**[Introducing special events
and offers]**

Suntan tours offers a variety of special discounts depending on your travel plans. We have golf packages, as well as guided whale boat tours, and fishing charters. There will be a short information session at 1pm in the lobby of the hotel tomorrow where you can learn all about these offers. We recommend that you do not purchase packages from street vendors as they are not always 100 percent reliable. They also may charge you more than what they say. Please take my advice and allow Suntan tours to book all of your day trips and activities while you are here.

The Tour Guide Jonathan R. Wynn, 2011-07-05. Everyone wants to visit New York at least once. The Big Apple is a global tourist destination with a dizzying array of attractions throughout the five boroughs. The only problem is figuring out where to start and that's where the city's tour guides come in. These guides are a vital part of New York's raucous sidewalk culture, and as *The Tour Guide* reveals, the tours they offer are as fascinatingly diverse and eccentric as the city itself. Visitors can take tours that cover Manhattan before the arrival of European settlers, the nineteenth-century Irish gangs of Five Points, the culinary traditions of Queens, the culture of Harlem, or even the surveillance cameras of Chelsea. In short, there are tours to satisfy anyone's curiosity about the city's past or present. And the guides are as intriguing as the subjects we learn about. Jonathan R. Wynn explores the lives of the people behind the tours, introducing us to office workers looking for a diversion from their desk jobs, unemployed actors honing their vocal skills, and struggling retirees searching for a second calling. Matching years of research with his own experiences as a guide, Wynn also lays bare the grueling process of acquiring an official license and offers a how-to guide to designing and leading a tour. Touching on the long history of tour giving across the globe, as well as the ups and downs of New York's tour guide industry in the wake of 9/11, *The Tour Guide* is as informative and insightful as the chatty, charming, and colorful characters at its heart.

Manual for Guiding Techniques Ettore Amato, 2021-06-15 As far as I am aware Tourist Guide Techniques have not previously been the subject of many manuals I have decided then to offer the future tourist guides everything my long career in the tourism field has taught me about the technical aspects of guiding This to help them to better understand their role as interpreters of what is observed and how to practise it efficiently There is no such thing as a universal way in which to guide tourists since this art and profession derives its uniqueness from the spontaneity and individual charisma of each tourist guide What is presented in this manual is a method based on assorted suggestions and procedures that will assist the tourist guides and establish a sound understanding of what they must know This manual therefore does not intend to supply a set formula which must be followed slavishly since that would inhibit the individual creativity which each tourist guide should possess Instead this manual provides a mean to better prepare them TECHNICALLY for their future tasks Author

and within buildings The key idea embodied in the book is that learning through touring is haptic the learner is a physical cognitive and emotional participant in the process It also develops the concept that tours rather than being finished products are designed to evolve through user participation and over time Part One of the book presents a series of analytical investigations into theories and practices of learning and touring that have then been developed to produce a set of conceptual methods for tour design Projects that have tried and tested these methods are described in Part Two Technologies that have been utilised as portable tools for learning through touring are illustrated both through historical and contemporary practices In all of this there is an underlying belief that what is formally presented to us by authorities is open to self discovery questioning and independent enquiry The book is particularly relevant for those seeking innovative ways to explore and engage with the built environment mobile learning educators learning departments in museums galleries and historic buildings organisations involved in bridging the gap between architecture and public understanding and anyone who enjoys finding out new things about their environment
