## **Traditions Values And Humanitarian Action International Humanitarian Affairs:**

**Traditions, Values, and Humanitarian Action** Kevin M. Cahill, 2022 This third volume in the pioneering series International Humanitarian Affairs goes beyond the practical to address fundamental questions at the heart of humanitarian actions How do different religious cultural and social systems and the values they support shape humanitarian action What are the bases of caring societies Are there universal values for human well being International experts come face to face with the assumptions about human dignity and social justice that guide efforts to rescue and repair communities in crisis The original essays explore mandates for humanitarian action in religious traditions and codes of conduct for the media military medicine and the academy in relief efforts They explore threats to human welfare from terrorism and gender exploitation and assess international law the media and the politics of civil society in a world of war conflict and strife The contributors Kofi Annan Avery Cardinal Dulles S J Rabbi Harlan J Wechsler H R H Prince El Hassan Bin Talal Francis Mading Deng Maj Gen Timothy Cross Joseph O Hare S J Tom Brokaw Eoin O Brien M D Jan Eliasson Timothy Harding M D Paul Wilkinson Larry Hollingworth Nancy Ely Raphael John Feerick Michael Veuthey Edward Mortimer Kathleen Newland Peter Tarnoff Richard Falk and the editor *Traditions, Values, and Humanitarian Action* Kevin M. Cahill, 2003 This third volume in the pioneering series International Humanitarian Affairs goes beyond the practical to address fundamental questions at the heart of humanitarian actions How do different religious cultural and social systems and the values they support shape humanitarian action What are the bases of caring societies Are there universal values for human well being International experts come face to face with the assumptions about human dignity and social justice that guide efforts to rescue and repair communities in crisis The original essays explore mandates for humanitarian action in religious traditions and codes of conduct for the media military medicine and the academy in relief efforts They explore threats to human welfare from terrorism and gender exploitation and assess international law the media and the politics of civil society in a world of war conflict and strife The contributors Kofi Annan Avery Cardinal Dulles S J Rabbi Harlan J Wechsler H R H Prince El Hassan Bin Talal Francis Mading Deng Maj Gen Timothy Cross Joseph O Hare S J Tom Brokaw Eoin O Brien M D Jan Eliasson Timothy Harding M D Paul Wilkinson Larry Hollingworth Nancy Ely Raphael John Feerick Michael Veuthey Edward Mortimer Kathleen Newland Peter Tarnoff Richard Falk and the editor *The Pulse of Humanitarian Assistance* Kevin M. Cahill, 2013-09-16 Understanding the complex nature of international humanitarian action particularly following natural disasters or armed conflicts has been the mission of this unique series This book explores the cutting edge concerns that will affect how assistance is offered in the future Featuring twelve original essays by leading practitioners policymakers and scholars the book is a state of the field report on problems threats and opportunities facing relief efforts in today s world With contributions from such authorities as Bernard Kouchner founder of Doctors Without Borders Charles McCormick CEO of Save the Children and physicians military leaders field workers and others the essays confront the most critical issues facing the delivery of effective relief The issues

