Way of Death Joseph Calder Miller,1997-03-15 This acclaimed history of Portuguese and Brazilian slaving in the southern Atlantic is now available in paperback With extraordinary skill Joseph C Miller explores the complex relationships among the separate economies of Africa Europe and the South Atlantic that collectively supported the slave trade He places the grim history of the trade itself within the context of the rise of merchant capitalism in the eighteenth century Throughout Miller illuminates the experiences of the slaves themselves reconstructing what can be known of their sufferings at the hands of their buyers and sellers *Congoism* Johnny Van Hove,2017-10-04 To justify the plundering of today s Democratic Republic of the Congo U S intellectual elites have continuously produced dismissive Congo discourses Tracing these discourses in great depth and breadth for the first time Johnny Van Hove shows how U S intellectuals and their influential European counterparts have been using the Congo in similar fashions for their own goals Analyzing intellectuals as diverse as W E B Du Bois Joseph Conrad and David Van Reybrouck the book offers a theorization of Central West Africa a case study of normalized narratives on the Other and a stirring wake up call for all contemporary writers on international history and politics *Way of Death* Joseph Calder Miller,2005 **The Atlantic Slave Trade in World History** Jeremy Black,2024-02-05 Now in its second edition The Atlantic Slave Trade in World History has been updated to include recent scholarship and an analysis of how debates have changed in light of recent key events such as the Black Lives Matter movement Primarily focused on the Atlantic Slave Trade this study places slavery within a broader world context and includes significant detailed coverage of Africa With a chronological approach it guides students through the origins of the Atlantic Slave Trade to its expansion and eventual abolition Its final chapters explore the legacy of the Atlantic Slave Trade by comparing it to other systems of slavery outside of the Atlantic region and analyze the persistence of modern day slavery As well as offering an analysis of historiography the updated bibliography and conclusion which considers the recent Black Lives Matter protests and their aftermath provide a fresh account of how slavery has shaped our understanding of the modern world Unmatched in its breadth of information chronological sweep and geographical coverage The Atlantic Slave Trade in World History is the most useful introductory resource for all students who study the Atlantic Slave Trade in a world context **The African Affairs Reader** Nic Cheeseman,Lindsay Whitfield,Carl Death,2017 This book draws together essential readings from the journal African Affairs together with a series of new essays on key themes written by the journal editors *Enslaving Spirits* José C. Curto,2003-12-01 Long recognized as having played many important roles in the slave export trade of western Africa foreign alcohol and its various functions within this context have nevertheless escaped systematic analysis This volume focuses on the topic at Luanda and its Hinterland where the connections between foreign alcohol and the slave export trade reached their zenith Here following the mid 1500s an extremely close relationship developed between imported intoxicants and slaves exported by the thousands in any given year into the Atlantic World first

fortified Portuguese wine and following 1650 Brazilian rum emerged as crucial trade goods for the acquisition of slaves But the significance of Luso Brazilian intoxicants goes far beyond this singular fact they also served a number of other functions some of which were directly tied to slave trading and others indirectly underpinned the business The volume addresses the problem of alcohol in African history historicizes indigenous alcoholic beverages in West Central Africa at the time of contact analyzes the introduction and increasing use of foreign intoxicants for the acquisition of exportable slaves ponders the profits that such transactions generated within the Atlantic world reconstructs the other uses of imported alcohol in directly and indirectly underpinning the export slave trade of Luanda and assesses the impact of foreign alcohol upon West Central African consumers

Born in Blackness: Africa, Africans, and the Making of the Modern World, 1471 to the Second World War Howard W. French, 2021-10-12 Revealing the central yet intentionally obliterated role of Africa in the creation of modernity Born in Blackness vitally reframes our understanding of world history Traditional accounts of the making of the modern world afford a place of primacy to European history Some credit the fifteenth century Age of Discovery and the maritime connection it established between West and East others the accidental unearthing of the New World Still others point to the development of the scientific method or the spread of Judeo Christian beliefs and so on ad infinitum The history of Africa by contrast has long been relegated to the remote outskirts of our global story What if instead we put Africa and Africans at the very center of our thinking about the origins of modernity In a sweeping narrative spanning more than six centuries Howard W French does just that for Born in Blackness vitally reframes the story of medieval and emerging Africa demonstrating how the economic ascendancy of Europe the anchoring of democracy in the West and the fulfillment of so called Enlightenment ideals all grew out of Europe's dehumanizing engagement with the dark continent In fact French reveals the first impetus for the Age of Discovery was not as we are so often told even today Europe's yearning for ties with Asia but rather its centuries old desire to forge a trade in gold with legendarily rich Black societies sequestered away in the heart of West Africa Creating a historical narrative that begins with the commencement of commercial relations between Portugal and Africa in the fifteenth century and ends with the onset of World War II Born in Blackness interweaves precise historical detail with poignant personal reportage In so doing it dramatically retrieves the lives of major African historical figures from the unimaginably rich medieval emperors who traded with the Near East and beyond to the Kongo sovereigns who heroically battled seventeenth century European powers to the ex slaves who liberated Haitians from bondage and profoundly altered the course of American history While French cogently demonstrates the centrality of Africa to the rise of the modern world Born in Blackness becomes at the same time a far more significant narrative one that reveals a long concealed history of trivialization and more often elision in depictions of African history throughout the last five hundred years As French shows the achievements of sovereign African nations and their now far flung peoples have time and again been etiolated and deliberately erased from modern history As the West ascended their stories siloed and piecemeal were

swept into secluded corners thus setting the stage for the hagiographic rise of the West theories that have endured to this day Capacious and compelling Laurent Dubois *Born in Blackness* is epic history on the grand scale In the lofty tradition of bold revisionist narratives it reframes the story of gold and tobacco sugar and cotton and of the greatest commodity of them all the twelve million people who were brought in chains from Africa to the New World whose reclaimed lives shed a harsh light on our present world A Brief History of Slavery Jeremy Black,2011-08-18 A thought provoking and important book that raises essential issues crucial not only for understanding our past but also the present day In this panoramic history Jeremy Black tells how slavery was first developed in the ancient world and reaches all the way to the present in the form of contemporary crimes such as trafficking and bonded labour He shows how slavery has taken many forms throughout history and across the world from the uprising of Spartacus the plantations of the West Indies and the murderous forced labour of the gulags and concentration camps Slavery helped to consolidate transoceanic empires and helped mould new world societies such as America and Brazil Black charts the long fight for abolition in the nineteenth century looking at both the campaigners as well as the harrowing accounts of the enslaved themselves Slavery is still with us today and coerced labour can be found closer to home than one might expect The International Journal of African Historical Studies ,1972
