Hokkaido Ann B. Irish, 2009-10-21 Japanese people have lived on the country's other three main islands Honshu Kyushu and Shikoku for many centuries but ethnic Japanese or Wajin began coming to Hokkaido in large numbers only in the latter half of the nineteenth century This book tells the story of Japan's aboriginal people the Ainu followed by that of foreign explorers and ethnic Japanese pioneers The book pays close attention to the Japanese Russian conflicts over the island including Cold War confrontations and more recent clashes over fishing rights and the Hokkaido administered islands seized by the U S S R in 1945

The Perry Expedition and the "Opening of Japan to the West," 1853-1873 Paul Hendrix Clark, 2020-04-01 By the time U S Commodore Matthew Perry's squadron of four ships sailed into Tokyo Bay on July 8 1853 the Japanese Tokugawa government had already fended off similarly unwelcome intrusions by the French the Russians the Dutch and the British These Western imperialists had the power and the means to force Japan into the kinds of treaties that would effectively spell the end of Japan's autonomy maybe even its existence as an independent country At the same moment Japan was also grappling with a serious insurrection the death of an emperor and the death of a shogun as well as with a series of natural disasters and associated famines The Japanese response to this incredible series of catastrophes would permanently alter the balance of geopolitical power around the world Drawing on the best recent scholarship this short introductory volume examines the motivations and maneuvers of the major participants in the conflict and sets the opening of Japan in the context of broader global history Selections from twenty nine primary sources provide firsthand accounts of the event from a variety of perspectives Several illustrations are also included along with a note on historiographic interpretation

The Opening of Japan, 1853-1855 William McOmie, 2021-11-15 Sub titled A comparative study of the American British Dutch and Russian naval expeditions to compel the Tokugawa shogunate to conclude treaties and open ports to their ships this highly informed and widely researched study provides for the first time a more complete picture of the competition and cooperation distrust and open hostility of the four protagonists involved in this joint Western enterprise In 1852 the news of the US government's plan to send a large naval expedition to Japan to demand the opening of its ports to American ships

excited public interest and elicited differing responses among the European powers For Russia Japan was a neighbouring empire to whose ports it had itself long sought access now its jealousy aroused and its own strategic interests seemingly under threat Russia could not permit the United States to possibly exclude it from Japanese ports In the wake of the Opium war the Dutch king had urged the shogun to peacefully open its ports to the other Western powers now the king and his ministers feared that the US expedition would take an overly aggressive approach that might involve the Netherlands in a war with Japan Having previously opened Chinese ports to the West Britain was occupied there and willing to take a wait and see attitude temporarily conceding a leading role to the United States in Japan France had also previously made approaches to Japan and in case of a successful outcome would not lag far behind in sending its own warships to make arrangements with Japan Thus the stage was set for the race between America and Russia to open Closed Japan and the surrounding seas while the Netherlands worked quietly behind the scenes and Britain and France waited in the wings This volume documents in detail the plans and outcomes of each of the four powers negotiations with Japan lists the clauses of the resulting treaties and offers a comparative analysis of their merits and demerits at the same time it provides a fascinating commentary on the way business was done by the Japanese with each country and its representatives **Yankee Surveyors in the Shogun's**
