Wondrous Cold An Antarctic Journey:

Land of Wondrous Cold Gillen D'Arcy Wood, 2021-10-12 A gripping history of the polar continent from the great discoveries of the nineteenth century to modern scientific breakthroughs Antarctica the ice kingdom hosting the South Pole looms large in the human imagination The secrets of this vast frozen desert have long tempted explorers but its brutal climate and glacial shores notoriously resist human intrusion *Land of Wondrous Cold* tells a gripping story of the pioneering nineteenth century voyages when British French and American commanders raced to penetrate Antarctica's glacial rim for unknown lands beyond These intrepid Victorian explorers James Ross Dumont D Urville and Charles Wilkes laid the foundation for our current understanding of Terra Australis Incognita Today the white continent poses new challenges as scientists race to uncover Earth's climate history which is recorded in the south polar ice and ocean floor and to monitor the increasing instability of the Antarctic ice cap which threatens to inundate coastal cities worldwide Interweaving the breakthrough research of the modern Ocean Drilling Program with the dramatic discovery tales of its Victorian forerunners Gillen D Arcy Wood describes Antarctica's role in a planetary drama of plate tectonics climate change and species evolution stretching back more than thirty million years An original multifaceted portrait of the polar continent emerges illuminating our profound connection to Antarctica in its past present and future incarnations A deep time history of monumental scale *Land of Wondrous Cold* brings the remotest of worlds within close reach an Antarctica vital to both planetary history and human fortunes

Wondrous Cold Joan Myers, 2006-06-01 Reflections on the lives of the scientists of field stations in Antarctica observations of natural phenomena and wildlife and accounts on the challenges of photography in a harsh environment accompany 150 images of Antarctica

The Endurance Expedition Kristin Johnson, 2011-01-01 Explores events leading up to the expedition how the men survived it and Sir Ernest Shackleton and other key people involved

Antarctica Bernadette Hince, Rupert Summerson, Arnan Wiesel, 2015-04-30 This is the first book whose subject is the music sounds and silences of Antarctica From 2011 until 2014 Australia marked its long standing connection with Antarctica by celebrating the centenary of the Australasian Antarctic Expedition The icy continent with its extremes of climate and environment and unique soundscapes offers great potential for creative achievements in the world of music and sound This book demonstrates the intellectual and creative engagement of artists musicians scientists and writers Consciousness of sounds in particular musical ones has not been at the forefront of our aims in polar endeavours but listening to and appreciating them has been as important there as elsewhere

Oceans James Fargo Balliett, 2014-12-18 Covering 71 percent of the planet these saline bodies of water provided the unique conditions necessary for the building blocks of life to form billions of years ago This book explains how our oceans continue to support and influence life in important ways by providing the largest global source of protein in the form of fish populations by creating and influencing weather systems and by absorbing waste streams such as airborne carbon It is shown how oceans have an almost magnetic draw almost half of the

world's population lives within a few hours of an ocean. Although oceans are vast in size, exceeding 328 million cubic miles (1.37 billion cubic kilometers), they have been influenced by and have influenced humans in numerous ways. The book includes three detailed case studies. The first focuses on the most remote locations along the Mid Atlantic Ridge where new ocean floor is being formed twenty thousand feet underwater. The second considers the Maldives, a string of islands in the Indian Ocean where increasing sea levels may force residents to abandon some communities by 2020. The third describes the North Sea at the edge of the Arctic Ocean where fishing stocks have been dangerously depleted as a result of multiple nations' unrelenting removal of the smallest and largest species. **Ice** Karal Ann Marling, 2008. From frozen wastelands to visionary explorers from frosty desserts to shimmering castles, cultural historian Karal Ann Marling weaves together fantastic and fascinating topics related to hard cold water. Commerce, Justice, Science, and Related Agencies Appropriations for Fiscal Year 2007 United States. Congress. Senate. Committee on Appropriations.