include military and civilian cooperation in large scale disasters with special attention to the growth of private armies How traditional nongovernmental organizations and faith based agencies adapt to new challenges is also explored Ways to strengthen security for humanitarian workers refugees and internally displaced persons and those in transition after wars are also considered Bringing together diplomatic military medical legal political religious and ethical perspectives from experiences in Darfur West Africa Iraq Pakistan and other areas the essays offer an authoritative inventory of where humanitarian relief has been and how it must change to save lives and communities in peril *History and Hope* Kevin M. Cahill,2013-09-01 *History and Hope* The International Humanitarian Reader provides a better understanding both within and outside academia of the multifaceted demands posed by humanitarian assistance programs The Reader is a compilation of the most important chapters in the twelve volume International Humanitarian Affairs book series published by Fordham University Press Each selected chapter has been edited and updated In addition the series editor Kevin M Cahill M D has written among other chapters an introductory essay explaining the academic evolution of the discipline of humanitarian assistance It focuses on the Fordham Experience its Institute of International Humanitarian Affairs IIHA has developed practical programs for training fieldworkers especially those dealing with complex emergencies following conflicts and man made or natural disasters **The International Humanitarian Order** Michael Barnett,2009-12-16 This book provides a critical exploration of the politics and practice of global ethical interventions Organized in four parts Michael Barnett examines the tensions in the relationship between global governance ethics and international order **Tropical Medicine** Kevin M. Cahill,2013-09-01 The history of tropical medicine is as dramatic as the story of humankind It has its own myths and legends including tales of epidemics that destroyed whole civilizations Today with silent stealth tropical diseases still claim more lives than all the current wars combined Having had the privilege of working throughout Africa Asia and Latin America as well as in the great medical centers of Europe and the United States the author presents the details essential for understanding pathogenesis clinical manifestations therapy and prevention of the major tropical diseases The text now in its eighth edition has been used for half a century by medical students practicing physicians and public health workers around the world This fascinating book should also be of interest to a broad nonmedical readership interested in world affairs All royalties from the sale of this book go to the training of humanitarian workers **Even in Chaos** Kevin M. Cahill,2013-09-01 Children have a fundamental right to education and to the protection that schools uniquely provide in the chaos that characterizes life for refugees and internally displaced persons This book is grounded in the personal experiences of children aid workers and national leaders involved in post conflict resolution Experts from many troubled parts of the world consider the scope of the problem as well as the tools needed to address the crisis The military-humanitarian complex in Afghanistan Eric James,Tim Jacoby,2016-09-10 Violent conflict brings together two seemingly disparate groups humanitarians and soldiers This mixes and convolutes agendas blurring lines that are often perceived to be sacrosanct

Delving deeply into the history and reasons of why these two groups work in close proximity this study provide a unique insight into the history ethical dilemmas and policy conundrums when aid workers operate close to the military Using Afghanistan as a case study analytical rigour deep primary research and field knowledge are combined in an exceptional contribution to this important area This book gives scholars and practitioners alike a nuanced perspective on the challenges faced by aid workers military personnel and decision makers alike in countries affected by violent conflicts hosting foreign military interventions and receiving international aid *Sacred Aid* Michael Barnett, Janice Gross Stein, 2012-07-03 The global humanitarian movement which originated within Western religious organizations in the early nineteenth century has been of most important forces in world politics in advancing both human rights and human welfare While the religious groups that founded the movement originally focused on conversion in time more secular concerns came to dominate By the end of the nineteenth century increasingly professionalized yet nominally religious organization shifted from reliance on the good book to the public health manual Over the course of the twentieth century the secularization of humanitarianism only increased and by the 1970s the movement's religious inspiration generally speaking was marginal to its agenda However beginning in the 1980s religiously inspired humanitarian movements experienced a major revival and today they are virtual equals of their secular brethren From church sponsored AIDS prevention campaigns in Africa to Muslim charity efforts in flood stricken Pakistan to Hindu charities in India religious groups have altered the character of the global humanitarian movement Moreover even secular groups now gesture toward religious inspiration in their work Clearly the broad inexorable march toward secularism predicted by so many Westerners has halted which is especially intriguing with regard to humanitarianism Not only was it a highly secularized movement just forty years ago but its principles were based on those we associate with rational modernity cosmopolitan one worldism and material as opposed to spiritual progress How and why did this happen and what does it mean for humanitarianism writ large That is the question that the eminent scholars Michael Barnett and Janice Stein pose in *Sacred Aid* and for answers they have gathered chapters from leading scholars that focus on the relationship between secularism and religion in contemporary humanitarianism throughout the developing world Collectively the chapters in this volume comprise an original and authoritative account of religion has reshaped the global humanitarian movement in recent times *The Routledge Companion to Humanitarian Action* Roger Mac Ginty, Jenny H Peterson, 2015-03-24 The Companion on Humanitarian Action addresses the political ethical legal and practical issues which influence reactions to humanitarian crisis It does so by exploring the daily dilemmas faced by a range of actors including policy makers aid workers the private sector and the beneficiaries of aid and by challenging common perceptions regarding humanitarian crisis and the policies put in place to address these Through such explorations it provides practitioners and scholars with the knowledge needed to both understand and improve upon current forms of humanitarian action The Companion will be of use to those interested a range of humanitarian programmes ranging from emergency medical

