

The Impact of Tourism on the Environment

Tourism And The Environment Tourism And The Environment

Richard Sharpley

Tourism And The Environment Tourism And The Environment:

Tourism and the Environment R. N. Batta, 2000 *Tourism and the Environment* Colin Hunter, Howard Green, 1995 This volume provides a research based overview of the relationship between tourism development and environmental quality The concept of sustainable tourism is examined as a prelude to a detailed treatment of the principles and implications of sustainable tourism development The authors look at policy directions with new forms of alternative tourism analysed in this context The volume then proceeds to consider the potential of land use planning and Environmental Impact Assessment systems as instruments in the translation of sustainable tourism development into practice Conventional forms of interpretation are questioned and the efficacy and transferability of different systems are evaluated Examples from around the world are used to illustrate the principles discussed This volume will appeal to students and researchers in tourism as well as to professionals in the tourism industry BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Tourism Development and the Environment Richard Sharpley, 2009 First Published in 2009 Routledge is an imprint of Taylor Francis an informa company The Routledge Handbook of Tourism and the Environment Andrew Holden, David Fennell, 2012-08-21 The Routledge Handbook of Tourism and the Environment explores and critically evaluates the debates and controversies inherent to tourism s relationship with nature especially pertinent at a time of major re evaluation of our relationship with the environment as a consequence of the environmental problems we now face It brings together leading specialists from range of disciplinary backgrounds and geographical regions to provide state of the art theoretical reflection and empirical research on this complex relationship and future direction The book is divided in to five interrelated sections Section one evaluates the philosophical basis rationale and complexity of what is meant by the term environment considering the major influences in the construction of how we understand our surroundings and the types of values we place upon them Section two evaluates the types of eco systems that are used as natural resources for tourism and the negative and positive impacts upon them Section three evaluates relevant environmental policy and management mechanisms for the impacts of tourism on the natural environment Section four focuses on the changing tourism environment relationship and the types of tourism that have become established in the tourism industry market and policy Section five analyzes contemporary and future issues of the tourism environment relationship based upon themes of environmental and social welfare This timely book will provide an invaluable resource for all those with an interest in tourism s relationship with the natural environment encouraging dialogue across disciplinary boundaries and areas of study The book is international in its focus emphasizing that issues of tourism and the natural environment are not only localized but transcend national boundaries that sometimes require both international and global responses This is essential reading for student researchers and academics of Tourism as well as those of Geography Environmental Studies and Development Studies **Tourism and the Environment** Helen Briassoulis, Jan van der Straaten, 2012-12-06 The issue of maintaining a

balanced relationship between tourism and the environment has received considerable attention since the 1970s. However, only in the 1980s and 1990s did it become a topic of systematic academic inquiry and research distinguished from the broader area of the environmental impacts of recreation and leisure activities. This volume dwells on the environmental and economic impacts of tourism and is divided as follows: Part 1 Introduction and Overview; Part 2 Tourism and the Environment: General Considerations; Part 3 Regional Issues; Part 4 Economic Issues; Part 5 Policy Issues. The work is complemented by a subject index.

Sustainable Tourism Rebecca Hawkins, Victor T.C. Middleton, 2009-11-03. Looking ahead to the 21st century, Sustainable Tourism explains the current thinking process that underlies the emerging international principles of more sustainable development in travel and tourism. Using international illustrations, it draws on experience and good practice as they are being increasingly applied around the world in the late 1990s. In sharp contrast to the problem analysis approach adopted by so many authors to this subject, this book is focused on the pro-active role the private sector industry can play in partnership with the public sector to achieve solutions through its day-to-day operations and marketing, especially in product enhancement and quality controls. Case material contributed by senior professionals in the industry includes Kruger National Park, South Africa; Quicksilver Connections Barrier Reef, Australia; Edinburgh's Old Town, UK; Ironbridge Gorge Museum, UK; Rutland Water, UK. Industry illustrations are drawn from British Airways, GrecoTel, InterContinental Hotels and Resorts, the International Federation of Tour Operators (P.O.) and TUI. Professor Victor Middleton has had some thirty years' international experience of marketing practice covering most of the private and public sectors of travel and tourism. He holds appointments as Visiting Professor at Oxford Brookes University and University of Central Lancashire. Dr Rebecca Hawkins runs her own business specialising in environmental aspects of tourism projects and has undertaken a number of pioneering programmes in this role. She was Deputy Director of the World Travel and Tourism Environment Research Centre at Oxford Brookes University where she worked with Victor Middleton.

