The Ahern Home of Texarkana Doris Douglas Davis, 2024-09-02 Focused on an early twentieth century home in Texarkana Arkansas Doris Douglas Davis's *The Ahern Home of Texarkana* offers not only a discussion of the architecture of a Classical Revival dwelling but also provides a closely observed account of the material culture and social structures of a particular time and place in the American South Built in 1905-1906 by Patrick Ahern who immigrated to the United States from Dungarvan Ireland in 1881 the house at 403 Laurel Street was home to Ahern his wife Mary their six children and a variety of descendants for over a century before its acquisition by the Texarkana Museums System in 2011 Today the house listed on the National Register of Historic Places serves as a writing retreat music center and venue for historical presentations and educational activities Based on archival materials interviews with members of the family and those who knew them and other research Davis's examination of the home and its inhabitants also includes a discussion of the complex relationship between persons of privilege such as the Aherns and the domestic servants predominantly African American whose often arduous work made possible the smooth functioning of the household within its social context in the Jim Crow South Describing the fraught relationships in the South between Black domestic servants and their white employers Davis presents evidence of the inevitable despair wrought by inequality and the tremendous capacity of the human heart to love This detailed tour of the home its construction and furnishings and the socio-historical context of its day to day activities provides readers a window of understanding and appreciation that will inform students and scholars of material culture as well as those interested in historical preservation

The Care and Display of Historic Clothing Karen M. DePauw, 2017-07-18 Wearable textiles hold their own stories of trade manufacture and regionalism just to name a few they also tell a personal tale of the individuals who created our history When we look at a piece of clothing a coat a dress an undergarment we see an item that is more personal more closely related to the human body than nearly anything else it comes in contact with throughout the day Garments can do far more for exhibitions and interpretation than merely providing a bit of color and beauty Clothing is both artistic and utilitarian and is capable of adding so much to the story of who we are and where we came from *The Care and Display of Historic Clothing* aims to assist with the full integration of costume collections into the interpretation of the past Often relied on for their ability to add beauty and color to exhibitions these collection items provide a very personal side to any story at a given moment in history The topics explored in this publication range from the care and identification of items in a costume collection to discussions about both physical display and how they can be used to engage audiences The book's focus is on costume collections and discussion topics will include information in regards to costume collection storage display techniques basic identification and ideas on how to incorporate costumes into exhibitions and programming A list of further

resources at the back of the book helps provide supplemental in depth information on individual areas The layout of this work will aim to provide information that slowly leads from understanding your costume collection and obtaining physical control to incorporating it in a significant and informative way into the work of the organization Providing all of these resources in one place will make the incorporation of costumes a more obtainable goal for small to mid sized museums and historical societies

The Rankins of Montana Katherine H. Adams,2021-08-02 This is the story of the Rankins a family that embodied the risk and ambition that transformed America John Rankin arrived in the West chasing the adventure of gold mining but soon turned to ranching and building in the new town of Missoula There he met Olive Pickering who had left New Hampshire in 1878 to become a teacher and seek a husband on the American frontier John and Olive s children continued to demonstrate their parent s ambition and nerve Their son became one of the biggest landowners in the country one of the first personal injury lawyers and a crusader against railroads and mining Jeannette became the first woman in a national legislature voted against two world wars and led marches protesting the Vietnam War As a dean Harriet helped develop the modern co educational university Edna traveled the world advocating for birth control The Rankins faced both national adulation and condemnation for the choices they made Their family story concerns independence and education activism the

boundaries created by gender religious choices and the changing meaning of the West **Letters from Vladivostock, 1894-1930** Eleanor L. Pray, 2013-12-01 In 1894 Eleanor L Pray left her New England home to move with her merchant husband to Vladivostok in the Russian Far East Over the next thirty six years from the time of Tsar Alexander III to the early years of Stalin s rule she wrote more than 2 000 letters chronicling her family life and the tumultuous social and political events she witnessed Vladivostok 5 600 miles east of Moscow was shaped by a rich intersection of Asian cultures and Pray s witty and observant writing paints a vivid picture of the city and its denizens during a period of momentous social change The book offers highlights from Pray s letters along with illuminating historical and biographical information Clothing and Fashion José Blanco F., Patricia Kay Hunt-Hurst, Heather Vaughan Lee, Mary Doering, 2015-11-23 This unique four volume encyclopedia examines the historical significance of fashion trends revealing the social and cultural connections of clothing from the precolonial times to the present day This sweeping overview of fashion and apparel covers several centuries of American history as seen through the lens of the clothes we wear from the Native American moccasin to Manolo Blahnik s contribution to stiletto heels Through four detailed volumes this work delves into what people wore in various periods in our country s past and why from hand crafted family garments in the 1600s to the rough clothing of slaves to the sophisticated textile designs of the 21st century More than 100 fashion experts and clothing historians pay tribute to the most notable garments accessories and people comprising design and fashion The four volumes contain more than 800 alphabetical entries with each volume representing a different era Content includes fascinating information such as that beginning in 1619 through 1654 every man in Virginia was required to plant a number of mulberry trees to support the silk industry in England what is known about the clothing of enslaved African Americans and that there were regulations placed on clothing design during World War II The set also includes color inserts that better communicate the visual impact of clothing and fashion across eras **The Social Origins of Private Life** Stephanie Coontz, 2016-02-23 A highly original account of the evolution of the family unit Current debates about the future of the family are often based on serious misconceptions about its past Arguing that there is no biologically mandated or universally functional family form Stephanie Coontz traces the complexity and variety of family arrangements in American history from Native American kin groups to the emergence of the dominant middle class family ideal in the 1890s Surveying and synthesizing a vast range of previous scholarship as well as engaging more particular studies of family life from the seventeenth to the nineteenth centuries Coontz offers a highly original account of the shifting structure and function of American families Her account challenges standard interpretations of the early hegemony of middle class privacy and affective individualism pointing to the rich tradition of alternative family behaviors among various ethnic and socioeconomic groups in America and arguing that even middle class families went through several transformations in the course of the nineteenth century The present dominant family form grounded in close interpersonal relations and premised on domestic consumption of mass produced household goods has arisen Coontz argues from a long

and complex series of changing political and economic conjunctures as well as from the destruction or incorporation of several alternative family systems A clear conception of American capitalism s combined and uneven development is therefore essential if we are to understand the history of the family as a key social and economic unit Lucid and detailed The Social Origins of Private Life is likely to become the standard history of its subject
