Laboratory Manual of Pharmaceutical Analysis I Mr. Sushant Sudhir

Pande, Dr. Niranjana S. Mahajan, Mr. Vinayak S. Marulkar, Dr. Ketaki S. Dhane, 2023-10-02 We are very pleased to put forth Laboratory Manual of Pharmaceutical Analysis I. This manual is designed as per syllabus set by PCI for first year degree course in pharmacy as per PCI B Pharm course regulations 2014. This manual is a sincere effort to improve the practical skills of students so that every student will understand the objective of each experiment and perform the practical easily. This manual is designed for outcome based education and each experiment is arranged in uniform way such as Aim, Practical Significance, Practical Outcomes, Theory, Resources Required, Precautions, Procedure, Observations, Calculations, Results, Conclusion, References, and Synopsis. Theory of each experiment is given in all fifteen experiments making the manual more interesting. The manual also focuses on practical skills as well as on the observation tables and calculations that will be helpful in qualitative and quantitative analysis. The experiments designed in this manual are written after practical performance in the laboratory by the authors themselves. We welcome all the suggestions from teachers and students regarding the conduct of the practical. Also, you can put your queries in case of difficulties directly to us so that the effective solution can be given to you. We are always with you to support and help, so feel free to interact with us. We look forward for your valuable feedback regarding the manual. We acknowledge the help and co-operation extended by various persons in bringing out this manual. We are highly indebted to the authors of various books and articles mentioned in bibliography which became a major source of information for writing this manual. We also thank the publishers, designers, and printers who graciously worked hard to publish this manual in time.