assistance military interventions managing refugee flows and the implementation of international humanitarian law As opposed to addressing specific programmes it will explore five themes seen as relevant to understanding and engaging in all modes of humanitarian action The first section explores varying interpretations of humanitarianism including critical historical and political economic explanations as well as more practice based explorations focused on notions needs assessments and evaluation Following this readers will be exposed to the latest debates on a range of humanitarian principles including neutrality and sovereignty before exploring the key issues faced by the main actors involved in humanitarian crisis from international NGOs to local community based organizations The final two sections address what are seen as key dilemmas in regards to humanitarian action and emerging trends in the humanitarian system including the increasing role of social media in responding to crises Whilst not a how to guide the Companion contains many practical insights for policy makers and aid workers whilst also offering analytical insights for students of humanitarian action Indeed throughout the book readers will come to the realization that understanding and improving humanitarian action simultaneously requires both active critical reflection and an acceptance of the urgency and timeliness of action that is required for humanitarian assistance to have an impact on vital human needs Exploring a sector that is far from homogenous both practitioners and scholars alike will find the contributions of this book offers them a deeper understanding of the motivations and mechanics of current interventions but also insight into current changes and progress occurring in the field of humanitarian practice

**More with Less** Kevin M. Cahill, 2013-09-01 Natural and human made disasters are increasing around the world Hurricanes typhoons earthquakes tsunamis droughts and resultant famine floods and armed conflicts are constant reminders of the frailty of our human race Global warming may cause whole island states to be submerged as the oceans rise In the past these acute and recurring crises have been met by the international community responding to UN and media appeals The economic collapse of nations is now a reality some of those most affected had been traditional generous donors to disaster relief operations It is unlikely probably impossible that they will be able to continue to contribute overseas when their own domestic needs are unmet A recent New York Times front page report suggested that one of the few domestic issues to have bipartisan support was to cut the foreign aid budget This book analyzes the global economic forecast and the United Nations pattern of philanthropy provides a case study of how one nation with a tradition of giving will cope in the face of a marked reduction in flexible funds and then provides thoughtful chapters on new approaches to disaster preparedness and disaster response

*To Bear Witness* Kevin M. Cahill, M.D., 2013-12-02 For more than fifty years Dr Cahill has been helping to heal the world as a leading specialist in tropical medicine and as a driving force in humanitarian assistance and relief efforts around the globe In this revised and expanded edition he chronicles extraordinary achievements of compassion and commitment Bringing together a rich selection of writings he crafts a fascinating memoir of a life devoted to others The book includes front line reports from places under siege Lebanon Somalia Sudan Nicaragua Gaza and Ireland

there are also visionary essays from the origins of the AIDS epidemic and landmine crises and no less passionate concerns of his own experiences of pain and suffering as well as of joy and beauty in the worlds in which he has traveled As the distinguished neurologist and author Oliver Sacks M D notes in his endorsement These essays by turns elegiac lyrical funny tender nostalgic and vehemently impassioned come together in an ongoing tapestry a portrait of a dedicated physician who has dared to make a difference

**To Bear Witness** Kevin M. Cahill, 2013-06-21 For more than fifty years Dr Cahill has been helping to heal the world as a leading specialist in tropical medicine and as a driving force in humanitarian assistance and relief efforts around the globe In this revised and expanded edition he chronicles extraordinary achievements of compassion and commitment Bringing together a rich selection of writings he crafts a fascinating memoir of a life devoted to others The book includes front line reports from places under siege Lebanon Somalia Sudan Nicaragua Gaza and Ireland there are also visionary essays from the origins of the AIDS epidemic and landmine crises and no less passionate concerns of his own experiences of pain and suffering as well as of joy and beauty in the worlds in which he has traveled As the distinguished neurologist and author Oliver Sacks M D notes in his endorsement These essays by turns elegiac lyrical funny tender nostalgic and vehemently impassioned come together in an ongoing tapestry a portrait of a dedicated physician who has dared to make a difference

