The Routledge Handbook of Community Based Tourism Management Sandeep Kumar Walia,2020-12-21 This Handbook offers an up to date and comprehensive overview of core themes and concepts in community based tourism management Providing interdisciplinary insights from leading

international scholars this is the first book to critically examine the current status of community based tourism Organised into five parts the Handbook provides cutting edge perspectives on issues such as Indigenous communities tourism and the environment sustainability and the impact of digital communities Part 1 introduces core concepts and methodologies and distinguishes community products from other tourism and hospitality goods Part 2 explores communities attitudes towards tourism development and their engagement with and ownership of the process It also delves into the role of community based tourism under the influence of governmental policies in the economic and social development of a region In Part 3 various management marketing and branding initiatives are identified as a means of expanding the tourism business Part 4 examines the negative impacts of mass tourism and its threats to culture tradition identity the built environment and natural heritage In the final and fifth part future challenges and opportunities for community based tourism initiatives are considered and research based sustainable solutions are proposed Overall the book considers engaging local populations in tourism development as a way of building stronger and more resilient communities This Handbook fills a void in the current research and thus will appeal to scholars students and practitioners interested in tourism management tourism geography business studies development policy and practice regional development conservation and sustainability **Planning for Tourism**

Nigel D Morpeth, Hongliang Yan, 2015-05-01 This text provides an innovative approach to the pedagogy of contemporary planning processes within different cultural contexts globally It adopts an innovative multi disciplinary social science approach and through the inclusion of international case studies considers the extent to which intelligent design has enabled the needs of disabled residents and visitors to have universal access to social spaces and facilities In incorporating the consideration into the fabric of the book it will encourage the mainstreaming of universal design and accessible tourism as keystones of planning processes within the C21st **The Politics and Power of Tourism in Palestine** Rami K. Isaac, C. Michael Hall, Freya Higgins-Desbiolles, 2015-12-14 Tourism in Palestine has been receiving an increasingly important profile given its economic and religious importance and the significant role it plays in Israeli Palestinian relations representation of Palestinian statehood and identity and wider Middle Eastern politics Nevertheless Palestine like much of the Middle East as a whole remains extremely underrepresented in tourism literature This title aims to fill this void by being the first book dedicated to exploring the significance of tourism in relationship to Palestine The book examines the role of tourism in Palestine at three main levels First it provides an overview of destination management and marketing issues for the tourism industry in Palestine and addresses not only the visitor markets and the economic significance of tourism but also the realities of the difficulties of destination management marketing and promotion of the Palestinian state Second it provides a series chapters and case studies that interrogate not only the various forms of tourism in Palestine but also its economic social environmental and spiritual importance This section also conveys a dimension to tourism in Palestine that is not usually appreciated in the Western mainstream media The third section indicates the way in which tourism in Palestine

highlights broader questions and debates in tourism studies and the way in which travel in the region is framed in wider discourses. A significant dimension of the book is the attention it gives to the different voices of stakeholders in Palestinian tourism at varying levels of scale. This timely volume will offer the reader significant insight into the challenges and issues of tourism in this area now and in the future. It will benefit those interested in tourism, Middle East studies, politics, economics, development studies and geography.

Tourism and Citizenship Raoul Bianchi, Marcus Stephenson, 2014-02-24. More than sixty years since the 1948 Universal Declaration of Human Rights first enshrined the right to freedom of movement in an international charter of human rights, the issue of mobility and the right to tourism itself have become increasingly significant areas of scholarly interest and political debate. However, despite the fact that cross border travel implies certain citizenship rights as well as the material capacity to travel, the manifold intersections between tourism and citizenship have not received the attention they deserve in the literature. This book endeavours to fill this gap by being the first to fully examine the role of tourism in wider society through a critically informed sociological reflection on the unfolding relationships between international tourism and distinct renderings of citizenship, with particular emphasis on the ideological and political alignments between the freedom of movement and the right to travel. The text weaves its analysis of citizenship and travel in the context of addressing large scale societal transformations engendered by globalization, neoliberalism and the geopolitical realignments between states as well as comprehending the internal reconfiguring of the relationship between citizens and states themselves. By doing so, it focuses on key themes including tourism and social citizenship, rights, race, culture and minority rights, states, markets and the freedom of movement, tourism, peace and geo politics, consumerism and class and ethical tourism, global citizenship and cosmopolitanism. The book concludes that the advancement of genuinely democratic and just forms of tourism must be commensurate with demands for distributive justice and a democratic politics of mobility encompassing all of humanity. This timely and significant contribution to the sociology and politics of international tourism through the lens of citizenship is a must read for students and scholars in both the fields of tourism and social science. The royalties received from this book will be donated to the International Porter Protection Group.

The Changing Policy-Making Process in Greater China Bennis Wai Yip So, Yuang-kuang Kao, 2014-04-24. This book explores how the policy making process is changing in the very volatile conditions of present day mainland China, Taiwan and Hong Kong. It considers the overall background conditions, the need to rebalance in mainland China after years of hectic economic growth, governance transition and democratic consolidation in Taiwan and governance crisis in Hong Kong under a regime of uncertain legitimacy. It examines the various actors in the policy making process, the civic engagement of ordinary people and the roles of legislators, mass media and bureaucracy and discusses how these actors interact in a range of different policy cases. Throughout the book, it contrasts the different approaches in the three different jurisdictions and assesses how the policy making process is changing and how it is likely to change further.
