The Accountant's Tale Andrew P. Porter, 2021-06-08

Three problems in the life of the church 1 For the past millennium theologians have done a brisk trade in proofs arguments for the so called existence of God the validity of the Christian faith and so on I think this is a mistake Christianity is a choice 2 Typical Christian theology begins with Jesus rather than with the Common Documents the documents shared in common by Christianity and rabbinic Judaism This is Marcionite Theology so called for a second century figure who wanted to delete the Common Documents from the Bible Many problems in theology become much more tractable if the Common Documents the Exodus focally are treated as a model rather than as a mere prologue to the New Testament 3 There are problems with God interfering with nature and they have become worse with modern science God interfering with nature doesn't just injure the sciences it also generates serious pathologies in theology The theme is choices made by the church and the book is called The Accountant's Tale because somebody once asked an accountant What is two times two and got the answer What do you want it to be

Concern for Creation Tim Matton-Johnson, 2025-07-01 This book is about participating in a conversation seeking to develop a holistic spirituality and theology At its heart is the aboriginal conviction that everything is connected It contains personal biographical story to encourage others to enter its whole of Creation Theology It is about more than just us humans In the writing of theology it is always important to address its applicability to the contemporary context In our time that context is climate change and all the complex issues surrounding the warming of our planet This book begins with a summary of the interconnected issues that we now face It also looks at some proposed strategies for mitigating the impacts of climate change There is an awareness that climate change arises from human rather than natural activity The book then turns to a Tasmanian aboriginal theology that emerges out of colonial invasion Themes from this theology are then followed through from the perspective of European philosophy science and Christian theology The last section of the book contains some reflection on what has come before It seeks to discover hope for our children in a context where hope seems in short supply

The Miracles of Jesus Vern S. Poythress, 2015-11-17 Christians often view Jesus's miracles simply as proofs of his divinity However as prolific author Vern Poythress shows in this new book they also serve as signs of redemption foreshadowing the salvation that Christ accomplished through his cross and resurrection This means that the stories of Jesus's miracles like the calming of the storm or the feeding of the 5 000 are relevant for both Christians and non Christians alike clearly pointing to the gospel After setting forth a framework for viewing all of Jesus's miracles through this lens Poythress then reflects on the meaning and significance of 26 distinct miracles recorded in the Gospel of Matthew helping modern readers understand and apply them to their own lives today

The Trouble With Jesus Constance Hastings, 2024-07-23 For 2000 years Jesus has been both decried and leveraged His story set in a context so contrary yet strangely similar to today serves as both a troubling and affirming testament to the quest for a meaningful life purpose Many know of Jesus but perhaps