The New Humanitarians in International Practice Zeynep Sezgin, Dennis

Dijkzeul, 2015-12-14 As humanitarian needs continue to grow rapidly humanitarian action has become more contested with new actors entering the field to address unmet needs but also challenging long held principles and precepts This volume provides detailed empirical comparisons between emerging and traditional humanitarian actors It sheds light on why and how the emerging actors engage in humanitarian crises and how their activities are carried out and perceived in their transnational organizational environment It develops and applies a conceptual framework that fosters research on humanitarian actors and the humanitarian principles In particular it simultaneously refers to theories of organizational sociology and international relations to identify both the structural and the situational factors that influence the motivations aims and activities of these actors and their different levels of commitment to the traditional humanitarian principles It thus elucidates the role of the humanitarian principles in promoting coherence and coordination in the crowded and diverse world of humanitarian action and discusses whether alternative principles and parallel humanitarian systems are in the making This volume will be of great interest to postgraduate students and scholars in humanitarian studies globalization and transnationalism research organizational sociology international relations development studies and migration and diaspora studies as well as policy makers and practitioners engaged in humanitarian action development cooperation and migration issues

**Humanitarian Disarmament** Treasa Dunworth, 2020-08-06 The humanitarian framing of disarmament is not a novel development but rather represents a re emergence of a much older and long standing sensibility of humanitarianism in disarmament The Book rejects the big bang theory that presents the Anti Personnel Landmines Convention 1997 and its

successors the Convention on Cluster Munitions 2008 and the Treaty on the Prohibition of Nuclear Weapons 2017 as a paradigm shift from an older traditional state centric approach towards a more progressive humanitarian approach It shows how humanitarian disarmament has a long and complex history which includes these treaties This book argues that the attempt to locate the birth of humanitarian disarmament in these treaties is part of the attempt to cleanse humanitarian disarmament of politics presenting humanitarianism as a morally superior discourse in disarmament However humanitarianism carries its own blind spots and has its own hegemonic leanings It may be silencing other potentially more transformative discourses

*Ethics and Global Security* Anthony Burke, Katrina Lee-Koo, Matt McDonald, 2014-06-27 This book will be the first systematic examination of the role that ethics plays in international security in both theory and practice and offers the reader a concrete ethics for global security Questions of morality and ethics have long been central to global security from the death camps world wars and H bombs of the 20th century to the humanitarian missions tsunamis terrorism and refugees of the 21st This book goes beyond the Just War tradition to demonstrate how ethical commitments influence security theory policy and international law across a range of pressing global challenges The book highlights how from patrolling a territorial border to maintaining armed forces security practices have important ethical implications by excluding some from consideration presenting others as potential threats and exposing them to harm and licensing particular actions While many scholars and practitioners of security claim little interest in ethics ethics clearly has an interest in them This innovative book extends the traditional agenda of war and peace to consider the ethics of force short of war such as sanctions deterrence terrorism targeted killing and torture and the ethical implications of new security concerns such as identity gender humanitarianism the responsibility to protect and the global ecology It advances a concrete ethics for an era of global threats and makes a case for a cosmopolitan approach to the theory and practice of security that could inspire a more just stable and inclusive global order This book fills an important gap in the literature and will be of much interest to students of ethics security studies and international relations

