

In the following cases, contact your Toyota dealer as soon as possible:

- ⚠ The SRS side and curtain shield airbags have been inflated.
- ⚠ The portion of the doors (shaded in the illustration) was involved in an accident that was not severe enough to cause the SRS side and curtain shield airbags to inflate.
- ⚠ The surface of the seats with the side airbag (shaded in the illustration) is scratched, cracked, or otherwise damaged.
- ⚠ The portion of the front pillars and headliner containing the curtain shield airbags inside (shaded in the illustration) is scratched, cracked, or otherwise damaged.

NOTICE

Do not disconnect the battery cables before contacting your Toyota dealer.

Child restraint— —Child restraint precautions

Toyota strongly urges the use of child restraint systems for children small enough to use them.

The laws of all fifty states in the U.S.A. and Canada now require the use of a child restraint system.

Your vehicle conforms to SAE J1819.

If a child is too large for a child restraint system, the child should sit in the rear seat and must be restrained using the vehicle's seat belt. See "Seat belts" on page 55 in this section for details.

CAUTION

- ⚠ For effective protection in automobile accidents and sudden stops, a child must be properly restrained, using a seat belt or child restraint system depending on the age and size of the child. Holding a child in your arms is not a substitute for a child restraint system. In an accident, the child can be crushed against the windshield, or between you and the vehicle's interior.
