Ways Of The World A Brief Global History With Sources Volume 2 Since 15:

Human Security and Epidemics in Africa Andreas Velthuisen, Caroline Varin, 2024-04-15 This book examines the impact of epidemics in Africa exploring some of the adaptation and crisis management strategies adopted to tackle COVID 19 Ebola and HIV AIDS The authors reflect on lessons learned from solving complex problems and difficult decisions made by leaders on pandemic management to shape the security environment and thus the well being of people living in Africa for years to come Drawing on cases from across the continent the book demonstrates that significantly during the COVID 19 pandemic African countries and communities frequently displayed regional solidarity creativity in decision making decisiveness in dealing with corruption and opportunism and resilience and discipline in implementation Adopting a human security framework the authors share their lived experiences and explore the impact of epidemics on public policy decision making foreign policy implementation global relations collaboration in the community dimension and ultimately the future of socio economic development in Africa This book will be a welcome addition for practitioners and researchers across the fields of security studies health management and African studies making an essential contribution to the security discourse in a post COVID world

Urban Growth in Ethiopia, 1887-1974 Getahun Benti, 2016-12-20 This book highlights the positive achievements that Imperial Ethiopia made in its journey towards urbanization into the modern era and undertakes a critical assessment of the economic political and social impediments that prevented the country from transitioning into a truly fully fledged modern urbanization It provides a comprehensive history of the growth of towns between 1887 and 1974 It is organized chronologically regionally and thematically divided into three distinct time periods during which Ethiopian towns saw progresses and exposures to limited modern urban features First during 1887 1936 the country saw the creation and growth of a national capital 1887 that coordinated the country's economic and political activities and facilitated the growth of other towns in the empire It introduced new towns the railway modern schools and health centers Rudimentary factories were established in Addis Ababa and Dire Dawa along with motor cars and modern roads which increased trade between cities The next era was the Italian occupation from 1936 1941 which shook the pre existing process of urban growth by introducing a modern European style urbanization system Ethiopian cities saw a qualitatively different way of urban growth in both form and content The Italians introduced modern economic and physical planning administration and internal organization People were introduced to modern life in urban areas exposed to modern wage labor system and thus moved to towns to take advantage of the opportunity The Italian occupation left behind many features of modern urbanization and this influenced population exposed to modern consumptive tastes was determined to retain what the Italians introduced Finally the post Italian period saw a new era of urban growth Due to economic and organizational problems resulting from destructions caused by the war the process of urban growth was slowed down in the early 1940s Although the government did not introduce a clear urban policy in the immediate aftermath of the Second World War towns continued to grow