**Humanitarianism in the Asia-Pacific** Alistair D. B. Cook, Lina Gong, 2021-03-12 This collection offers insights of the international humanitarian system considering what constitutes humanitarianism in Asia Pacific and how it shapes policy and practice in the region and globally It adds to the conversation on reforming the global humanitarian system by providing the space to share perspectives on humanitarian action from our place in the world The authors answer these questions by focusing on a range of issues from national to sectoral perspectives to relations between traditional and emerging players concluding that the dynamics of the humanitarian system from the perspectives of the Asia Pacific are rooted in their localized experiences and built outwards The first significant trend is that understandings of humanitarianism in the Asia Pacific are primarily shaped by the experience of disasters at home Second national governments play a dominant role in humanitarian affairs in the region Finally the humanitarian landscape in the Asia Pacific constitutes a diverse yet under appreciated set of actors This book is based on the RSIS Conference on Asia and

the Humanitarian World held in 2019 in Singapore It is relevant to students scholars practitioners and policymakers with an interest in humanitarian assistance disaster management strategic studies and international relations in Asia Pacific

**Thinking about Global Governance** Thomas G. Weiss, 2012-04-27 One of the more prolific and influential analysts of multilateral approaches to global problem solving over the last three decades is Thomas G Weiss *Thinking about Global Governance Why People and Ideas Matter* assembles key scholarly and policy writing This collection organizes his most recent work addressing the core issues of the United Nations global governance and humanitarian action The essays are placed in historical and intellectual context in a substantial new introduction which contains a healthy dose of the idealism and ethical orientation that invariably characterize his best work This volume gives the reader a comprehensive understanding of these key topics for a globalizing world and is an invaluable resource for students and scholars alike

The Oxford Handbook of Refugee and Forced Migration Studies Elena Fiddian-Qasmiyeh, Gil Loescher, Katy Long, Nando Sigona, 2014-06-12 Refugee and Forced Migration Studies has grown from being a concern of a relatively small number of scholars and policy researchers in the 1980s to a global field of interest with thousands of students worldwide studying displacement either from traditional disciplinary perspectives or as a core component of newer programmes across the Humanities and Social and Political Sciences Today the field encompasses both rigorous academic research which may or may not ultimately inform policy and practice as well as action research focused on advocating in favour of refugees needs and rights This authoritative Handbook critically evaluates the birth and development of Refugee and Forced Migration Studies and analyses the key contemporary and future challenges faced by academics and practitioners working with and for forcibly displaced populations around the world The 52 state of the art chapters written by leading academics practitioners and policymakers working in universities research centres think tanks NGOs and international organizations provide a comprehensive and cutting edge overview of the key intellectual political social and institutional challenges arising from mass displacement in the world today The chapters vividly illustrate the vibrant and engaging debates that characterize this rapidly expanding field of research and practice

*Culture and the Soldier* H. Christian Breede, 2019-10-01 Countries have instituted policies to make their armed forces more inclusive and soldiers now undergo cultural awareness training before they see active duty Policy makers and military organizations agree that culture is important But what does culture mean in practice and how is it important Drawing on case studies from Europe and North America *Culture and the Soldier* answers these questions by examining how culture both shapes the military and can be wielded by it Culture as a force has the power to influence how soldiers remember battle and how women are treated within the ranks As a factor it can be leveraged by militaries in a range of ways from preventing cultural dislocation among soldiers in Afghanistan to mounting propaganda campaigns in support of totalitarian regimes By bringing to light the ways in which culture is influencing military organizations and modern combat this volume offers provocative insights into how culture can be deployed to improve armed

forces at home and in military engagements abroad

## Adopting the Beat of Appearance: An Psychological Symphony within **Traditions Values And Humanitarian Action International Humanitarian Affairs**

In some sort of taken by displays and the ceaseless chatter of immediate interaction, the melodic beauty and emotional symphony developed by the written word frequently disappear into the background, eclipsed by the persistent noise and disruptions that permeate our lives. But, set within the pages of **Traditions Values And Humanitarian Action International Humanitarian Affairs** an enchanting fictional prize full of natural feelings, lies an immersive symphony waiting to be embraced. Constructed by an outstanding composer of language, that captivating masterpiece conducts viewers on a mental trip, skillfully unraveling the concealed melodies and profound impact resonating within each carefully constructed phrase. Within the depths of this moving examination, we shall examine the book is key harmonies, analyze their enthralling publishing type, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
