The Illicit and Illegal in Regional and Urban Governance and Development Francesco Chiodelli, Tim Hall, Ray Hudson, 2017-09-27 Discussions of the illicit and the illegal have tended to be somewhat restricted in their disciplinary range to date and have been largely confined to the literatures of anthropology criminology policing and to an extent political science However these debates have impinged little on cognate literatures not least those of urban and regional studies which remain almost entirely undisturbed by such issues This volume aims to open up debates across a range of cognate disciplines *The Illicit and Illegal in Regional and Urban Governance and Development* is a multidisciplinary volume that aims to open up these debates extending them empirically and questioning the dominant discussions of governance and development that have been rooted largely or entirely in the realm of licit and legal actors The book investigates these issues with reference to a variety of different geographical contexts including but not limited to places traditionally considered to be associated with illegal activities and extensive illicit markets such as some regions in the so called Global South The chapters consider the ways in which these questions deeply affect the daily lives of several cities and regions in some advanced countries Their comparative perspectives will demonstrate that the illicit and the illegal are an underappreciated structural aspect of current urban and regional governance and development across the globe The book is an edited collection of
