Gender Innovation in Political Science Marian Sawer, Kerry Baker, 2018-06-16 In this book leading gender scholars survey the contribution of feminist scholarship to new norms and knowledge in diverse areas of political science and related political practice They provide new evidence of the breadth of this contribution and its policy impact Rather than offering another account of the problem of gender inequality in the discipline the book focuses on the positive contribution of gender innovation It highlights in a systematic and in depth way how gender

innovation has contributed to sharpening the conceptual tools available in different subfields including international relations and public policy At the same time the authors show the limits of impact in core areas of an increasingly pluralised discipline This volume will appeal to scholars and students of political science and international relations **Women's Activism and "Second Wave" Feminism** Barbara Molony, Jennifer Nelson, 2017-02-09 This book is open access and available on www.bloomsburycollections.com It is funded by Knowledge Unlatched Women's Activism and Second Wave Feminism situates late 20th century feminisms within a global framework of women's activism Its chapters written by leading international scholars demonstrate how issues of heterogeneity transnationalism and intersectionality have transformed understandings of historical feminism It is no longer possible to imagine that feminism has ever fostered an unproblematic sisterhood among women blind to race ethnicity class sexuality nationality and citizenship status The chapters in this collection modify the wave metaphor in some cases and in others re-periodize it By studying individual movements they collectively address several themes that advance our understandings of the history of feminism such as the rejection of hegemonic feminism by marginalized feminist groups transnational linkages among women's organizations transnational flows of ideas and transnational migration By analyzing practical activism the chapters in this volume produce new ways of theorizing feminism and new historical perspectives about the activist locations from which feminist politics emerged Including histories of feminisms in the United States Canada South Africa India France Russia Japan Korea Poland and Chile Women's Activism and Second Wave Feminism provides a truly global re-appraisal of women's movements in the late 20th century

Contained Empowerment and the Liminal Nature of Feminisms and Activisms Victoria A. Newsom, 2022-12-19 Contained Empowerment and the Liminal Nature of Feminisms and Activisms examines the processes by which activist successes are limited and outlines a theoretical framing of the liminal and temporal limits to social justice efforts as contained empowerment With a focused lens on the third wave and contemporary forms of feminism the author investigates feminist activity from the early 1990s through responses and reactions to the overturning of *Roe v Wade* in 2022 and contrasts these efforts with anti feminist white supremacist and other structural normalizing efforts designed to limit and repress women's gendered and reproductive rights This book includes analyses of celebrity activism girl power transnational feminist NGOs digital feminisms and the feminist mimicry applied by practitioners of neo liberal and anti feminism Victoria A Newsom concludes that the contained nature of feminist empowerment illustrates how activists must engage directly with intersectional challenges and address the multiplicities of structural oppressions in order to breach containment *Voicing Demands* Sohela Nazneen, Maheen Sultan, 2014-01-16 *Voicing Demands* is a collection of analytical narratives of what has happened to feminist voice a key pathway to women's empowerment These narratives depart from the existing debate on women's political engagement in formal institutions to examine feminist activism for building and sustaining constituencies through raising negotiating and legitimizing women's voice under different contexts Bringing together the reflections and

experiences of feminist researchers and activists in South Asia the Middle East Africa and Latin America this unique volume explores how various global trends such as the development of transnational linkages the rise of conservative forces the NGOization of feminist movements and an increase in the power of donors have created opportunities and challenges for feminist voice and activism
