Yayoi Kusama Infinity Mirror Room Phallis Field Afterall:

Yayoi Kusama Jo Applin, 2012-10-05 A study of Kusama's era-defining work, a sublime, miraculous field of phalluses against the background of abstraction, eroticism, sexuality, and softness. Almost a half century after Yayoi Kusama debuted her landmark installation *Infinity Mirror Room Phalli's Field* 1965 in New York, the work remains challenging and unclassifiable. Shifting between the Pop-like and the Surreal, the Minimal and the metaphorical, the figurative and the abstract, the psychotic and the erotic, with references to free love and psychedelia, it seemed to embody all that the 1960s was about while at the same time denying the prevailing aesthetics of its time. The installation itself was a room lined with mirrored panels and carpeted with several hundred brightly polka-dotted soft fabric protrusions into which the visitor was completely absorbed. Kusama simply called it a sublime, miraculous field of phalluses. A precursor of performance-based feminist art practice, media pranksterism, and Occupy movements, Kusama, born in 1929, was once as well known as her admirers Andy Warhol, Donald Judd, and Joseph Cornell. In this first monograph on an epoch-defining work, Jo Applin looks at the installation in detail and places it in the context of subsequent art practice and theory, as well as Kusama's own, as she called it, obsessional art. Applin also discusses Kusama's relationship to her contemporaries, particularly those working with environments, abstract erotic sculpture, and mirrors, and those grappling with such issues as abstraction, eroticism, sexuality, and softness. The work of Lee Lozano, Claes Oldenburg, Louise Bourgeois, and Eva Hesse is seen anew when considered in relation to Yayoi Kusama's.

Yayoi Kusama: Festival of Life Yayoi Kusama, Jenni Sorkin, 2018-09-25 In a unique style that is both sensory and utopian, Yayoi Kusama's work possesses a highly personal character yet one that has connected profoundly with large audiences around the globe. Throughout her career, she has been able to break down traditional barriers between work, artist, and spectator. Kusama's work, which spans paintings, performances, room-size presentations, sculptural installations, literary works, films, fashion design, and interventions within existing architectural structures, has transcended some of the most important art movements of the second half of the twentieth century, including pop art and minimalism. Conveying extraordinary vitality and passion, her work seems to encompass an autobiographic, even confessional dimension. As stated by Roberta Smith in *The New York Times*, "These paintings form a great big infinity room of their own, but one in which each part is also an autonomous work of art, its own piece of wobbly handwrought infinity." You may not want to know these paintings Ms. Kusama has made, but in the moment, their vitality is infectious. It is the vitality of an artist who lives to work, whose work keeps her alive. Yayoi Kusama *Festival of Life* documents the artist's exhibition at David Zwirner's Chelsea location in New York in late 2017, featuring a selection of paintings from her iconic *My Eternal Soul* series, new large-scale flower sculptures, a polka-dotted environment, and two *Infinity Mirror Rooms*. The monograph includes new scholarship on the artist by Jenni Sorkin, as well as a special foldout poster. *Sculptural Materiality in the Age of Conceptualism* Marin R. Sullivan, 2017-07-05 *Sculptural Materiality in the Age of Conceptualism* is structured around four distinct but interrelated projects initially realized in Italy.

between 1966 and 1972 Yayoi Kusama's Narcissus Garden Michelangelo Pistoletto's Newspaper Sphere Sfera di giornali Robert Smithson's Asphalt Rundown and Joseph Beuys's Arena These works all utilized non traditional materials collaborative patronage models and alternative modes of display to create a spatially and temporally dispersed arena of matter and action with photography serving as a connective material thread within the sculpture it reflects While created by major artists of the postwar period these particular projects have yet to receive substantive art historical analysis especially from a sculptural perspective Here they anchor a transnational narrative in which sculpture emerged as a node a center of transaction comprising multiple material phenomenon including objects images and actors When seen as entangled polymorphous entities these works suggest that the charge of sculpture in the late postwar period came from its concurrent existence as both three dimensional phenomena and photographic image in the interchanges among the materials that continue to activate and alter the constitution of sculpture within the contemporary sphere *Lifework* Moran

Sheleg, 2024-07-23 Following the critical scepticism surrounding the notion of the self as a singular entity during the 1960s many artists and writers sought to test the apparent problem posed by autobiography as both a traditional genre and as a way of working Considering the consequent emergence of autotheory *Lifework* traces this shift in artistic and literary production during the late twentieth century and beyond examining a set of diverse practices that mine the line between what it is to make art and what it is to live life The book's chapters connect a variety of artistic strategies that cut across medium geography and time uncovering how the historical marginalisation of first person experience has taken on larger social cultural and political implications in the contemporary moment and how the work of living might still relate to the work of art **London Art Worlds** Jo Applin, Catherine Spencer, Amy Tobin, 2017-12-14 The essays in this collection explore the extraordinarily rich networks of international artists and art practices that emerged in and around London during the 1960s and 70s a period that saw an explosion of new media and fresh attitudes and approaches to making and thinking about art The contributors to *London Art Worlds* examine the many activities and movements that existed alongside more established institutions in this period from the rise of cybernetics and the founding of alternative publications to the public protests and new pedagogical models in London's art schools The essays explore how international artists and the rise of alternative venues publications and exhibitions along with a growing mobilization of artists around political and cultural issues ranging from feminism to democracy pushed the boundaries of the London art scene beyond the West End's familiar galleries and posed a radical challenge to established modes of making and understanding art Engaging wide ranging and original *London Art Worlds* provides a necessary perspective on the visual culture of the London art scene in the 1960s and 70s Art historians and scholars of the era will find these essays especially valuable and thought provoking In addition to the editors contributors to this volume are Elena Crippa Antony Hudek Dominic Johnson Carmen Juli Courtney J Martin Lucy Reynolds Joy Sleeman Isobel Whitelegg and Andrew Wilson **New Histories of Art in the Global Postwar Era** Flavia

Lozano's production in 1960s New York from her raucous drawings and paintings depicting broken tools genitalia and other body parts to the final exhibition of her spectacular series of abstract Wave Paintings at the Whitney Museum of American Art in 1970. Highly regarded at the time, Lozano is now perhaps best known for Dropout Piece 1970, a conceptual artwork and dramatic gesture with which she quit the art world. Shortly afterwards she announced she would have no further contact with other women. Her dropout and boycott of women lasted until her death, by which time she was all but forgotten. This book tackles head-on the challenges that Lozano poses to art history and especially to feminist art history, attending to her failures as well as her successes and arguing that through dead ends and impasses she struggled to forge an alternative mode of living. Lee Lozano: Not Working looks for the means to think about complex figures like Lozano whose radical politically ambiguous gestures test our assumptions about feminism and the right way to live and work. Patternalia Jude Stewart, 2015-10-13. From the author and designer of ROY G BIV, a delightful fully illustrated new volume on patterns from polka dots to plaid, their histories, cultural resonances and hidden meanings.
