FACILITY MANAGEMENT: Human Outsourcing

Solutions to Clients Dheeraj Mann, 2009-12 The Facilities Management book gives a complete and comprehensive guide to the different aspects of the Facility Manager's role from compliance with health and safety law through risk management to getting the most out of building and space. It enables managers to keep abreast of all key facts required in the day-to-day running of a business and offers a concise encyclopedia on all facilities management issues combining best practice tips with proactive advice.

Service Quality for Facilities Management in Hospitals Low Sui Pheng, Zhu Rui, 2016-05-12 This book examines the Facilities Management FM of hospitals and healthcare facilities which are among the most complex, costly and challenging kind of buildings to manage. It presents and evaluates the FM service quality standards in Singapore's hospitals from the patient's perspective and provides recommendations on how to successfully improve FM service quality and achieve higher patient satisfaction. The book also features valuable supplementary materials including a checklist of 32 key factors for successful facilities management and another checklist of 24 service attributes for hospitals to achieve desirable service quality in connection with facilities management. The book adopts a unique approach of combining service quality and quality theory to provide a more holistic view of how FM service quality can be achieved in hospitals. It also integrates three instruments namely the SERVQUAL model, the Kano model and the QFD model to yield empirical results from surveys for implementation in hospitals. Although the book was written from the perspective of FM service quality for hospitals, the findings and recommendations are also relevant for other non-healthcare sectors where appropriate lessons may also be drawn for FM and service quality in general. It will particularly benefit Quality Managers, Facilities Managers and Hospital Administrators.

Workplace Strategies and Facilities Management Rick Best, Gerard de Valence, Craig Langston, 2007-08-22 This book provides comprehensive coverage of issues that facility managers in the property industry need to understand and apply in the pursuit of value for money over the life span of built facilities. The authors introduce the fast-growing discipline of facility management, examine the core competencies that facility managers should possess and study different contemporary drivers of change. The book emphasises the need to consider facilities management issues at the pre-design stage of the construction process rather than only when the building is completed in order to maximise value for money.

Once Upon a Time in Facilities Management Patricia McCarroll, John Hassard, 2024-09-23 What would the world of work look like if interpreted through the lens of the fairytale? To answer this question *Once Upon a Time in Facilities Management* explores storied spaces and metaphorical archetypes in the study of business management and organization. At its core, the authors offer a diagnostic approach for the study of work organization that links management theory, storytelling and the business imaginary. An important empirical focus is also included that explores a business service rarely studied in the management literature: Facilities Management FM, a secondary service of non-core and increasingly outsourced.

organizational functions An in depth appreciation of FM is provided that assesses the people practices and processes of the service in a study that also highlights the characteristic liminality of the sector s professional activities Emphasis is placed on illuminating the storytelling nature of the service using primarily the genre of fairytales to identify representational archetypes including queen shadow sage trickster adventurer and eternal child within FM s storied space In the process three central characters essentially modes of FM delivery are identified the professional consultant the external service provider and the in house function with these forming the structural basis of fairytales explaining the culture and symbolism of FM as a business service The authors conclude by extrapolating findings from the study to inform a discussion of the contributions of folkloric analysis to organization theory explicitly and our understanding of business and management practice more widely

Facilities Management and Development for Tourism, Hospitality and Events Ahmed Hassanien, Crispin Dale, 2013 Facilities planning for tourism hospitality and events THE is an important subject from both theoretical and applied perspectives as land property and resources represent major components of the foundation of the industry As future managers it is imperative that students have a sound basic knowledge of property and the various resources systems and services associated with it Covering important contemporary subjects such as sustainable planning and environmental management this book considers the planning development and management of facilities operations from several key perspectives drawing upon the expertise of complementary experts in the design management and development of THE facilities

Facilities Management and Corporate Real Estate Management as Value Drivers Per Anker Jensen, Theo van der Voordt, 2016-10-04 Facilities Management FM and Corporate Real Estate Management CREM are two closely related and relatively new management disciplines with developing international professions and increasing academic attention Both disciplines have from the outset a strong focus on controlling and reducing cost for real estate facilities and related services In recent years there has been a change towards putting more focus on how FM CREM can add value to the organisation This book is driven by the need to develop a widely accepted and easily applicable conceptual framework of adding value by FM and CREM It presents the state of the art of theoretical knowledge and empirical evidence about the impact of buildings and facilities on 12 value parameters and how to manage and measure these values The findings are connected to a new Value Adding Management model The book is research based with a focus on guidance to practice It offers a transdisciplinary approach integrating academic knowledge from a variety of different fields with practical experience It also includes 12 interviews with practitioners shedding light as to how they manage adding value in practice This is a much needed resource for practitioners researchers and teachers from the field of FM and CREM as well as students at both undergraduate and postgraduate level
