Tournee Een Roman Over Nieuw Guinea:

Romans and Anglicans in Papua New Guinea ,1991 Introductory Readings in Anthropology Hilary

Callan,Brian Street,Simon Underdown,2013-03 Anthropology seeks to understand the roots of our common humanity the diversity of cultures and world views and the organisation of social relations and practices As a method of inquiry it embraces an enormous range of topics and as a discipline it covers a multitude of fields and themes as shown in this selection of original writings As an accessible entry point for upper level students and first year undergraduates new to the study of anthropology this reader also offers guidance for teachers in exploring the subject s riches with their students That anthropology is an immensely expansive inquiry of study is demonstrated by the diversity of its topics from nature conservation campaigns to witchcraft beliefs from human evolution to fashion and style and from the repatriation of indigenous human remains to research on literacy There is no single story of anthropology Taken together these fundamental readings are evidence of a contemporary vibrant subject that has much to tell us about all the worlds in which we live

Experiencing the Frontier and the Frontier of Experience: Barbarian perspectives and Roman strategies to deal with new threats Alexander Rubel,Hans-Ulrich Voß,2020-12-17 This book considers the Roman Empire s responses to the threats which were caused by the new geostrategic situation brought on by the crisis of the 3rd century AD induced by the barbarians who often already part of Roman military structures as mercenaries and auxiliaries became a veritable menace for the Empire **Two Years Among New Guinea Cannibals** A. E. Pratt,2022-01-17 In Two Years Among New Guinea Cannibals A E Pratt offers a riveting ethnographic account of his experiences in the remote villages of New Guinea during the early 20th century Pratt s prose interweaves vivid descriptions of local customs rituals and the complex social structures of the indigenous tribes providing readers with an immersive glimpse into a world steeped in cultural richness and at times grim realities Written in an accessible yet detailed literary style the book emerges as a crucial text in the field of anthropology reflecting the era s fascination with exotic cultures while also challenging prevailing Western notions of civility and progress A E Pratt was not only an explorer but also an ethnologist whose academic pursuits were catalyzed by a deep seated interest in the diversity of human experience His time spent living among the tribes placed him in an unparalleled position to document their way of life but it was also informed by the anthropological theories of his time promoting a nuanced understanding of cultural relativism Pratt s firsthand narratives are thus critical for understanding both the dynamics of the societies he studied and his own interpretive lens For readers interested in anthropology cultural studies or the history of exploration Pratt s work serves as an essential resource that transcends mere travelogue Two Years Among New Guinea Cannibals invites you to engage with the complexities of human life through a lens that is both personal and scholarly making it a valuable addition to any collection aimed at understanding the richness of global cultures In this enriched edition we have carefully created added value for your reading experience Hand picked Memorable Quotes shine a

Guinea Highlands Alan Rumsey,Don Niles,2011-08-01 The genres of sung tales that are the subject of this volume are one of the most striking aspects of the cultural scene in the Papua New Guinea Highlands Composed and performed by specialist bards they are a highly valued art form From a comparative viewpoint they are remarkable both for their scale and complexity and for the range of variation that is found among regional genres and individual styles Though their existence has previously been noted by researchers working in the Highlands and some recordings made of them most of these genres have not been studied in detail until quite recently mainly because of the challenging range of disciplinary expertise that is required in anthropology linguistics and ethnomusicology This volume presents a set of interrelated studies by researchers in all of those fields and by a Papua New Guinea Highlander who has assisted with the research based on his lifelong familiarity with one of the regional genres The studies presented here all of them previously unpublished and written especially for this volume are of groundbreaking significance not only for specialists in Melanesia or the Pacific but also for readers with a more general interest in comparative poetics mythology musicology or verbal art **Statistical Account of the Seven Colonies of Australasia** New South Wales.
