Toxic Injustice A Transnational History Of Exposure And Struggle

Amelia Fiske, Jonas Fischer

Toxic Injustice A Transnational History Of Exposure And Struggle:

Toxic Injustice Susanna Rankin Bohme, 2015 The pesticide dibromochloropropane known as DBCP was developed by the chemical companies Dow and Shell in the 1950s to target wormlike soil dwelling creatures called nematodes Despite signs that the chemical was dangerous it was widely used in U S agriculture and on Chiquita and Dole banana plantations in Central America In the late 1970s DBCP was linked to male sterility but an uneven regulatory process left many workers especially on Dole s banana farms exposed for years after health risks were known Susanna Rankin Bohme tells an intriguing multilayered history that spans fifty years highlighting the transnational reach of corporations and social justice movements Toxic Injustice links health inequalities and worker struggles as it charts how people excluded from workplace and legal protections have found ways to challenge power structures and seek justice from states and transnational corporations alike

Toxic Amelia Fiske, Jonas Fischer, 2024-03-26 Over the past decade people have learned about oil contamination in the Ecuadorian Amazon through toxic tours in which a guide brings participants students lawyers environmental activists journalists and foreign tourists to visit contaminated sites These toxic tours combine personal experience and local knowledge to convince visitors of the immediacy of environmental issues Drawing on extensive research and fieldwork Toxic takes the reader on a visual toxic tour through the Amazon Following the story of three fictional participants this graphic novel paints a visceral picture of the waste pits gas flares and precarious lives of people in this region The book challenges the reader to consider what it means to live in a place and historical moment where victims of industrial toxicants are continually required to prove that harm has occurred Toxic is a vivid reflection on the role of pollutants in our everyday lives ultimately asking readers to reflect on how we are each implicated in the production consumption and exposure of pollution both in the Amazon and at home

Textbook of Global Health Anne-Emanuelle Birn, Yogan Pillay, Timothy H. Holtz, 2017-01-24 THE CRITICAL WORK IN GLOBAL HEALTH NOW COMPLETELY REVISED AND UPDATED This book compels us to better understand the contexts in which health problems emerge and the forces that underlie and propel them Archbishop Emeritus Desmond Mpilo Tutu H1N1 Diabetes Ebola Zika Each of these health problems is rooted in a confluence of social political economic and biomedical factors that together inform our understanding of global health The imperative for those who study global health is to understand these factors individually and especially synergistically Fully revised and updated this fourth edition of Oxford s Textbook of Global Health offers a critical examination of the array of societal factors that shape health within and across countries including how health inequities create consequences that must be addressed by public health international aid and social and economic policymaking The text equips students activists and health professionals with the building blocks for a contextualized understanding of global health including essential threads that are combined in no other work historical dynamics of the field the political economy of health and development analysis of the current global health structure including its actors agencies and activities societal determinants of health from global trade

and investment treaties to social policies to living and working conditions the role of health data and measuring health inequities major causes of global illness and death including under crises from a political economy of health vantage point that goes beyond communicable vs non communicable diseases to incorporate contexts of social and economic deprivation work and globalization the role of trade investment and financial liberalization precarious work and environmental degradation and contamination principles of health systems and the politics of health financing community national and transnational social justice approaches to building healthy societies and practicing global health ethically and equitably Through this approach the Textbook of Global Health encourages the reader be it student professional or advocate to embrace a wider view of the global health paradigm one that draws from political economy considerations at community national and transnational levels It is essential and current reading for anyone working in or around global health

Life without Lead Daniel Renfrew, 2018-09-04 Life without Lead examines the social political and environmental dimensions of a devastating lead poisoning epidemic Drawing from a political ecology of health perspective the book situates the Uruguayan lead contamination crisis in relation to neoliberal reform globalization and the resurgence of the political Left in Latin America The author traces the rise of an environmental social justice movement and the local and transnational circulation of environmental ideologies and contested science Through fine grained ethnographic analysis this book shows how combating contamination intersected with class politics explores the relationship of lead poisoning to poverty and debates the best way to identify and manage an unprecedented local environmental health problem

Razing Kids Jeffrey C. Sanders, 2020-12-10 Children are the future Or so we like to tell ourselves In the wake of the Second World War Americans took this notion to heart Confronted by both unprecedented risks and unprecedented opportunities they elevated and perhaps exaggerated the significance of children for the survival of the human race Razing Kids analyzes the relationship between the postwar demographic explosion and the birth of postwar ecology In the American West especially workers policymakers and reformers interwove hopes for youth environment and the future They linked their anxieties over children to their fears of environmental risk as they debated the architecture of wartime playgrounds planned housing developments and the impact of radioactive particles released from distant hinterlands They obsessed over how riot riddled cities War on Poverty era rural work camps and pesticide laden agricultural valleys would affect children Nervous about the world they were making their hopes and fears reshaped postwar debates about what constituted the social and environmental good

Major Problems in the History of American Workers Eileen Boris, Nelson Lichtenstein, 2003 This text designed for courses in US labor history or the history of American workers presents a carefully selected group of readings that allow students to evaluate primary sources test the interpretations of distinguished historians and draw their own conclusions Major Problems in the History of American Workers follows the proven Major Problems format with 14 15 chapters per volume a combination of documents and essays chapter introductions headnotes and suggested readings

Encyclopedia of World Problems and

Human Potential ,1986 **Toxic Tropics** Jessica Oublié,2024-11-05 An in depth piece of comics journalism exploring the persistent use of the deadly chemical Chlordecone to support the banana crops in Martinique and Guadeloupe In 1975 pesticide producer LifeSciences closed their plant that produced the chemical chlordecone after numerous employees had toxic chemical poisoning and the local river had been polluted But in the French Antilles farmers continued to use the pesticide Even after it was banned in 1993 planters continued to illegally import and use it Chlordecone use became so widespread that it was in almost everything people on the islands ate and drank Today 95% of the inhabitants of Guadeloupe and 92% of the inhabitants of Martinique are contaminated by the chemical and the islands have one of the highest cancer rates in the world In this richly illustrated work the author brings her personal experience and connection to the story as she interviews scores of local people as well as scientists and government officials to uncover the true story behind the decision to continue poisoning the water and the soil for the sake of global commerce We as global citizens are urged to consider the decisions we are making through our consumer choices and how they affect the health of the planet and the survival of communities throughout the world
