To Make the Hands Impure Adam Zachary Newton, 2016-01-01 How can cradling handling or rubbing a text be said ethically to have made something happen What as readers or interpreters may come off in our hands in as we maculate or mark the books we read For Adam Zachary Newton reading is an embodied practice wherein ethics becomes a matter of tact in the doubled sense of touch and regard With the image of the book lying in the hands of its readers as insistent refrain To Make the Hands Impure cuts a provocative cross disciplinary swath through classical Jewish texts modern Jewish philosophy film and performance literature translation and the material text Newton explores the ethics of reading through a range of texts from the Talmud and Midrash to Conrad s Nostromo and Pascal s Le M morial from works by Henry Darger and Martin Scorsese to the National September 11 Memorial and a synagogue in Havana Cuba In separate chapters he conducts masterly treatments of Emmanuel Levinas Mikhail Bakhtin and Stanley Cavell by emphasizing their performances as readers a trebled orientation to Talmud novel and theater film To Make the Hands Impure stages the encounter of literary experience and scriptural traditions the difficult and the holy through an ambitious singular and innovative approach marked in equal measure by erudition and imaginative daring

Ideas of 'Race' in the History of the Humanities Amos Morris-Reich, Dirk Rupnow, 2017-04-24 This volume is concerned with the hitherto neglected role of the humanities in the histories of the idea of race Its aim is to begin to fill in this significant lacuna If in the decades following World War II and the Holocaust years that witnessed European decolonization and the African American civil rights movement the concept of race slowly but surely lost its legitimacy as a cultural political and scientific category for much of the nineteenth and the first half of the twentieth century concepts of race enjoyed widespread currency in numerous fields of knowledge such as the history of art history musicology or philosophy Bringing together some of the most distinguished scholars in their respective fields this is the first collective attempt to address the history of notions of race in the humanities as a whole

German Art History and Scientific Thought Mitchell B. Frank, 2017-07-05 A fresh contribution to the ongoing

debate between Kunstwissenschaft scientific study of art and Kunstgeschichte art history this essay collection explores how German speaking art historians of the late nineteenth and early twentieth century self consciously generated a field of study Prominent North American and European scholars provide new insights into how a mixing of diverse methodologies took place in order to gain a more subtle and comprehensive understanding of how art history became institutionalized and legitimized in Germany One common assumption about early art historical writing in Germany is that it depended upon a simplistic and narrowly defined formalism This book helps to correct this stereotype by demonstrating the complexity of discussion surrounding formalist concerns and by examining how German speaking art historians borrowed incorporated stole and made analogies with concepts from the sciences in formulating their methods In focusing on the work of some of the well known fathers of the discipline such as Alois Riegl and Heinrich Wölfflin as well as on lesser known figures the essays in this volume provide illuminating and sometimes surprising treatments of art history's prior and understudied interactions with a wide range of scientific orientations from psychology sociology and physiognomics to evolutionism and comparative anatomy