Ecology, Environment And Tourism L.K. Singh, 2008. Dealing with the relationship between environment and tourism, the latter's impact of the former. Ecology, Environment and Tourism is a fine volume covering a wide range of issues from environmental pollution to legislations governing pollution activities, from impacts of tourist activities on wildlife, wetland and marine environment to responsible tourism development and sustainable tourism development. The suggestions proposed in this book will make a meaningfully new contribution to the field of study. Though modeled in Indian tourism context, the book with its universally applicable base will be a well-informed read to any reader across the world.

Tourism, Recreation, and Sustainability Stephen F. McCool, R. Neil Moisey, 2001. This book presents analytical frameworks for examining the concept of sustainability in tourism and recreation within the context of sustainable development. It also includes numerous case studies in a variety of cultural, political and environmental contexts. Contributors include well-known authorities from North America, Europe and Australia.

Tourism: Tourism, environment and the society Sanchay Malviya, 2005 **Sustainability of Tourism** Metin

Kozak, Nazmi Kozak, 2011-07-12 The subject of sustainability has become central to the discussion of how to succeed in the stable development of the tourism industry due to the uncontrollable nature of supply and demand over the past few decades. Thus this book examines policies and practices associated with the introduction of various methods in order to maintain sustainable tourism development. The list of policies and practices is based on a selection of the most recent topics providing many real world examples and cases in relation to culture and nature based environmental issues representing both individual businesses and tourist destinations with an international focus namely Australia, Belgium, Bulgaria, Canada, Portugal, South Korea, Taiwan, Turkey and the USA. Structured with 15 chapters altogether the principles and guidelines discussed apply equally to different product levels in tourism such as museums, cities, regions and countries. This volume is intended as a supplementary textbook for further reading. The editors believe that the book will gain attention from colleagues worldwide because of relevant educational courses on sustainable tourism, environmental tourism and cultural heritage management.

The Earth as a Holiday Resort Han Boers, Martin Bosch, 1994

Environmental Issues of Tourism and Recreation

Zbigniew Mieczkowski, 1995-08 This text discusses the environmental impact of tourism and recreation. It is divided into three parts: environmental impacts on tourism and tourists; the positive and negative impact of tourism on the natural environment; and suggestions on how to minimise any unfavourable effects.

Environment and Tourism Andrew Holden, 2000 For many people holidays are an increasingly central feature of contemporary western society. The tourism industry has expanded rapidly since 1950 but this book poses the significant question of consequent environmental impacts: are environments being benefited or damaged by the tourist who visits them? A well balanced introductory text, this topical book on the relationships between tourism, society and the environment examines tourism and environment in detail and gives a historical overview of the growth of the tourism industry. It discusses how the tourism industry markets physical and cultural environments to be consumed by the tourist and the consequences of the tourism they then attract. It explores how the economics of tourism can be adopted in a positive way to aid conservation, whether the concept of sustainability can be applied to tourism, provides a critique of the new forms of tourism that have developed in recent years. An extensive range of international case studies from both the developed and developing world are used to illustrate the theoretical ideas presented and to aid the student it includes end of chapter summaries, further reading guides and boxed vignettes focusing on contemporary environmental issues and debates.

