Toward a Psychology of Being Abraham Harold Maslow, 1962 This book is a continuation of my *Motivation and Personality* published in 1954 It was constructed in about the same way that is by doing one piece at a time of the larger theoretical structure It is a predecessor to work yet to be done toward the construction of a comprehensive systematic and empirically based general psychology and philosophy which includes both the depths and the heights of human nature The last chapter is to some extent a program for this future work and serves as a bridge to it It is a first attempt to integrate the health and growth psychology with psychopathology and psychoanalytic dynamics the dynamic with the holistic Becoming with Being good with evil positive with negative Phrased in another way it is an effort to build on the general psychoanalytic base and on the scientific positivistic base of experimental psychology the Eupsychian B psychological and metamotivational superstructure which these two systems lack going beyond their limits It is very difficult I have found to communicate to others my simultaneous respect for and impatience with these two comprehensive psychologies So many people insist on being either pro Freudian or anti Freudian pro scientific psychology or anti scientific psychology etc In my opinion all such loyalty positions are silly Our job is to integrate these various truths into the whole truth which should be our only loyalty

style Publisher description Summary of Abraham H. Maslow's Toward a Psychology of Being Everest Media,2022-04-05T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The new conception of human sickness and health is based on the assumptions that we have an essential biologically based inner nature that is good or neutral and that it is best to bring this out and encourage it rather than to suppress it 2 The classical approach to personality problems considers them to be problems in an undesirable sense Struggle conflict guilt bad conscience anxiety depression frustration and tension are all symptoms of sick and undesirable people But all of these symptoms are found in healthy people or people who are growing toward health 3 The classical Freudian notion of a superego is entirely authoritarian and relativistic It is the internalization of the wishes demands and ideals of the father and mother whoever they may be But there is also another kind of conscience which is based on the unconscious and preconscious perception of our own nature 4 The question of whether or not it is possible to grow and self fulfill without pain and grief is also important to consider If these are to some extent unavoidable then to what extent If grief and pain are sometimes necessary for growth then we must learn not to protect people from them automatically **Toward a Psychology of Being-Reprint of 1962 Edition First Edition** Abraham H. New Knowledge in Human Values Abraham Harold Maslow, 1970-02 *One Nation Under Therapy* Christina Hoff Sommers, Sally Satel, 2025-08-22 Americans have traditionally placed great value on self reliance and fortitude In recent decades however we have seen the rise of a therapeutic ethic that views Americans as emotionally underdeveloped psychically frail and requiring the ministrations of mental health professionals to cope with life's vicissitudes Being in touch with one's feelings and freely expressing them have become paramount personal virtues Today with a book for every ailment a counselor for every crisis a lawsuit for every grievance and a TV show for every conceivable problem we are at risk of degrading our native ability to cope with life's challenges Drawing on established science and common sense Christina Hoff Sommers and Dr Sally Satel reveal how therapism and the burgeoning trauma industry have come to pervade our lives Help is offered everywhere under the presumption that we need it in children's classrooms the workplace churches courtrooms the media the military But with all the help comes a host of troubling consequences including The myth of stressed out homework burdened hypercompetitive and depressed or suicidal schoolchildren in need of therapy and medication The loss of moral bearings in our approach to lying crime addiction and other foibles and vices The unasked for grief counselors who descend on bereaved families schools and communities following a tragedy offering dubious advice while billing plenty of money The expansion of Post Traumatic Stress Disorder from an affliction of war veterans to nearly everyone who has experienced a setback Intelligent provocative and wryly amusing *One Nation Under Therapy* demonstrates that talking about problems is no substitute for confronting them *Moral Capitalism* Stephen Young, 2003-11 Shows how to ensure that capitalism promotes progress and equality rather than enriching the few at the expense of many Based on principles developed by the Caux Round Table an international network of senior business executives from such companies as 3M Canon NEC Bankers Trust Shell Prudential and dozens of other companies Provides practical guidelines for corporate social responsibility through the Caux Round Table's Seven General Principles for Business The world is drifting without a clear plan for its economic development Communism is dead but in the wake of Enron and similar scandals *A More Perfect Union* Linda Sargent Wood, 2012-09-01 In 1962 when the Cold War threatened to ignite in the Cuban Missile Crisis when

more nuclear test bombs were detonated than in any other year in history Rachel Carson released her own bombshell *Silent Spring* to challenge society's use of pesticides To counter the use of chemicals and bombs the naturalist articulated a holistic vision She wrote about a web of life that connected humans to the world around them and argued that actions taken in one place had consequences elsewhere Thousands accepted her message joined environmental groups flocked to Earth Day celebrations and lobbied for legislative regulation Carson was not the only intellectual to offer holistic answers to society's problems This book uncovers a sensibility in post World War II American culture that both tested the logic of the Cold War and fed some of the twentieth century's most powerful social movements from civil rights to environmentalism to the counterculture The study examines important leaders and institutions that embraced and put into practice a holistic vision for a peaceful healthful and just world nature writer Rachel Carson structural engineer R Buckminster Fuller civil rights leader Martin Luther King Jr Jesuit priest and paleontologist Pierre Teilhard de Chardin humanistic psychologist Abraham Maslow and the Esalen Institute and its founders Michael Murphy and Dick Price Each looked to whole systems instead of parts and focused on connections interdependencies and integration to create a better world Though the 60s dreams of creating a more perfect world were tempered by economic inequalities political corruption and deep social divisions this holistic sensibility continues to influence American culture today *The Farther Reaches of Human Nature* Abraham H. Maslow, 1973 **Philosophical Reflections on Education and Society** Creighton Peden, Donald Chipman, 1978
