The Symbolism of Marriage in Early Christianity and the Latin Middle Ages Line Cecilie Engh, 2025-10-01 In the Middle Ages everyone it seems entered into some form of marriage Nuns and even some monks married the bridegroom Christ Bishops married their sees The popes as vicars of Christ married the universal Church And lay people high and low married each other What united these marriages was their common reference to the union of Christ and Church Christ's marriage to the Church was the paradigmatic symbol in which all the other forms of union participated in superior or inferior ways This book grapples with questions of the impact of marriage symbolism on both ideas and practice in the early Christian and medieval period In what ways did marriage symbolism with its embedded concepts of gender reproduction household and hierarchy shape people's thought about other things such as celibacy ecclesial and political relations and devotional relations How did symbolic cognition shape marriage itself And how if at all were these two directions of thinking symbolically about marriage related multidisciplinary approach high precision conceptual analyses a case study of symbolical cognition *The Western Christian Advocate*, 1911

Love and Death in the Great War Andrew J. Huebner, 2018 Americans today harbor no strong or consistent collective memory of the First World War Ask why they fought or what they accomplished and democracy is the most likely if vague response The circulation of confusing or lofty rationales for intervention started from the moment President Woodrow Wilson secured a war declaration in April 1917 Yet amid those shifting justifications *Love and Death in the Great War* argues was a more durable and resonant one Americans would fight for home and family Intervention came at a moment when arbiters of tradition regarded those very institutions the white family in particular under pressure from all sides industrial work women's employment immigration urban vice woman suffrage and most incendiary the imagined threat of black sexual aggression

Alleged German crimes in France and Belgium seemed to further imperil women and children Americans would fight many said to protect the family literally but also indirectly War promised to restore convention stabilize gender roles and sharpen male character Love and Death in the Great War tracks such ideas of redemptive war across public and private spaces policy and implementation home and front popular culture and personal correspondence Huebner merges untold stories of men and women from Missouri Wisconsin Alabama Louisiana and other places with a history of wartime culture Studying the radiating impact of war alongside the management of opinion he recovers the conflict's emotional dimensions its everyday rhythms heartbreaking losses soaring possibilities and broken promises Telling the war story as a love story however generated contradictions and challenges some subtle some transformative some violent African Americans and women serving in the army disrupted narratives of white chivalric rescue Military life proved inhospitable to virtue Death and injury brought destruction not regeneration An army of mostly drafted men sought recompense for lives interrupted as much as patriotic or personal credibility After the Great War the mobilization of real and symbolic families would never quite look the same again
