Wonder and Wisdom Celia Deane-Drummond, 2006 What has wonder that apparently innocent feeling of amazement so common in little children to do with wisdom often thought to be the privilege of those who are old What has theology and religious experience to do with scientific investigation of the natural world Professor Celia Deane Drummond s exploration of these themes expands the dialogue between science and religion She begins her study with reflection on the emotion of wonder tracing the history of its meaning from its Indo European roots to the present focusing on the experience of the natural world including that described by contemporary cosmology Incorporating insights from both Eastern and Western religious traditions as well as African spirituality she segues to a discussion of wisdom She considers natural wisdom looking at evolutionary convergence and design in the natural world and how it might mesh with theological understanding of natural wisdom human identity and the notion of God as wisdom She also discusses the origin of the cosmos and the role of God as creator as well as whether there is wisdom in nature and what the role if any of neuroscience in wisdom as a facet of human nature might be Returning to the theme of wonder she muses on wonder as it relates to the wisdom of God and the wisdom of the cross She shows that by weaving wonder and wisdom together a deeper spirituality can surface that integrates theology and science If wisdom is the voice for theology at the boundary of science so wonder reminds theology that science too offers its own wisdom that needs to be taken into account she concludes

Kilvert's World of Wonders John Toman, 2013-05-30 Kilvert s World of Wonders takes a fresh look at the Victorian era one that does not turn away from the smoke stacks and crowded streets of popular imagining but which sees them from the distance of the rural countryside Though a countryman and lover of country ways here the well know diarist is shown to be deeply stirred by what he saw as a society being changed and improved by science technology and by the liberal enlightened ideas that were starting to circulate The social changes seen by Kilvert resonated with the vision of progress that was imbued in him by his Victorian upbringing and as a result his diaries can be seen as a response to these changes and not as previous Kilvert scholarship suggests as a simple record of

country life Toman's new work goes beyond the biographical and social realities of Kilvert's family by comparing them to almost twenty other middle class families in order to show common factors in the familial experience of a rapidly changing society At the heart of this re-evaluation of Kilvert's life and times is the theme of Wonder various aspects of which are explored throughout Away from the rapidly growing urban centres the effects of industrialisation are seen in a surprisingly positive light by Francis Kilvert a fervent Christian coming to terms with the encroachments that science scepticism and secularism were making upon religious faith and yet seeing all around him a world of wonders
