systems of unearned advantage that correspond to systems of oppression Part II helps readers to understand that feelings of fraudulence may be imposed by our hierarchical cultures rather than by any actual weakness or personal shortcomings Part III presents McIntosh's Interactive Phase Theory highlighting five different world views or attitudes about power that affect school curriculum cultural values and decisions on taking action The book concludes with powerful insights from SEED a peer led teacher development project that enables individuals and institutions to work collectively toward equity and social justice This book is the culmination of forty years of McIntosh's intellectual and organizational work *Antiracist Discourse in Brazil* Teun A. van Dijk, 2020-09-28 *Antiracist Discourse in Brazil* From Abolition to Affirmative Action follows Teun A van Dijk's earlier studies on racist discourse in Europe the USA and Latin America This book focuses on antiracist discourse focusing on the history of the discourse against slavery and racism and in favor of abolition and affirmative action in Brazil After a theoretical chapter on antiracism and antiracist discourse the author studies Jesuit texts of the 17th and 18th century criticizing the abuses against slaves and the texts of black and white writers in the 19th century advocating abolition The author analyzes discourses of 20th century scholars journalists and activists who explicitly combat prevalent international eugenicist and racist ideologies as well as post abolition discrimination of black people all while challenging the dominant myth of Brazil as a racial democracy After the historical study of these antiracist discourses this book offers a detailed case study of contemporary debates on affirmative action in Brazilian parliament *Becoming a White Antiracist* Stephen D. Brookfield, Mary E. Hess, 2023-07-03 As this book was being written the United States exploded in outrage against the murder by police of people of color across the country Corporations branches of state and local government and educational institutions all pledged to work for racial justice and the Black Lives Matters movement moved into the mainstream as people from multiple racial and class identities pledged their support to its message Diversity initiatives abounded mission statements everywhere were changed to incorporate references to racial justice and the rampant anti blackness endemic to US culture was brought strikingly to the surface Everywhere it seemed white people were looking to learn about race What do we do How can we help These were the cries the authors heard most frequently from those whites whose consciousness of racism was being raised This book is their answer to those cries It's grounded in the idea that white people need to start with themselves with understanding that they have a white racial identity Once you've learned about what it means to be white in a white supremacist world the answer of what can I do becomes clear Sometimes you work in multiracial alliances but more often you work with white colleagues and friends In this book the authors explore what it means for whites to move from becoming aware of the extent of their unwitting collusion in racism towards developing a committed antiracist white identity They create a road map or series of paths that people can consider traveling as they work to develop a positive white identity centered around enacting antiracism The book will be useful to anyone trying to create conversations around race teach about white supremacy arrange staff and development workshops on racism and help colleagues explore how to create an

antiracist culture or environment This work happens in schools colleges and universities and we suspect many readers will be located in K 12 and higher education But helping people develop an antiracist identity is a project that occurs in corporations congregations community groups health care state and local government arts organizations and the military as well Essentially if you have an interest in helping the whites you interact with become antiracist then this book is written very specifically for you Watch our BWAR YouTube playlist where authors Stephen Brookfield and Mary Hess chat about some common themes from the book Antiracist Discourse Teun A. van Dijk, 2021-04-22 Antiracism is a global and historical social movement of resistance and solidarity yet there have been relatively few books focusing on it as a subject in its own right After his earlier books on racist discourse Teun A van Dijk provides a theory of antiracism along with a history of discourse against slavery racism and antisemitism He first develops a multidisciplinary theory of antiracism highlighting especially the role of discourse and cognition as forms of resistance and solidarity He then covers the history of antiracist discourse including antislavery and abolition discourse between the 16th and 19th century antiracist discourse by white and black authors until the Civil Rights Movement and Black Lives Matter and Jewish critical analysis of antisemitic ideas and discourse since the early 19th century It is essential reading for anyone interested in how racism and antisemitism have been critically analysed and resisted in antislavery and antiracist discourse *Violent Trauma, Culture, and Power* Michelle Walsh, 2017-02-16 This book is an interdisciplinary exploration of the intertwining impact of violent trauma culture and power through case studies of two ministries serving in different demographic contexts within the United States Mass shootings continue to rise in the United States including in religious and school contexts and the U S also is ground zero for the now international Black Lives Matter movement The author shows how all forms of violent trauma impact more than individuals devastating communal relationships and practices of religious or spiritual meaning making in the aftermath and assesses how these impacts differ according to lived experiences with culture and power Looking at the two ministries an urban grassroots lay ministry organization that serves surviving family members in the aftermath of homicide and a denominational ministry that served a church in the aftermath of a political and religiously motivated shooting the author develops trauma specific interdisciplinary tools for lived religion studies This book powerfully utilizes an intersectional lens to highlight the inter interconnections to be found for those working in faith communities as well as mental health Walsh provides the reader with an opportunity to explore and develop theoretical and practice perspectives that include race and ethnicity religion and spirituality social class and ability sexual orientation immigration and refugee status and explores the impact that oppression and discrimination have on our communities and society I highly recommend this book for those who are engaged in working to combat domination at the local national and global levels Gary Bailey Simmons College USA **Black Fatigue** Mary-Frances Winters, 2020-09-15 The first book to define and explore the intergenerational impact of systemic racism on the health of Black people and how to combat its pernicious effects Black people young and old are fatigued says award winning