not his complete story Regardless of belief Jesus signifies trouble in the context of his time and for those grappling with his teachings today Using elements of drama The Trouble with Jesus demonstrates why both believers and skeptics are unsettled and provoked by the one who claimed to be the Son of God Jesus championed the marginalized challenged wealth and power dynamics and upended conventional wisdom through his parables He defied the status quo and faced betrayal by corrupt religious and political authorities His greatest trouble was being crucified and his subsequent resurrection defeating death ushering in a new era and inspiring a new way of being In an edgy voice recognized by those wrestling with such existential questions whether one has never been to church or has been estranged from it or once thought they knew him The Trouble with Jesus confronts concepts of one of the most controversial figures whoever existed and the revolution he began The Trouble With Christians Jon Jaroszewski,2014-12-29 What if Jesus is smarter than we think What if we valued his words like we do other great literature What if we shrugged off shallow interpretations and looked for cohesive and purposeful insight from the mind of a master communicator Might we come to a deeper understanding of his vision for humanity This book attempts to do just that and shows us that the Sermon on the Mount is not just beautiful and profound it also remains controversial and revolutionary in ways we have forgotten **Penetrating God's World with the Gospel of Christ** Bennie Simmons,2019-02-20 This book is dealing with subjects that are seldom discussed but are needed for the church to grow in number Discipleship is important but first we must lead the person to Christ with the right message That message is found in the book of Acts The essence of the Gospel was and is today in three parts One is the person of Christ found in the four Gospels Two is the death of Christ again found in the four Gospels And thirdly is the resurrection of Christ Number three being the most neglected part of the Gospel presentation If we follow the messages by Paul and Peter in the book of Acts we will see that all three elements are included We discuss how Satan has tricked and fooled us by his slick presentation as concerning the Gospel of Jesus Christ We teach how one person can lead many to Christ before we stand at the judgement seat of Christ This book will change you The Collected Works of Witness Lee, 1978, volume 1 Witness Lee,2021-05-28 The Collected Works of Witness Lee 1978 volume 1 contains messages given by Brother Witness Lee from January 22 through December 11 1978 In 1978 Brother Lee spoke seventy five messages that were published in Life study of Genesis and Life study of Ephesians The Life study messages are not included in The Collected Works of Witness Lee From the beginning of the year until the end of April Brother Lee ministered in Anaheim California From the beginning of May through the middle of May he visited Boston Massachusetts after which he returned to Anaheim Except for brief visits to the nearby cities of Costa Mesa Irvine and San Diego California he remained in Anaheim from the middle of May through the first week in August The remaining messages included in this volume that were given after the first week in August were all spoken in Anaheim The contents of this volume are divided into nine sections as follows 1 Six messages given in Anaheim California on January 22 through December 10 These messages are included in this volume under the title Experiencing Christ as Life and

Being Constituted with the Truth for God's Building 2 Nine messages given in Anaheim California on January 26 through October 19 These messages were consolidated into five chapters and are included in this volume under the title Fellowship with the Church in Anaheim 3 Seven messages given in Anaheim California on March 23 through April 9 They were previously published in an eight chapter book entitled The Exercise of the Kingdom for the Building of the Church and are included in this volume under the same title 4 Twenty two meetings for fellowship with the serving ones in the Living Stream Ministry office in Anaheim California on March 27 through December 11 Brother Lee's speaking in these meetings was informally published as nineteen individual messages under the general title Fellowship with Serving Ones These chapters are included in this volume under the same title 5 A message given during a time of fellowship with college students in Costa Mesa California on April 6 The edited message was divided into two chapters which are included in this volume under the title Bearing the Testimony of Jesus by Living a Crucified Life in Resurrection 6 A message given during a time of fellowship with leading brothers in Orange County California on April 15 This message is included in this volume under the title The Lord's Recovery of His Testimony 7 Five messages given in Anaheim California on April 16 through May 21 These messages were previously published in a book entitled Basic Training and are included in this volume under the same title 8 Twenty three messages given in Boston Massachusetts and Anaheim California on May 1 through June 25 These messages were previously published in a book entitled The Experience of Christ and are included in this volume under the same title 9 Twenty three messages given in Boston Massachusetts on May 1 through 12 They were consolidated into nineteen chapters and are included in this volume under the title The Present Need among the Churches in the Lord's Recovery

The Trouble with Principle Stanley Fish, 2001-03-02 Stanley Fish is an equal opportunity antagonist A theorist who has taken on theorists an academician who has riled the academy a legal scholar and political pundit who has ruffled feathers left and right Fish here turns with customary gusto to the trouble with principle Specifically Fish has a quarrel with neutral principles The trouble They operate by sacrificing everything people care about to their own purity And they are deployed with equal highmindedness and equally absurd results by liberals and conservatives alike In this bracing book Fish argues that there is no realm of higher order impartiality no neutral or fair territory on which to stake a claim and that those who invoke one are always making a rhetorical and political gesture In the end it is history and context the very substance against which a purportedly abstract principle defines itself that determines a principle's content and power In the course of making this argument Fish takes up questions about academic freedom and hate speech affirmative action and multiculturalism the boundaries between church and state and much more Sparing no one he shows how our notions of intellectual and religious liberty cherished by those at both ends of the political spectrum are artifacts of the very partisan politics they supposedly transcend *The Trouble with Principle* offers a provocative challenge to the debates of our day that no intellectually honest citizen can afford to ignore

