A People's Guide to Greater Boston Joseph Nevins,Suren Moodliar,Eleni Macrakis,2020 Herein we bring you to sites that have been central to the lives of the people of Greater Boston over four centuries You ll visit sites associated with the area s indigenous inhabitants and with the individuals and movements who sought to abolish slavery to end war challenge militarism and bring about a more peaceful world to achieve racial equity gender justice and sexual liberation and to secure the rights of workers We take you to some well known sites but more often to ones far off the well beaten path of the Freedom Trail to places in Boston s outlying neighborhoods We also visit sites in numerous other municipalities that make up the Greater Boston region from places such as Lawrence Lowell and Lynn to Concord and Plymouth The sites to which we do travel include homes given that people s struggles activism and organizing sometimes unfold or are even birthed in many cases in living rooms and kitchens Trying to capture a place as diverse and dynamic as Boston is highly challenging One could say that about any big place We

thus want to make clear that our goal is not to be comprehensive or to do justice to the region. Given the constraints of space and time as well as the limitations of knowledge both our own and what is available in published form, there are many important sites, cities, and towns that we have not included. Thus in exploring scores of sites across Boston and numerous municipalities, our modest goal is to paint a suggestive portrait of the greater urban area that highlights its long contested nature. In many ways we merely scratch the region's surface or many surfaces given the multiple layers that any one place embodies. In writing about Greater Boston as a place, we run the risk of suggesting that the city writ large has some sort of essence. Indeed, the very notion of a particular place assumes intrinsic characteristics and an associated delimited space. After all, how can one distinguish one place from another if it has no uniqueness and is not geographically differentiated?

Nonetheless, geographer Doreen Massey insists that we conceive of places as progressive as flowing over the boundaries of any particular space, time, or society. In other words, we should see places as processual or ever changing, as unbounded in that they shape and are shaped by other places and forces from without and as having multiple identities. In exploring Greater Boston from many venues over 400 years, we embrace this approach. That said, we have to reconcile this with the need to delimit Greater Boston for among other reasons, simply to be in a position to name it and thus distinguish it from elsewhere.

Clearing Obstacles to Work: A Wise Giver's Guide to Fostering Self-Reliance David Bass, 2015-07-08

Cracks are becoming visible in American work habits. Whole subpopulations now have weak attachments to self-supporting labor. This worsens poverty and economic mobility. It also damages well-being in subtler ways because work plays a vital role in building social connections and boosting self-respect and happiness. Any sensible effort to improve American prosperity today must begin by bolstering work. Alas, government agencies have a very checkered history when it comes to helping those who have struggled in the workforce develop the capacities to do better in the future. Statistically, most government job training programs are quite unimpressive. There are, however, many charitable programs that have demonstrated real success at leading unskilled persons, single mothers, inexperienced minorities, released prisoners, former addicts, and other at-risk populations into lasting transformative employment. This book was written to help donors find those successful models and strategies. Because when it comes to curing deprivation, softening inequality, improving life satisfaction, and strengthening society, work works.
