues of nationalism, culture, gender, and race. Covers the breadth of Vietnam War history including American war policies, the Vietnamese perspective, the antiwar movement, and the American home front. Debating War and Peace Jonathan Mermin, 1999-07-01 The First Amendment ideal of an independent press allows American journalists to present critical perspectives on government policies and actions, but are the media independent of government in practice? Here Jonathan Mermin demonstrates that when it comes to military intervention, journalists over the past two decades have let the government itself set the terms and boundaries of foreign policy debate in the news. Analyzing newspaper and television reporting of U.S. intervention in Grenada and Panama, the bombing of Libya, the Gulf War, and U.S. actions in Somalia and Haiti, he shows that if there is no debate over U.S. policy in Washington, there is no debate in the news. Journalists often criticize the execution of U.S. policy but fail to offer critical analysis of the policy itself if actors inside the government have not challenged it. Mermin ultimately offers concrete evidence of outside Washington perspectives that could have been reported in specific cases and explains how the press could increase its independence of Washington in reporting foreign policy news. The author constructs a new framework for thinking about press-government relations based on the observation that bipartisan support for U.S. intervention is often best interpreted as a political phenomenon, not as evidence of the wisdom of U.S. policy. Journalists should remember that domestic political factors often influence foreign policy debate. The media, Mermin argues, should not see a Washington consensus as justification for downplaying critical perspectives.

State of Silence Sam Lebovic, 2023-11-21 An essential guide. Beverly Gage, Pulitzer Prize-winning author of *G Man*, tells how the Espionage Act gave rise to a vast American security state that keeps citizens in the dark. In *State of Silence*, political historian Sam Lebovic uncovers the troubling history of the Espionage Act. First passed in 1917, it was initially used to punish critics of World War I. Yet as Americans began to balk at the act's restrictions on political dissidents and the press, the government turned its focus toward keeping its secrets under wraps. The resulting system for classifying information is absurdly cautious, staggeringly costly, and shrouded in secrecy, preventing ordinary Americans from learning what their country is doing in their name, both at home and abroad. Shedding new light on the bloated governmental security apparatus that's weighing our democracy down, *State of Silence* offers the definitive history of America's turn toward secrecy and its staggering human costs.

Global Communications, International Affairs and the Media Since 1945 Philip Taylor,2002-11-01 In Global Communications International Affairs and the Media since 1945 Philip M Taylor traces the increased involvement of the media in issues of peace and especially war from the nineteenth century to the present day He analyzes the nature role and impact of communications within the international arena since 1945 and how communications interacts with foreign policy in practice rather than in theory Using studies which include the Gul War and Vietnam Taylor details the contemporary problems reporting while at the same time providing a comprehensive historical context *The Ashgate Research Companion to War* Dr Oleg Kobtzeff,Professor Hall Gardner,2013-04-28 This Companion brings together 29 essays from leading theorists and historians on the origins of wars their immediate causes and consequences and the mechanisms leading to the breakdown of peaceful relations The essays are arranged thematically in four parts and include analysis of significant conflicts and consideration of long term systemic conflicts and highlight the need for interdisciplinary approaches to the study of war as a global phenomenon

Dak To and the Border Battles of Vietnam, 1967-1968 Michael A. Eggleston,2017-01-25 In 1967 the North Vietnamese launched a series of offensives in the Central Highlands along the border with South Vietnam a strategic move intended to draw U S and South Vietnamese forces

away from major cities before the Tet Offensive A series of bloody engagements known as the border battles followed with the principle action taking place at Dak To Drawing on the writings of key figures veterans memoirs and the author s records from two tours in Vietnam this book merges official history with the recollections of those who were there revealing previously unpublished details of these decisive battles **The Tragedy of Vietnam** Patrick J. Hearden,2017-08-16 The Tragedy of Vietnam is a brief and accessible text providing a comprehensive overview of the causes and consequences of the Vietnam War Patrick J Hearden offers historical background of the conflict and examines its long term consequences on a regional and global scale This fifth edition includes expanded discussions of postwar American Vietnamese relationships and outlines the ways in which the Vietnam War experience has shaped foreign policy debates in the United States up until the present day Don't Mention the War Kevin Foster,2013-12-01 The war in Afghanistan is now the longest and arguably worst reported conflict in Australian history In Don t Mention the War Kevin Foster explores why this is so and considers who engineered and who has benefitted from its impoverished coverage He examines how and why the Australian Defence Force restricted the media s access to and freedom of movement among its troops in Afghanistan and what we can learn about their motives and methods from the more liberal media policies of the Dutch and Canadian militaries He analyses how the ADF ensured positive coverage of its endeavours by bringing many aspects of the reporting of the war in house and why some among the fourth estate were only too happy to hand over responsibility for newsgathering to the military The book also investigates how political responses to the conflict and the discourse that framed them served to conceal the facts and neuter public debate about the war After more than a decade of evasion and obstruction half truths and hype Don t Mention the War reveals how politicians the military and the media failed the public over the Afghan conflict Here is the real story behind the Australian story of the war
