An Explosion Are you all ready Tom All ready Mr Sharp replied a young man who was stationed near some complicated apparatus while the questioner a dark man with a nervous manner leaned over a large tank I'm going to turn on the gas now went on the man Look out for yourself I'm not sure what may happen Neither am I but I'm ready for it If it does explode it can't do much damage Oh I hope it doesn't explode We've had so much trouble with the airship I trust nothing goes wrong now Well turn on the gas Mr Sharp advised Tom Swift I'll watch the pressure gauge and if it goes too high I'll warn you and you can shut it off The man nodded and with a small wrench in his hand went to one end of the tank The youth looking anxiously at him turned his gaze now and then toward a gauge somewhat like those on steam boilers which gauge was attached to an aluminum cigar shaped affair about five feet long Presently there was a hissing sound in the small frame building where the two were conducting an experiment which meant much to them The hissing grew louder Be ready to jump advised Mr Sharp I will answered the lad But the pressure is going up very slowly Maybe you'd better turn on more gas I will Here she goes Look out now You can't tell what is going to happen With a sudden hiss as the powerful gas under pressure

passed from the tank through the pipes and into the aluminum container the hand on the gauge swept past figure after figure on the dial Shut it off cried Tom quickly It s coming too fast Shut her off The man sprang to obey the command and with nervous fingers sought to fit the wrench over the nipple of the controlling valve Then his face seemed to turn white with fear I can t move it Mr Sharp yelled It s jammed I can t shut off the gas Run Look out She ll explode Tom Swift the young inventor whose acquaintance some of you have previously made gave one look at the gauge and seeing that the pressure was steadily mounting endeavored to reach and open a stop cock that he might relieve the strain One trial showed him that the valve there had jammed too and catching up a roll of blue prints the lad made a dash for the door of the shop He was not a second behind his companion and hardly had they passed out of the structure before there was a loud explosion which shook the building and shattered all the windows in it Pieces of wood bits of metal and a cloud of sawdust and shavings flew out of the door after the man and the youth and this was followed by a cloud of yellowish smoke Are you hurt Tom cried Mr Sharp as he swung around to look back at the place where the hazardous experiment had been conducted Not a bit How about you I m all right But it was touch and go Good thing you had the gauge on or we d never have known when to run Well we ve made another failure of it and the man spoke somewhat bitterly Never mind Mr Sharp went on Tom Swift
