

The background is a vibrant orange color. On the left side, there is a large, semi-circular shape with a yellow-to-orange gradient, containing several smaller circles in red, yellow, and light blue. To the right of this, there are some thin, dark, spiky lines. In the bottom right corner, there is a yellow, starburst-like shape and a cluster of small, overlapping circles in various shades of blue and green. The title text is centered and reads:

Where Great Teaching Begins:

Where Great Teaching Begins Anne R. Reeves, 2011-11-09 What comes to mind when you think about lesson planning If you're like most teachers you focus on the material you need to present what you will do and say what you will ask students to do and the assessments you will create and administer And if you're like most teachers you also know what it's like to be disappointed when this careful planning doesn't always lead to the deep understanding and mastery you'd intended There's a better way to approach instructional design says author and teacher educator Ann R Reeves and it's within every teacher's grasp It begins with a simple mental shift from planning for activities to planning for learning outcomes and a critical concentration on learning objectives Remarkable for its clarity and filled with vivid examples *Where Great Teaching Begins* is a step by step walk through the crucial behind the scenes intellectual work necessary to make instruction truly effective and help students learn deeply and meaningfully Here you'll discover how to Translate even the most inscrutable standards into strong learning focused objectives Use effective objectives as the basis for excellent assessment Craft engaging learning activities that incorporate both targeted content and necessary thinking skills Pull objectives assessments and learning activities together into powerful plans for learning Whether you're a novice instructional designer or a veteran seeking a new streamlined process this book is a must read take on how to plan and achieve the excellent learning all teachers aim for and all students deserve

Creating Instructional Objectives Anne R. Reeves, 2014-09-16 In order to create great lessons a teacher needs to know the curriculum know the lesson content know the students and know how to set objectives that will engage these students as thinkers and put them on the path to learning In this excerpt from *Where Great Teaching Begins* Anne R Reeves introduces and illustrates a step by step process for analyzing complex academic standards like those in the Common Core and translating them into lesson objectives that are specific and learner focused describe learning outcomes rather than activities and engage higher order thinking skills [Transactions of the Illinois Society for Child-Study](#) Illinois
