Total Quality in Radiology Henry George Adams, Sudhir Arora, 1997 *Total Quality in Radiology* Henry George Adams, 1997 *Creating Productive Organizations* Elizabeth Smith, 1995-09-01 A highly motivated competent work force is vital to an organization's success. *Creating Productive Organizations* is an interactive manual that challenges and encourages readers to assess and develop a clear vision of their areas of competence and interest in order to enhance productivity. Basic common sense information about people, jobs, and the workplace is presented using simple descriptions, methods, contemporary examples, and illustrations. Readers are skillfully guided through the process of identifying and defining their skills, abilities, beliefs, values, work methods, knowledge, and strengths. Step by step guidelines enable readers to evaluate and more closely match their talents, goals, and visions with current and future demands of the constantly changing workplace. Written for supervisors, managers, leaders, mentors, work teams, members, academicians, students, and anyone striving to learn more about themselves in order to increase job satisfaction and overall performance, *Creating Productive Organizations* is an excellent stand alone resource; however, the facilitator's guide is recommended for industry training or classroom use.

Facilitator's Guide The facilitator's guide is a multilevel experiential teaching tool that provides activities, inventories, questionnaires, surveys, and discussion resources for individual and group use. Its content follows the same format as the manual and is designed to supplement and reinforce material presented in each chapter.
