Farming While Black Leah Penniman, 2018 Farming While Black is the first comprehensive how to guide for aspiring African heritage growers to reclaim their dignity as agriculturists and for all farmers to understand the distinct technical contributions of African heritage people to sustainable agriculture At Soul Fire Farm author Leah Penniman co created the Black and Latino Farmers Immersion BLFI program as a container for new farmers to share growing skills in a culturally relevant and supportive environment led by people of color Farming While Black organizes and expands upon the curriculum of the BLFI to provide readers with a concise guide to all aspects of small scale farming from business planning to preserving the harvest Throughout the chapters Penniman uplifts the wisdom of the African diasporic farmers and activists whose work informs the techniques described from whole farm planning soil fertility seed selection and agroecology to using whole foods in culturally appropriate recipes sharing stories of ancestors and tools for healing from the trauma associated with slavery and economic exploitation on the land Woven throughout the book is the story of Soul Fire Farm a national leader in the food justice movement

AMAZON [Seed Libraries](#) Cindy Conner, 2015-02-01 Community based initiatives to preserve and protect our food supply Historically seed companies were generally small often family run businesses Because they were regionally based they could focus on varieties well suited to the local environment A Pacific Northwest company for example would specialize in different cultivars than a company based in the Southeast However the absorption of these small independent seed businesses into large multinationals combined with the advancement of biotechnology resulting in hybrids and GMO seeds has led to a serious loss of genetic diversity The public is now at the mercy of the corporations that control the seeds In the past few years gardeners have realized the inherent danger in this situation A growing movement is striving to preserve and expand our stock of heritage and heirloom varieties through seed saving and sharing opportunities Seed Libraries is a practical guide to saving seeds through community programs including Step by step instructions for setting up a seed library A wealth of ideas to help attract patrons and keep the momentum going Profiles of existing libraries and other types of seed saving partnerships Whoever controls the seeds controls the food supply By empowering communities to preserve and protect the genetic diversity of their harvest Seed Libraries is the first step towards reclaiming our self reliance while enhancing food security and ensuring that the future of food is healthy vibrant tasty and nutritious Cindy Conner is a permaculture educator founder of Homeplace Earth and producer of two popular instructional gardening DVDs She is also the author of Grow a Sustainable Diet
