Probing Parapsychology Grant R. Shafer, 2023-05-16 Parapsychology is a science made controversial by its subjects extrasensory perception psychokinesis mind over matter and disembodied minds which imply life after death Moreover these parapsychological phenomena called psi challenge physicalism the philosophy that everything can be completely understood in terms of physics This book is a snapshot of the parapsychological field with essays written by authors of diverse academic

backgrounds and experiences Essays examine parapsychological phenomena from prehistory through the founding of the science by intellectuals distressed by physicalism to the postmodern present It includes both experimental and theoretical evaluations of the phenomena Parapsychology is a science which may overturn the philosophy which has dominated science since Newton and may inspire curious readers who are disheartened by the consequent denial of the spirit **After this**

Claire Bidwell Smith,2015 In an exploration of the afterlife that is part personal part prescriptive Smith invites us on her journey into the unknown She wonders How do we grieve our loved ones without proof that they live on Will we ever see them again Can they see us now Chronicling our steps along the path that bridges this world and the next Smith undergoes past life regressions and sessions with mediums and psychics and immerses herself in the ceremonies of organised religion and the rigour of scientific experiments to try and find the answers **Lady in the Window** Maryann Ridini
