The Comfort Women Hoax J. Mark Ramseyer,Jason M. Morgan,2024-01-23 During World War II the Japanese military extended Japan s civilian licensing regime for domestic brothels to those next to its overseas bases It did so

for a simple reason to impose the strenuous health standards necessary to control the venereal disease that had debilitated its troops in earlier wars In turn these brothels dubbed comfort stations recruited prostitutes through variations on the standard indenture contracts used by licensed brothels in both Korea and Japan The party line in Western academia though is that these comfort women were dragooned into sex slavery at bayonet point by Japanese infantry But as the authors of this book show that narrative originated as a hoax perpetrated by a Japanese communist writer in the 1980s It was then spread by a South Korean organization with close ties to the Communist North Ramseyer and Morgan discuss how these women really came to be in Japanese military comfort stations Some took the jobs because they were tricked by fraudulent recruiters Some were under pressure from abusive parents But the rest of the women seem to have been driven by the same motivation as most prostitutes throughout history want of money Indeed the notion that these comfort women became prostitutes by any other means has no basis in documentary history Serious intellectuals of all political perspectives in both South Korea and Japan have understood this for years Ramseyer and Morgan s findings caused a firestorm in Japanese Studies academia For explaining that the women became prostitutes of their own volition both authors of this book found themselves cancelled In this book the authors detail both the history of the comfort women and their own persecution by academic peers Only in the West and only through brutal stratagems of censorship and ostracism has the myth of bayonet point conscription survived

Grinin,Valentina M. Bondarenko.,Ivan A. Aleshkovski,Alexey I. Andreev,Julia V. Zinkina,Oleg A. Alekseenko,Olga G. Leonova,David Christian,Tatyana L. Shestova,Craig G. Benjamin,Sergey V. Tsirel,William R. Thompson,Kentaro Sakuwa,Mikhail A. Kaverin,Sergey Yu. Malkov,Vladimir Maslov,Stanislav Ye. Bilyuga,Olga I. Davydova,Dmitry S. Malkov.,Lowell Gustafson,David Baker,Alexander V. Markov,Joseph Voros,Alexander D. Panov,2015-01-01 This yearbook is the fourth in the series with the title Globalistics and Globalization Studies The subtitle of the present volume is Global History Big History The point is that today our global world really demands global knowledge Thus there are a few actively developing multidisciplinary approaches and integral disciplines among which one can name Global Studies Global History and Big History They all provide a connection between the past present and future Big History with its vast and extremely heterogeneous field of research encompasses all the forms of existence and all timescales and

brings together constantly updated information from the scientific disciplines and the humanities Global History is transnational or world history which examines history from a global perspective making a wide use of comparative history and of the history of multiple cultures and nations Global Studies express the view of systemic and epistemological unity of global processes Thus one may argue that Global Studies and Globalistics can well be combined with Global History and Big History and such a multi disciplinary approach can open wide horizons for the modern university education as it helps to form a global view of various processes *Teaching & Researching Big History: Exploring a New Scholarly Field* Leonid Grinin, David Baker, Esther Quaedackers, Andrey Korotayev, 2014-06-30 According to the working definition of the International Big History Association Big History seeks to understand the integrated history of the Cosmos Earth Life and Humanity using the best available empirical evidence and scholarly methods In recent years Big History has been developing very fast indeed Big History courses are taught in the schools and universities of several dozen countries Hundreds of researchers are involved in studying and teaching Big History The unique approach of Big History the interdisciplinary genre of history that deals with the grand narrative of 13.8 billion years has opened up a vast amount of research agendas Big History brings together constantly updated information from the scientific disciplines and merges it with the contemplative realms of philosophy and the humanities It also provides a connection between the past present and future Big History is a colossal and extremely heterogeneous field of research encompassing all the forms of existence and all timescales Unsurprisingly Big History may be presented in very different aspects and facets In this volume the Big History is presented and discussed in three different ways In its first part Big History is explored in terms of methodology theories of knowledge as well as showcasing the personal approach of scholars to Big History The second section comprises such articles that could clarify Big History's main trends and laws The third part of this book explores the nature of teaching Big History as well as profiling a number of educational methods This volume will be useful both for those who study interdisciplinary macroproblems and for specialists working in focused directions as well as for those who are interested in evolutionary issues of Astrophysics Geology Biology History Anthropology Linguistics and other areas of study More than that this edition will challenge and excite your vision of your own life and the exciting new discoveries going on around us **Korean "Comfort Women"** Pyong Gap Min, 2021-03-26 Arguably the most brutal crime committed by the Japanese military during the Asia Pacific war was the forced mobilization of 50 000 to 200 000 Asian women to military brothels to sexually serve Japanese soldiers The majority of these women died unable to survive the ordeal Those survivors who came back home kept silent about their brutal experiences for about fifty years In the late 1980s the women's movement in South Korea helped start the redress movement for the victims encouraging many survivors to come forward to tell what happened to them With these testimonies the redress movement gained strong support from the UN the United States and other Western countries Korean Comfort Women synthesizes the previous major findings about Japanese military sexual slavery and legal

recommendations and provides new findings about the issues comfort women faced for an English language audience It also examines the transnational redress movement revealing that the Japanese government has tried to conceal the crime of sexual slavery and to resolve the women s human rights issue with diplomacy and economic power
