unlock the power of transformational coaching and leadership *Money Mindset Mentors* Dr. John J. Churchill, 2022-09-26

Money Mindset Mentors looks at some of the most successful people in history from Aristotle to Warren Buffett and expertly maps the high achievement mindset that brings about success in both business and in life. While this book sits firmly in the non-fiction self-help and business psychology genre, its appeal is universal. It has over twenty success models from business psychology and has a key to success at the end of each chapter. The human brain is the most complicated machine on the planet and is capable of trillions of calculations a second, but we were never given a user's manual. This book, in a way, is the manual that you need to achieve human excellence. Through the insights gained from a lifetime in clinical medicine and the world of business, Churchill now brings business psychology to your fingertips from the greatest business minds on earth. What makes a great person exceptional? What marks them out in the history of humanity? Churchill has analyzed the success principles of some of the world's most influential people, including Sir Richard Branson and Abraham Lincoln. Nobody is born great. It is merely a self-belief system that is unshakable. The mentors show us how they did it, and the reader can walk in the footsteps of true greatness. This book will provide the reader with a rigorous apprenticeship as you absorb the hidden knowledge that comes from the years of experience of successful mentors. You will learn how to forge past competitors and surpass them in brilliance. This book teaches how to establish paths of excellence from within. **Tony Robbins** James Clark, Rick Kennedy, 2016-03-02