Tourism and Sustainable Economic Development

Amedeo Fossati, Giorgio Panella, 2012-12-06 For many countries tourism is an industry of great economic significance. It is seen as a main instrument for regional development as it stimulates new economic activities. Tourism may have a positive economic impact on the balance of payments, on employment, on gross income and production but it may also have negative effects particularly on the environment. Questions arise as to whether it is possible to keep on developing tourism in a certain

area without negative or irreversible influences on the environment Tourism and Sustainable Economic Development provides a theoretical framework for these problems as well as practical illustrations on the following topics the conditions under which specialization in tourism is not harmful for economic growth the trade offs if any between tourism development and economic growth the need for government intervention and the various policy options and instruments available to policy makers The book comprises two parts The first part presents general views on tourism and sustainable economic development and some opinions on the relationship between tourism and the environment Some of the basic concepts implicit in sustainability are examined in relation to regional development urban tourism art cities and rural tourism The second part of the book concentrates on strategies and policy instruments The purpose is to concisely define and bring together some policies which appear to be necessary and whose implementation is required if we are to reconcile tourism development with the protection and conservation of the environment Some analytical tools for policy making with regard to tourism and the environment are developed As will become clear there are many gaps in our knowledge that need to be filled if we are to be successful in controlling tourism in a way that puts this important industry onto a sustainable development path

Managing the Environment Francisco-José Sáez-Martínez, José-Luis Sánchez-Ollero, Alejandro García-Pozo, Esteban Pérez-Calderón, 2016-07-04 This book contains some contributions from the VI International Conference on Tourism Economics and Environment that took place at Malaga Spain The book includes a collection of case studies and best practices linking sustainability to tourism The topics addressed represent an overview of the most contemporary problems affecting the tourism sector

Tourism and Global Environmental Change Stefan Gössling, Michael C. Hall, 2006-06-07 This fascinating book is the first comprehensive analysis of the economic social and political interrelationships between tourism and global environmental change one of the most significant issues facing humankind today Its contributors argue that the impacts of these changes are potentially extremely serious both for the tourism industry and for the communities dependent upon it Integrating knowledge from the social and physical sciences this significant book explores the key issues surrounding global environmental change as well as government and industry willingness to meet the challenges posed by it Divided into four main sections it investigates the tourism and global environmental change relationship in specific environments global issues related to environmental change differing perceptions of global environmental change held by tourists and the tourist industry Comprehensive in scope topical and integrative this key text is essential reading for students scholars and researchers in all aspects of tourism geography and environmental studies

Tourism and the Environment Susanne Becken, 2010 Becken in this well designed book fills a major gap in the tourism studies literature This book will be an essential reference for all who want to be informed about the evolution of thought involving the interrelationship between tourism and the environment Clem Tisdell University of Queensland Australia Tourism activity and the natural environment are closely interrelated This volume provides a timely selection of contributions to the literature pertaining to that

relationship It covers conceptual theoretical insights as well as empirical and methodological research The book will be valuable to a diverse readership including academic researchers policymakers and practitioners Twan Huybers University of New South Wales Australia This volume is a unique collection of important academic contributions made in the field of tourism and the environment in the last 30 years Dr Becken has carefully selected seminal articles which together represent a wide range of theoretical and applied pieces of research and offer detailed examples from different geographical areas Any scholar or practitioner with an interest in the area of tourism s environmental impacts and interactions will find this excellent reference collection very useful

Tourism and the Environment ,1991-01-01

Religious Tourism and the

Environment Kiran A. Shinde,Daniel H. Olsen,2020-09-30 The remarkable growth in religious tourism across the world has generated considerable interest in the impacts of this type of tourism Focusing here on environmental issues this book moves beyond the documentation of environmental impacts to examine in greater depth the intersections between religious tourism and the environment Beginning with an in depth introduction that highlights the intersections between religion tourism and the environment the book then focuses on the environment as a resource or generator for religious tourism and as a recipient of the impacts of religious tourism Chapters included discuss such important areas as theological views environmental responsibility and host perspectives
