English Medieval Misericords Paul Hardwick,2011

Misericord carvings present a fascinating corpus of medieval art which in turn complements our knowledge of life and belief in the late middle ages. Subjects range from the sacred to the profane and from the fantastic to the everyday seemingly giving equal weight to the scatological and the spiritual alike. Focusing specifically on England though with cognisance of broader European contexts this volume offers an analysis of misericords in relation to other cultural artefacts of the period. Through a series of themed case studies the book places misericords firmly within the doctrinal and devotional milieu in which they were created and sited arguing that even the apparently coarse images to be found beneath choir stalls are intimately linked to the devotional life of the medieval English Church. The analysis is complemented by a gazetteer of the most notable instances. Dr Paul Hardwick is Professor in English Leeds Trinity University College. [The Medieval Clothier](#) John S. Lee, 2018. A clear and accessibly written guide to the medieval cloth making trade in England. Cloth making became England's leading industry in the late Middle Ages. Clothiers coordinated its different stages in some cases carrying out the processes themselves and found markets for their finished cloth selling to merchants, drapers and other traders. While many clothiers were of only modest status or jacks of all trades a handful of individuals amassed huge fortunes through the trade becoming the multi millionaires of their day. This book offers the first recent survey of this hugely important and significant trade and its practitioners examining the whole range of clothiers across different areas of England and exploring their impact within the industry and in their wider communities. Alongside the mechanics of the trade it considers clothiers as entrepreneurs and early capitalists employing workers and even establishing early factories it also looks at their family backgrounds and their roles as patrons of church rebuilding and charitable activities. It is completed with extracts from clothiers' wills and a gazetteer of places to visit making the book invaluable to academics, students and local historians alike. JOHN S LEE is a Research Associate at the Centre for Medieval Studies at the University of York. **The Foundations of Modern Freemasonry** Ric Berman MA, 2022-01-01. Following the appointment of its first aristocratic Grand Masters in the 1720s and in the wake of its connections to the scientific Enlightenment Free and Accepted Masonry became part of Britain's national profile and the largest and most influential of Britain's extensive clubs and societies. The organisation did not evolve naturally from the mediaeval guilds and religious orders that predated it but was reconfigured radically by a largely self-appointed inner core at London's most influential lodge the Horn Tavern. Freemasonry became a vehicle for the expression of their philosophical and political views and the Craft attracted an aspirational membership across the upper middle and gentry. Through an examination of previously unexplored primary documentation Foundations contributes to an understanding of contemporary English political and social culture and explores how Freemasonry became a mechanism that promoted the interests of the Hanoverian establishment and connected the metropolitan and provincial elites. The book explores social networks centred on the aristocracy, parliament, the learned and professional societies and the magistracy and provides pen portraits of the key individuals who spread the Masonic message. Foundations and Schism Sussex Academic 2013 have been

described as the most important books on English Freemasonry published in recent times providing a precise social context for the invention of English Freemasonry Berman's analysis throws a new and original light on the formation and development of what rapidly became a national and international phenomenon *Money and Market in the Economy of All Times* Liviu C. assessing how far tradesmen especially shopkeepers satisfied and stimulated contemporary desires for consumer goods

Women at Work from Ancient Egypt Through the Middle Ages Lora Ann Sigler, 2025-10-17 Even voracious readers are often unaware that women have worked outside the home from the earliest recorded history A significant number of them have made names for themselves by being the first of either sex to do what they did For example the first musical composer we know of Enheduanna of Sumeria daughter of Sargon II Or even more astonishing the first practitioners of Caesarian sections for a difficult birth generally fatal for the mother but producing a live infant Thoroughly illustrated with high quality photographic images this work fills a gap in popular history detailing women at work from the dawn of civilization through to the Middle Ages There are four appendices regarding objects of interest related indirectly but importantly to the text as well as copious endnotes included with each chapter and a glossary of terms which may be unfamiliar to readers For those who wish to pursue related topics there is also a complete bibliography A number of the women included in this work have been forgotten by history even their real names unknown All however have contributed generously to their respective societies and cultures

Medieval Market Morality James Davis, 2011-11-24 This important study examines the market trade of medieval England by providing a wide ranging critique of the moral and legal imperatives that underpinned retail trade James Davis shows how market goers were influenced not only by practical and economic considerations of price quality supply and demand but also by the moral and cultural environment within which such deals were conducted This book draws on a broad range of cross disciplinary evidence from the literary works of William Langland and the sermons of medieval preachers to state civic and guild laws Davis scrutinises everyday market behaviour through case studies of small and large towns using the evidence of manor and borough courts From these varied sources Davis teases out the complex relationship between morality law and practice and demonstrates that even the influence of contemporary Christian ideology was not necessarily incompatible with efficient and profitable everyday commerce

Sekules,2001-04-26 This refreshing new look at Medieval art conveys a very real sense of the impact of art on everyday life in Europe from 1000 to 1500 It examines the importance of art in the expression and spread of knowledge and ideas including notions of the heroism and justice of war and the dominant view of Christianity Taking its starting point from issues of contemporary relevance such as the environment the identity of the artist and the position of women the book also highlights the attitudes and events specific to the sophisticated visual culture of the Middle Ages and goes on to link this period to the Renaissance The fascinating question of whether commercial and social activities between countries encouraged similar artistic taste and patronage or contributed to the defining of cultural difference in Europe is fully explored The Gubbio Studiolo and Its Conservation: Italian Renaissance intarsia and the conservation of the Gubbio studiolo Olga Raggio,Antoine M.
