The Transformation Of Ireland 1900 :

The Transformation Of Ireland 1900-2000 Diarmaid Ferriter, 2010-07-09 A ground breaking history of the twentieth century in Ireland written on the most ambitious scale by a brilliant young historian It is significant that it begins in 1900 and ends in 2000 most accounts have begun in 1912 or 1922 and largely ignored the end of the century Politics and political parties are examined in detail but high politics does not dominate the book which rather sets out to answer the question What was it like to grow up and live in 20th century Ireland It deals with the North in a comprehensive way focusing on the social and cultural aspects not just the obvious political and religious divisions *The Transformation of Ireland, 1900-2000* Diarmaid Ferriter, 2004 **A History of Ireland, 1800-1922** Hilary Larkin, 2014-02-01 The years of Ireland's union with Great Britain are most often regarded as a period of great turbulence and conflict And so they were But there are other stories too and these need to be integrated in any account of the period Ireland's progressive primary education system is examined here alongside the Famine the growth of a happily middle class Victorian suburbia is taken into account as well as the appalling Dublin slum statistics In each case neither story stands without the other This study synthesises some of the main scholarly developments in Irish and British historiography and seeks to provide an updated and fuller understanding of the debates surrounding nineteenth and early twentieth century history That Neutral Island Clair Wills, 2007 Where previous histories of Ireland in the war years have focused on high politics That Neutral Island mines deeper layers of experience Stories letters and diaries illuminate this small country as it suffered rationing censorship the threat of invasion and a strange detachment from the war **Familia 2004** Trevor Parkhill, 2004 Familia which was first published in 1985 aims to provide informed writing on sources and case studies relating to that area where Irish history and genealogy overlap with mutual benefit Members of the Foundation's Guild receive Familia and the Directory of Irish Family History Research as part of the return on their annual subscription *A Social History of Women in Ireland, 1870-1970* Rosemary Cullen Owens, 2005-10-25 A Social History of Women in Ireland is an important and overdue book that explores the role and status of women in Ireland from 1870 until 1970 looking at politics sociology marriage patterns religion education and work among other topics It provides a vital missing piece in the jigsaw of modern Irish history Using a combination of primary research and published works A Social History of Women in Ireland explores the role and status of women in Ireland It examines lifestyle options available to women during this period as well as providing an overview of the forces working for change within Irish society In bringing together a wide ranging portfolio of material A Social History of Women in Ireland 1870 1970 fills an important gap in the literature of the period by focusing on the experiences of Irish women a group so often overlooked in histories of revolutionary men and prominent politicians Crucial to a determination of the status of women throughout this period is an examination of the choices available regarding work marriage and emigration Rosemary Cullen Owens stresses at all times the importance of class and land ownership as key determinants for women's lives A decrease in

home industries allied to increasing mechanisation on the farm resulted in a contraction of labour opportunities for rural women. With the establishment of an independent farming class the distinguishing criteria for status in rural Ireland became ownership of land in which single minded patriarchal figures dominated. In this context the position of women declined and a society evolved with a high pattern of late age marriages, large numbers of unwed sons and daughters and an accepted pattern of emigration. In the cities and towns the condition of lower working class women was especially distressing for most of the period with particular problems regarding housing, health and sanitation. Through the work of campaigning activists equal educational and political rights were eventually attained. From the early 1900s there was some expansion in female employment in shops, offices and industry but domestic service remained a high source of employment. For middle class women employment opportunities were limited and usually disappeared on marriage. The civil service, a major employer in an economy that was generally un dynamic and stagnant, operated a bar on married women for much of the period. Rosemary Cullen Owens not merely traces these injustices but also the campaigns fought to right them. She locates these struggles in the wider social context in which they took place. This important book restores balance to the narrative of modern Irish history, changing the focus from key male political figures to society at large by unveiling the often forgotten story of the country's women over a tumultuous century of change. In doing so, Rosemary Cullen Owens enriches our understanding of Irish history from 1870 to 1970.

Violence in Europe Sophie Body-Gendrot, Pieter Spierenburg, 2010-07-10

Has violence changed over the centuries? Has it always held the same meanings for us? Will it always be a given in society? Taking the sociocultural long view, *Violence in Europe* analyzes the prevalence and role of violence from street crime to terrorist attacks, homicide to genocide in the evolution of human and national behaviour. The editors and 14 colleagues in history, anthropology, sociology and psychology focus on Northern and Western Europe, examining centuries of violent phenomena from the cultural logic of the Middle Ages to today's soccer riots and security alerts. The contributors' examination of social constructions, honour codes, class and gender roles and public ambivalence, acceptance, abhorrence, fascination regarding violence sheds needed light on current dynamics in law enforcement, political systems and what many have termed the civilization of violence. Findings from Britain, France, Ireland, Belgium and Scandinavia explore the paradoxes of ethnic violence and insider/outsider thinking in an increasingly multicultural world. Trends in interpersonal violence during wartime and peacetime. The

gendering of violence from early French marital laws to London's underground nightlife The growth of cities modernization conflict aggression Modern prevention and surveillance strategies effective solutions complicating the problem or some middle ground Reflecting innovative methods of research and interpretation Violence in Europe is thought provoking and instructive for researchers and students in psychology and criminology And with the mounting global presence of violence today this is reading with profound implications for the future
