describing individual misdeeds or at most a way of evoking the intractability of our social ills In *The Emergence of Sin* Matthew Croasmun suggests we take another look The vision of Sin he offers is at once scientific and theological social and individual corporeal and mythological He argues both that the cosmic power Sin is nothing more than an emergent feature of a vast human network of transgression and that this power is nevertheless real personal and one whom we had better be ready to resist Ultimately what is on offer here is an account of the world re mythologized at the hands of chemists evolutionary biologists sociologists and entomologists In this world Paul s text is not a relic of a forgotten mythical past but a field manual for modern living *Accessing the Greater Glory* Larry Sparks, Ana Werner, 2019-09-17 This is a practical supernatural blueprint for every believer to step into greater demonstrations of God s glory All of Heaven is poised to pour out upon those who are willing to overflow with glory and change the world While Christians wait expectantly for the moment of this Heavenly release God is waiting for a willing **Money and Power** William D.
