

18.7MW WARTSILA 20V34SG (2 x 9,380kW) Natural Gas Power Plant

▣ Generals

The Wärtsilä 34SG is a four-stroke, spark-ignited, lean-burn gas engine generating set. Its agility and flexibility make the Wärtsilä 34SG generating set an excellent choice for both flexible baseload and balancing renewables applications. It also offers a unique fast-starting capability, which enables rapid response to fluctuations inherent to renewable generation.

Wärtsilä 34SG gas engine helps to provide an efficient, reliable and cost-efficient source of energy for power producers. It also provides enough spinning reserve for balancing whenever needed. The Wärtsilä 34SG engine generating set is extremely reliable as it is based on the well-proven Wärtsilä 32 engine, which has a track record from the mid-1990s. The Wärtsilä 34SG features a wide power output range from 5.6 to 9.8 MW, as it is available in 12V, 16V and 20V cylinder configurations.

Key benefits of the Wärtsilä 34SG gas engine

- No start cost, limitations nor degradation in number of starts.
- Compact sizing enables transportation to demanding locations.
- Capable of operating in high altitude.
- Runs on natural gas, biogas, synthetic methane and is capable of hydrogen blending.
- Minimal water consumption.
- Longer maintenance intervals.

User's Guide to Natural Gas Technologies F. William Payne, 1999 Compiled Edited by F William Payne Natural gas technologies that were new five years ago have now been tested in the real world This book describes some of these important technologies covering both new engineering concepts and new products which have emerged as well as important innovations to existing technologies Many of the chapters include economic analyses which identify the resulting cost savings Specific areas of development addressed include gas cooling chillers desiccant technologies cogeneration heating systems and other natural gas technologies *Modern Marine Internal Combustion Engines* Ievgen Bilousov, Mykola Bulgakov, Volodymyr Savchuk, 2020-06-30 This book offers a comprehensive and timely overview of internal combustion engines for use in marine environments It reviews the development of modern four stroke marine engines gas and gas diesel engines and low speed two stroke crosshead engines describing their application areas and providing readers with a useful snapshot of their technical features e g their dimensions weights cylinder arrangements cylinder capabilities rotation speeds and exhaust gas temperatures For each marine engine information is provided on the manufacturer historical background development and technical characteristics of the manufacturer s most popular models and detailed drawings of the engine depicting its main design features This book offers a unique self contained reference guide for engineers and professionals involved in shipbuilding At the same time it is intended to support students at maritime academies and university students in naval architecture marine engineering with their design projects at both master and graduate levels thus filling an important gap in the literature Mergent Industrial Manual ,2003 Maritime Technology and Engineering III Carlos Guedes Soares, T.A. Santos, 2016-12-01 Maritime Technology and Engineering 3 is a collection of papers presented at the 3rd International Conference on Maritime Technology and Engineering MARTECH 2016 Lisbon Portugal 4-6 July 2016 The MARTECH Conferences series evolved from biannual national conferences in Portugal thus reflecting the internationalization of the maritime sector The keynote lectures and the papers making up nearly 150 contributions came from an international group of authors focused on different subjects in a variety of fields Maritime Transportation Energy Efficiency Ships in Ports Ship Hydrodynamics Ship Structures Ship Design Ship Machinery Shipyard Technology Safety Reliability Fisheries Oil Gas Marine Environment Renewable Energy and Coastal Structures This book will appeal to academics engineers and professionals interested or involved in these fields **Moody's Industrial Manual** ,1997 Covering New York American regional stock exchanges international companies **Mergent International Manual** ,2009 *Carnot Cycle and Heat Engine Fundamentals and Applications* Michel Feidt, 2020-07-03 This book results from a Special Issue related to the latest progress in the thermodynamics of machines systems and processes since the premonitory work of Carnot Carnot invented his famous cycle and generalized the efficiency concept for thermo mechanical engines Since that time research progressed from the equilibrium approach to the irreversible situation that represents the general case This book illustrates the present

state of the art advances after one or two centuries of consideration regarding applications and fundamental aspects The research is moving fast in the direction of economic and environmental aspects This will probably continue during the coming years This book mainly highlights the recent focus on the maximum power of engines as well as the corresponding first law efficiency upper bounds **Moody's International Manual** ,1997 **Diesel & Gas Turbine Progress** ,1980-07 Mergent Moody's Industrial Manual ,1999 **Modern Marine Engineer's Manual** Everett C. Hunt,2002 This manual first published in 1943 has been indispensable to ships engineers for generations The third edition revised and updated by a team of marine engineers professors follows in the venerable style of its predecessors Text relating to obsolete equipment has been eliminated information on systems that are still current has been updated and new material has been added to reflect innovations in equipment and operative practices Extensive coverage on the newest medium speed diesel engine has been added to the text Environmental concerns have been recognized with a section on engine exhaust emissions and information about new refrigerants and the maintenance of refrigeration systems New equipment for trash handling sewage processing bilge water discharge and incineration are discussed with reference to international regulations Ship trial procedures and the new equipment used in trial data collection are presented in detail *Gas & Oil Power* ,1968 **Diesel & Gas Turbine Worldwide Catalog** ,1983 **Diesel Engineering & Gas Turbines** ,1978 *Offshore Oil & Gas Platforms* *JOB INTERVIEW* Petrogav International Oil & Gas Training Center,2020-07-01 The job interview is probably the most important step you will take in your job search journey Because it s always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry Since these questions are so common hiring managers will expect you to be able to answer them smoothly and without hesitation This eBook contains 279 questions and answers for job interview and as a BONUS web addresses to 273 video movies for a better understanding of the technological process This course covers aspects like HSE Process Mechanical Electrical and Instrumentation Control that will enable you to apply for any position in the Oil and Gas Industry *Diesel & Gas Turbine Catalog* ,1990 *JOB INTERVIEW Offshore Oil & Gas Platforms* Petrogav International Oil & Gas Training Center,2020-07-01 The job interview is probably the most important step you will take in your job search journey Because it s always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry Since these questions are so common hiring managers will expect you to be able to answer them smoothly and without hesitation This eBook contains 287 questions and answers for job interview and as a BONUS web addresses to 289 video movies for a better understanding of the technological process This course covers aspects like HSE Process Mechanical Electrical and Instrumentation Control that will enable you to apply for any position in the Oil and Gas Industry **Shipping World & Shipbuilder** ,2001 Harbour & Shipping ,1994 **The Motor Ship** ,1983
