Politics of Rightful Killing Sima Shakhshari,2020-01-17 In the early 2000s mainstream international news outlets celebrated the growth of Weblogistan the online and real-life transnational network of Iranian bloggers and depicted

it as a liberatory site that gave voice to Iranians As Sima Shakhsari argues in Politics of Rightful Killing the common assumptions of Weblogistan as a site of civil society consensus and resistance to state oppression belie its deep internal conflicts While Weblogistan was an effective venue for some Iranians to practice democracy it served as a valuable site for the United States to surveil bloggers and express anti Iranian sentiment and policies At the same time bloggers used the network to self police and enforce gender and sexuality norms based on Western liberal values in ways that unwittingly undermined Weblogistan s claims of democratic participation In this way Weblogistan became a site of cybergovernmentality where biopolitical security regimes disciplined and regulated populations Analyzing online and off line ethnography Shakhsari provides an account of digital citizenship that raises questions about the internet s relationship to political engagement militarism and democracy