Theology as Hope Ryan A. Neal, 2009-01-01 Hope is the leitmotiv of Jurgen Moltmann's

theology Not merely one aspect of his project hope is the whole of it the supreme doctrine interpenetrating all others Indeed hope is his method The present study is both historical and developmental while also being analytical and interrogative This chronological exploration seeks to show the nature composition and development of Moltmann's doctrine of hope as the distinctive doctrine of his theology implicating all others Part I establishes Moltmann's doctrine of hope as grounded in God's faithfulness in the cross and resurrection Part II investigates major doctrines in his project in light of this ground This design seeks to take advantage of the chronological approach while also integrating the best elements of a topical approach The Homiletic Review, 1904

Counting the Days to Armageddon Robert Crompton, 1996 Counting the Days to Armageddon is work of vital importance for all concerned with the Jehovah's Witness movement It provides a thorough examination of their eschatological development treating Watch Tower theology objectively but sympathetically Crompton also speculates about the future direction of Jehovah's Witness teaching The book begins with a brief consideration of the biblical foundations of doctrines of the last days particularly the books of Daniel and Revelation There follows an outline summary of some of the main aspects of the history of this doctrine within the Protestant mainstream during the late eighteenth and early nineteenth centuries and an outline of the Adventist teaching of William Miller 1782-1849 in the U S A During the time following the failure of Miller's expectations of the end of the world his ideas were developed by Charles Taze Russell 1852-1916 prime mover of the Watch Tower movement Counting the Days to Armageddon explores the way in which Russell amended Miller's ideas and also the distinctive way in which he handled the Dispensational categorisation of history of John Nelson Darby 1800-1882 to create an extension of historicist speculation on the application of prophecy to the modern world The response of the Watch Tower movement to the failure of Russell's expectations in 1914 is explored and the new body of doctrine which has replaced Russell's is examined The ways in which these doctrines have been modified in the past suggest ways in which future doctrine may develop especially in response to the protracted delay of Armageddon What is envisaged in the light of the history of Watch Tower doctrine is no dramatic collapse of the movement but rather an increasing emphasis upon other less vulnerable areas of doctrine together with a greater turnover of membership which may in due course undermine the movement's stability

The Problem of Unbelief in the Sixteenth Century, the Religion of Rabelais Lucien Febvre, 1982 Lucien Febvre's magisterial study of sixteenth century religious and intellectual history published in 1942 is at long last available in English in a translation that does it full justice The book is a modern classic Febvre founder with Marc Bloch of the journal *Annales* was one of France's leading historians a scholar whose field of expertise was the sixteenth century This book written late in his career is regarded as his masterpiece Despite the subtitle it is not primarily a study of Rabelais it is a study of the mental life the mentalité of a whole age Febvre worked on the book for ten years His purpose at first was polemical he set out to demolish the notion that Rabelais was a covert atheist a freethinker ahead of his time To expose the anachronism of that view he proceeded to a close examination of the ideas information beliefs and values of Rabelais and his contemporaries He combed archives and local records compendia of popular lore the work of writers from Luther and Erasmus to Ronsard the verses of obscure neo Latin poets Everything was grist for his mill books about comets medical texts philological treatises even music and architecture The result is a work of extraordinary richness of texture enlivened by a wealth of concrete details a compelling intellectual portrait of the period by a historian of rare insight great intelligence and vast learning Febvre wrote with Gallic flair His style is informal often witty at times combative and colorful almost to a fault His idiosyncrasies of syntax and vocabulary have defeated many who have tried to read let alone translate the French text Beatrice Gottlieb has succeeded in rendering his prose accurately and readably conveying a sense of Febvre's strong often argumentative personality as well as his brilliantly intuitive feeling for Renaissance France
