War Peace And Reconciliation A Theological Inquiry:

War, Peace and Reconciliation Weber Theodore R, 2016-10-27 *War Peace and Reconciliation* invites Christians and their churches into a dialogue regarding how to think about war from a standpoint rooted in faith It asks how reconciliation which is central to Christian life and doctrine can engage with the realities of war without surrendering its fundamental affirmations Theodore Weber defines these realities politically by discussing the meanings of power peace as a particular organisation of power and the international system The study of war and politics is unavoidable as is engagement with reconciliation because all human activity exists in the context of the gracious work of God to renew and reconcile the fallen creation Weber's inquiry is theocentric and christocentric It culminates in a stirring call to churches to examine all their practices in the light of this perspective

War and the Gospel JEan Lasserre, 2022-01-01 In 1962 the blurb for the first English edition of *War and the Gospel* warned that the problem of war is as old as the Christian faith but it has assumed a greater urgency in our own time This remains grimly true after 60 years In the decade after World War 2 Jean Lasserre made a clear and vigorous case for an exegetical grounding of our attitudes towards war in the modern world He states that Christian theology should start from the Scriptures not from preconceived ideas With the super powers of the United States and the USSR at each other's throats and the threat of nuclear Armageddon on the horizon Jean Lasserre penned this sober investigation into how Christians should think about war and violence He begins with the pacifism of Jesus his teachings and his examples in the New Testament Questions are raised as to when it is morally obligatory to disobey the state and whether lethal force can be justified in prisons and by our police forces a topic that has seen renewed relevance during the first quarter of the twenty-first century *War and the Gospel* remains a serious discussion of issues that are sadly evergreen

On the Significance of Religion in Conflict and Conflict Resolution Christine Schliesser, S. Ayse Kadayifci-Orellana, Pauline Kollontai, 2020-07-01 In this ground breaking volume the authors analyze the role of religion in conflict and conflict resolution They do so from the perspectives of Judaism Christianity and Islam while bringing different disciplines into play including peace and conflict studies religious studies theology and ethics With much of current academic political and public attention focusing on the conflictive dimensions of religion this book also explores the constructive resources of religion for conflict resolution and reconciliation Analyzing the specific contributions of religious actors in this field their potentials and possible problems connected with them this book sheds light on the concrete contours of the oftentimes vague religious factor in processes of social change Case studies in current and former settings of violent conflict such as Israel post genocide Rwanda and Pakistan provide real life contexts for discussion Combining cutting edge research with case studies and concrete implications for academics policy makers and practitioners this concise and easily accessible volume helps to build bridges between these oftentimes separated spheres of engagement The Open Access version of this book available at <http://doi.org/10.4324/9781003002888> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0

license **When Religion Matters** Annie Hardison-Moody, 2016-10-10 How does starting with women's statements that God was there in the moment of wartime violence shift the ways we think about religion conflict and healing Religion and health scholar Annie Hardison Moody examines this interdisciplinary question through several lenses postconflict feminist theory practical theology and feminist and womanist theory and theology Drawing on participatory fieldwork with a Liberian community in North Carolina Hardison Moody argues that religion matters for many survivors of violence and that this fact must be taken into account in international conversations about women violence and healing Consequently she looks beyond the institutional forms of religion instead studying the ways women live and profess healing and transformation as a part of their everyday lives This she argues is the crucial task for postconflict transformation work Understanding these everyday ways women experience and heal from violence is central to advancing our conceptions of healing and peace as they exist in a world rife with conflict Scholars activists and caregivers will be able to draw on this resource as they attempt to understand and practice healing and transformation with those who have experienced violence and trauma

Peacebuilding and Catholic Social Teaching Theodora Hawksley, 2020-09-30 The Roman Catholic Church with its global reach centralized organization and more than 1.4 billion members could be one of the world's most significant forces in global peacemaking and yet its robust tradition of social teaching on peace is not widely known In *Peacebuilding and Catholic Social Teaching* Theodora Hawksley aims to make that tradition better known and understood and to encourage its continued development in light of the lived experience of Catholics engaged in peacebuilding and conflict transformation worldwide The first part of this book analyzes the development of Catholic social teaching on peace from the time of the early Church fathers to the present drawing attention to points of tension and areas in need of development The second part engages in constructive theological work exploring how the existing tradition might develop in order to support the efforts of Catholic peacebuilders and respond to the distinctive challenges of contemporary conflict *Peacebuilding and Catholic Social Teaching* is one of the first scholarly monographs dedicated exclusively to theology ethics and peacebuilding It will appeal to students and academics who specialize in Catholic social teaching and peacebuilding to practitioners of Catholic peacebuilding and to anyone with an interest in religion and peacebuilding more generally *Annotated Bibliography of Mennonite Writings on War and Peace, 1930-1980* Willard M. Swartley, Cornelius J. Dyck, 1987 *Toward an Anabaptist Political Theology* A. James Reimer, 2014-10-13 A James Reimer's 1942-2010 theopolitical project intended to be a fully theologically conceptualized political theology offers a constructive and creative contribution to this burgeoning field of theological inquiry Reimer's thesis for this theologically derived politics focuses on the necessity to take seriously the biblical Trinitarian foundations for all Christian social ethics but also on the importance of astute and faithful engagement by Christians in public institutional life including the political realm While Reimer understood himself to be working as an Anabaptist and hoped to invite that tradition to embrace a more positive view of civil institutions than has historically been

the case he was not limited by that tradition or beholden to take only its sources into account Ever alert to the problems inherent in every kind of reductionism and especially so in cases where theology is reduced to either ethics or politics Reimer's political theology pursues the investigation of theological realities that are to serve as the engine the generative force of a political theology that seeks to articulate both a critical and a positive constructive approach to public political life and institutions
