Theory & Practice of Therapeutic Massage Mark F. Beck, 2016-03-22 A classic text in the massage industry including the essential knowledge and skills needed to become a successful professional massage therapist plus the essentials of anatomy and physiology. Essential topics to the industry such as ethics, hygiene, communication skills, and body mechanics are discussed. Full color illustrations and photographs clearly illustrate techniques and procedures. Classical massage is expanded with clinical techniques including neuromuscular and myofascial techniques and lymph massage combined to better serve the client by following therapeutic procedures. Numerous career tracts are explored including massage in a spa environment and athletic massage. A new chapter discusses massage for special populations including pre-natal, infant, elder, critically ill, people with cancer, and hospice. The final chapter has been revised to cover business practices for finding employment or successful self-employment.

Theory and Practice of Therapeutic Massage Mark Beck, 2006 This text is known for being comprehensive and readable. Often used as the main text for programs that are about 500 hours, it covers all the key topics for individuals entering the profession with appropriate balance and depth. Beck is known for being the text that can bring all these student dynamics together under the umbrella of a very readable, approachable text.
