Yearbook On Space Policy 2008 2009 Yearbook On Space Policy 2008 2009:

Yearbook on Space Policy 2008/2009 Kai-Uwe Schrogl, Blandina Baranes, Christophe Venet, Wolfgang Rathgeber, 2011-02-02 The Yearbook on Space Policy aims to be the reference publication analysing space policy developments Each year it presents issues and trends in space policy and the space sector as a whole Its scope is global and its perspective is European The Yearbook also links space policy with other policy areas It highlights specific events and issues and provides useful insights data and information on space activities The Yearbook on Space Policy is edited by the European Space Policy Institute ESPI based in Vienna Austria It combines in house research and contributions of members of the European Space Policy Research and Academic Network ESPRAN coordinated by ESPI The Yearbook is designed for government decision makers and agencies industry professionals as well as the service sectors researchers and scientists and the interested public

European Space Policy Thomas Hoerber, Paul Stephenson, 2015-09-25 Space policy is at the cutting edge of current EU policy developments and is a fascinating object of study involving multiple and diverse actors It is also an original and contemporary lens for studying European policy making This book explores advances in European space policy and their significance for European integration Using a framing methodology it addresses central questions in European studies in order to form an interdisciplinary bridge between current research in space policy and contemporary European political studies It assesses the interests of EU institutions in space and how these institutions perceive space policy Furthermore it demonstrates that space is a cross cutting policy domain affecting a diverse range of EU policy fields such as security transport and migration and underpinning the 21st century European and global economy In doing so this volume firmly locates space policy in the field of European Studies This innovative volume will be of key interest to students and scholars of a range of policy areas including common foreign and security policy technology policy transport policy internal market policies environmental policy development aid and disaster risk management as well as the EU institutions

Space Strategy in the 21st Century Eligar Sadeh, 2013-02-11 This book offers an overview of space strategy in the 21st century The purpose of space strategy is to coordinate integrate and prioritize space activities across security commercial and civil sectors Without strategy space activities continue to provide value but it becomes difficult to identify and execute long term programs and projects and to optimize the use of space for security economic civil and environmental ends Strategy is essential for all these ends since dependence on and use of space is accelerating globally and space is integrated in the fabric of activities across all sectors and uses This volume identifies a number of areas of concern pertinent to the development of national space strategy including intellectual foundations political challenges international cooperation and space governance space assurance and political organizational and management aspects specific to security space strategy The contributing authors expand their focus beyond that of the United States and explore and analyse the international developments and implications of national space strategies of Russia China Europe Japan India Israel and Brazil This book

will be of much interest to students of space power and politics strategic studies foreign policy and International Relations in general **The Fair and Responsible Use of Space** Wolfgang Rathgeber,Kai-Uwe Schrogl,Ray A. Williamson,2011-02-03 As space applications become central to modern interaction more and more entities are becoming involved in space activities Consequently strategies to establish the coordinated ethically justifiable and sustainable conduct of space activities have to be found Such an endeavour requires addressing current questions regarding the use of space dealing with fair rules in orbit and discussing the way towards achieving truly global engagement on space security issues The book outlines the current situation and identifies key challenges from the policy perspective Taking this one step further it also formulates principles and recommendations for global action Nineteen eminent personalities from the space sector have united for this project which is based on a conference organised at the European Space Policy Institute ESPI in November 2008 in Vienna
