overall tourism and hospitality contexts in Bangladesh under the lens of current policy and administrative frameworks. In so doing, the contribution of tourism and hospitality industry has been highlighted in the economy of Bangladesh as a means to creating employment opportunities. Further, the book addresses that contributions remain uneven and distributed improperly and to date the tourism industry has not been offered the desired attention in supporting examples in this regard. Nonetheless, tourism and hospitality education and research have been intensifying in recent years across numerous higher academic institutions, e.g., public and private universities in Bangladesh. This book explores critically the requirement of supportive roles of key tourism and hospitality stakeholders both from public and private domains. Ultimately, the book signifies collaborative and continuous efforts are imperative that partake both the practitioners and the academia in the development and execution of inclusive and functional tourism policy and planning in Bangladesh.

Tourism Planning and Development in South Asia Dimitrios Styliadis, Boopen Seetanah, 2021-04-09. Tourism has huge significance as a global economic and social phenomenon, and given the growing reliance on the industry by service dependent economies around the world, the lack of focus on tourism planning and development in South Asia is surprising. Current issues including social, environmental and cultural aspects underpinned by security challenges have defined the tourism development narratives in many South Asian countries over the last decades and lead to fluid demand and supply patterns. The appetite for and reliance on tourism growth is seen regardless of the numerous challenges faced by the region. Despite a rich and steady history of tourism and demand driven by numerous pull destinations, most South Asian countries have not invested or benefitted from global tourism growth trends.
