Protection Officer Training Manual Sam Stuart, 2016-06-06 Protection Officer Training Manual Fifth Edition is a guidebook that provides a comprehensive coverage of security practice. The book is comprised of 27 chapters that are organized into 10 units. The coverage of the text includes various security procedures such as patrolling, traffic management and crowd control. Security threats are also covered including explosives, fire and hazardous substances. The book also covers emergency or high risk situations such as V I P protection, crisis intervention and first aid administration. The text will be most useful to security trainees and instructors. Individuals involved in administrative and management positions will also benefit from the book.

The Protection Officer Training Manual IFPO, 2003-09-26 This revised edition retains the exceptional organization and coverage of the previous editions and is designed for the training and certification needs of first line security officers and supervisors throughout the private and public security industry. Completely updated with coverage of all core security principles. Course text for the Certified Protection Officer CPO Program. Includes all new sections on information security, terrorism awareness and first response during crises.

The Security Consultant's Handbook Richard Bingley, 2015-09-17 A compendium of essential information for the modern security entrepreneur and practitioner. The modern security practitioner has shifted from a predominantly protective site and assets manager to a leading contributor to overall organisational resilience. Accordingly, *The Security Consultant's Handbook* sets out a holistic overview of the essential core knowledge, emerging opportunities and approaches to corporate thinking that are increasingly demanded by employers and buyers in the security market. This book provides essential direction for those who want to succeed in security either individually or as part of a team. It also aims to stimulate some fresh ideas and provide new market routes for security professionals who may feel that they are underappreciated and overexerted in traditional business domains.