diversity and inclusion leader Mary Frances Winters It is physically mentally and emotionally draining to continue to experience inequities and even atrocities day after day when justice is a God given and legislated right And it is exhausting to have to constantly explain this to white people even and especially well meaning white people who fall prey to white fragility and too often are unwittingly complicit in upholding the very systems they say they want dismantled This book designed to illuminate the myriad dire consequences of living while Black came at the urging of Winters s Black friends and colleagues Winters describes how in every aspect of life from economics to education work criminal justice and very importantly health outcomes for the most part the trajectory for Black people is not improving It is paradoxical that with all the attention focused over the last fifty years on social justice and diversity and inclusion little progress has been made in actualizing the vision of an equitable society Black people are quite literally sick and tired of being sick and tired Winters s work as a diversity and inclusion leader informs this exploration of the toll that systemic racism takes on Black people every single day and the need for activism that leads to meaningful radical change Popsugar Winters hopes to inspire aspiring allies with better insight into the Black experience Book Riot 12 Essential Books About Black History and Identity Organizing Your Own Say Burgin,2024-04-16 The untold story of how white activists in Detroit heeded Black Power s call for them to organize against racism in white communities Plato's Socrates on Socrates Anne-Marie Schultz,2020-03-19 In Plato s Socrates on Socrates Socratic Self Disclosure and the Public Practice of Philosophy Anne Marie Schultz analyzes the philosophical and political implications of Plato s presentation of Socrates self disclosive speech in four dialogues Theaetetus Symposium Apology and Phaedo Schultz argues that these moments of Socratic self disclosure show that Plato s presentation of Socrates the narrator is much more pervasive than the secondary literature typically acknowledges Despite the pervasive appearance of a Socrates who describes his own experience throughout the dialogues Socratic autobiographical self disclosure has received surprisingly little scholarly attention Plato s use of narrative particularly his trope of Socrates the narrator is often subsumed into discussions of the dramatic nature of the dialogues more generally rather than studied in its own right Schultz shows how these carefully crafted narrative remarks add to the richness and profundity of the Platonic texts on multiple levels To illustrate how these embedded Socratic narratives contribute to the portrait of Socrates as a public philosopher in Plato s dialogues the author also examines Socratic self disclosive practices in the works of bell hooks Kathy Khang and Ta Neishi Coates and even practices the art of Socratic self disclosure herself Doing Anti-Racist Business Sheila M. Science is Not Great Colton Martens,2023-09-19 Science Is Not Great Throughout the COVID 19 pandemic politicians repeatedly appealed to the science to justify tyrannical policies and much of the population passively complied Such compliance stemmed from a deep religious reverence for science in which people see science as an infallible god But is science really that great or is it doing more harm than good In Science Is Not Great author Colton Martens a university professor who holds a BS in Biology and a PhD in Molecular Cellular and Developmental Biology explores the political biases that dominate scientific institutions and call academia s politically charged conclusions into question He discourages people from blindly putting their faith in science citing problems with the scientific method past failures of biomedical science and past vaccine mistakes The author also takes a somewhat unique stance against advanced biomedical science and discusses the long term negative effects this will have for our species health The book shows how science has a surprisingly poor track record and should not be worshiped as the be all end all solution to society s ills In fact the author argues that science is being used to create a highly undesirable dystopian future and he offers suggestions on how to fix science and once again make it a force for good

Becoming an Anti-Racist Church Joseph Barndt,2011-03-01 Christians addressing racism in American society must begin with a frank assessment of how race figures in the churches themselves leading activist Joseph Barndt argues This practical and important volume extends the insights of Barndt s earlier more general work to address the race situation in the churches themselves and to equip people there to be agents for change in and beyond their church communities

White Minds Guilaine Kinouani,2023-10-26 It is widely understood that race is a social fact with profound implications for life chances group identity collective representation and the social order Whiteness the source of race based inequality and injustice is perpetuated through power violence and an array of complex processes which help protect the status quo While there has been much focus on the psychological harm of racism on people of colour less attention has been paid to the role of psychological functioning of white groups in maintaining unequal social configurations In this much needed book Guilaine Kinouani a leading thinker and commentator on race deftly cuts to the heart of the problem arguing that whiteness is a historically and socially located psychosocial phenomenon as much as one which evades time and space locations She examines how the psychological and psychic factors involved in the reproduction of whiteness intersect with macro structures shedding light on everyday race dynamics race inequality and racial violence This book will be of interest to all who seek to understand the impact of whiteness so they can be more effective anti racists

Anti-racism and Multiculturalism Mark Alleyne,2017-09-08 All scholarly books are engagements with the existing

literature often the published scholarly work of one established discipline This book originated with modest objectives to produce a work that would be in conversation with the literature of international relations even though not of relevance only to that field The professed goal of international relations is international peace The ethical lens of pondering the best means to achieve world peace is used to filter media content in the field of multiculturalism and anti racism Although there has been little work on the impact of racial difference on the contours of contemporary international order there has been a sizeable body of research intended to abolish the credibility of pseudo scientific racism Such racism has provided the ideological foundation and justification for imperialism colonialism the holocaust and apartheid Race has been debunked as a myth Because of this racism the ideology bred of human classification according to racial difference has been found to be intellectually and morally barren But the need to communicate egalitarian and scientific sentiments remains The contributors to this volume consider five questions How does the literature on antiracism improve our understanding of conflict resolution How does the analysis of the media s role in racist and anti racist discourses improve the process of theorizing on hate and war propaganda How can research on anti racist discourse improve UN peacekeeping What implications does this subject have for theory building and cultural diversity How and why should the literature on anti racism expand research in international relations This is a unique worthwhile framework for cross disciplinary research in race and intellectual consensus and conflict
