developing education systems across the globe Focusing on the challenges of radical reform in key areas including variation in educational achievement accountability and standards linking school and community policies workforce reform and choice and diversity the book includes chapters on Accountability for School Improvement Workforce modelling and Distributed Leadership Multi agency Work and Children s Services The Education and Poverty Link Personalised Learning Initial Teacher Education Drawing on the framework developed by New Labour to assess the approaches to and outcomes of interventions and the extent to which policies can deliver promised transformations but going much deeper and wider than this the authors present a critical account of reform by studying examples of policies and conceptualizing the interplay between policy practice and research With contributions from leading international commentators this book will be of interest to researchers in education education policy and school leadership
