Donna E Frederick,2016-01-07 Managing ebook Metadata in Academic Libraries Taming the Tiger tackles the topic of ebooks in academic libraries a trend that has been welcomed by students faculty researchers and library staff However at the same time the reality of acquiring ebooks making them discoverable and managing them presents library staff with many new challenges Traditional methods of cataloging and managing library resources are no longer relevant where the purchasing of ebooks in packages and demand driven acquisitions are the predominant models for acquiring new content Most academic libraries have a complex metadata environment wherein multiple systems draw upon the same metadata for different purposes This complexity makes the need for standards based interoperable metadata more important than ever In addition to complexity the nature of the metadata environment itself typically varies slightly from library to library making it difficult to recommend a single set of practices and procedures which would be relevant to and effective in all academic libraries Considering all of these factors together it is not surprising when academic libraries find it

difficult to create and manage the metadata for their ebook collections This book is written as a guide for metadata librarians other technical services librarians and ancillary library staff who manage ebook collections to help them understand the requirements for ebook metadata in their specific library context to create a vision for ebook metadata management and to develop a plan which addresses the relevant issues in metadata management at all stages of the lifecycle of ebooks in academic libraries from selection to deselection or preservation Explores the reasons behind creating records for our resources and challenges libraries to think about what that means for their context Discusses the complex nature of academic libraries and the electronic resources they require Encourages librarians to find their own way to manage metadata **Daily Graphic** Yaw Boadu-Ayeboafah,2006-02-16 *Lemon Aide Guide 2005* Phil Edmonston,2004 Toyota
