The Unicorns Secret A Murder In The Age Of Aquarius:

The Unicorn's Secret Steven Levy,1990 *The Unicorn's Secret* Steven Levy,1988 Offers a portrait of Ira Einhorn who preached alternative living in the sixties ushered in the New Age in the early seventies and who disappeared while awaiting trial for the murder of his girlfriend **The Unicorn's Secret** Steven Levy,2016-11-08 The true story of Ira Einhorn the Philadelphia antiwar crusader environmental activist and New Age guru with a murderous dark side During the cultural shockwaves of the 1960s and 70s Ira Einhorn nicknamed the Unicorn was the leading radical voice for the antiwar movement at the University of Pennsylvania At his side were such noted activists as Abbie Hoffman and Jerry Rubin A brilliantly articulate advocate for peace in a turbulent era he rallied followers toward the growing antiestablishment causes of free love drugs and radical ecological reform In 1979 when the mummified remains of his girlfriend Holly Maddux a Bryn Mawr flower child from Tyler Texas were found in a trunk in his apartment Einhorn claimed a CIA frame up Incredibly the network of influential friends socialites and powerful politicians he d charmed and manipulated over the years supported him Represented by renowned district attorney and future senator Arlen Specter Einhorn was released on bail But before trial he fled the country to an idyllic town in the French wine region and disappeared It would take more than twenty years and two trials to finally bring Einhorn to justice Based on more than two years of research and 250 interviews as well as the chilling private journals of Einhorn and Maddux prize winning journalist Steven Levy paints an astonishing and complicated portrait of a man motivated by both genius and rage The basis for 1998 NBC television miniseries *The Hunt for the Unicorn Killer* *The Unicorn's Secret* is a spellbinding sociological true crime study revealing the dark and tragic dimensions of a man who defined an era only to shatter its ideals Publishers Weekly **The Unicorn's Secret** Steven Levy,1988-10-01 Known simply as *The Unicorn* Ira Einhorn was a counter culture guru corporate networker a spiritual father of the New Age and Harvard Fellow a well connected intellectual and possibly a murderer In 1979 police found the body of his former girl friend dead for more than a year in his closet Two years later Einhorn jumped bail and is still missing 8 page photo insert *Targeted Individuals: The Radiohead Protocol* Electric Angel,2017 For the past 60 years there have been a lot of desperate people on the planet who claim to be targeted by a sinister government plot to torture and harass them These people are known as Targeted Individuals TIs Targeted Individuals claim to hear disembodied voices in their heads and experience severe physiological discomfiture such as mind and body control at the hands of their attackers so called Perpetrators a breed of human beings known to ruthlessly torture their victims the Targeted Individuals and electronically control them using remote radio frequencies and satellite terrorism The act of hearing voices that are not there is called V2k or Voice to Skull in the vernacular It is a continuous nightmare for the millions of Targeted Individuals who are subjected to it an incurable condition that once acquired is a lifelong sentence of neverending horror and torture that is as indescribable as it is inhumane *The Radiohead Protocol* the third book in the V2k trilogy of books that started several years ago with *The 7 Keys to V2k* and *The*

Truth Will Set You Free is the definitive response to long unanswered questions about V2k the book that lifts the lid off the entire mind control industry run by the Perpetrators in the United States and the rest of the world The Radiohead Protocol addresses vital subjects such as where does V2k mind control come from How did we come to be V2k mind controlled How is V2k mind control administered And of course the biggest question of all How do we as Targeted Individuals free ourselves from it Definitive answers could not be found in the 20th and early 21st centuries But at last the information has become available the secrets of electromagnetic mind control V2k or Voice to Skull are no longer the insufferable mystery or misery that they once were thanks to the trilogy series including The Radiohead Protocol the final instalment It takes the reader on a journey to the past to witness the very creation of V2k by the inventor of electromagnetic mind control He was not only a founding father of the New Age movement in the mid to late 20th Century but a member of the Military Industrial Complex an academic with a special interest in reading other people s minds a lifelong ambition which he managed to fulfil during his industrious career Far from being a footnote in history the inventor of V2k went on to patent his mind controlling invention and then table it as a major electromagnetic mind control project of the US government Indeed the invention was perfected as a psychological warfare program for the Pentagon in the 1950s The Radiohead Protocol is essentially the unauthorized biography of the inventor of V2k mind control who subjected millions of Targeted Individuals to a lifetime of mental slavery and unimaginable suffering after he researched on non consenting subjects and then went on to exercise Electronic Harassment and mind control indiscriminately on victims with devastating effects The book then returns readers to the present where the so called Perpetrators currently use the very same mind control program created by the inventor so many decades ago to ruthlessly torture and harass victims in their own homes and minds as if enough wasn t enough already The Radiohead Protocol is the most uncompromising book ever written on the subject of 21st Century V2k mind control and the only honest information that stands between victims of this heinous crime against humanity and a growing number of aggressive Perpetrators who use the invention to create pandemonium in the community *Leave Me Alone, I'm Reading* Maureen Corrigan,2007-12-18 In this delightful memoir the book critic for NPR s Fresh Air reflects on her life as a professional reader Maureen Corrigan takes us from her unpretentious girlhood in working class Queens to her bemused years in an Ivy League Ph D program from the whirl of falling in love and marrying a fellow bookworm of course to the ordeal of adopting a baby overseas always with a book at her side Along the way she reveals which books and authors have shaped her own life from classic works of English literature to hard boiled detective novels and everything in between And in her explorations of the heroes and heroines throughout literary history Corrigan s love for a good story shines **The Stargate Conspiracy** Lynn Picknett,2001-09-01 In recent years alternative historians have gained remarkable insight into the mysteries of ancient Egypt but according to Lynn Picknett and Clive Prince their discoveries tie into a dangerous conspiracy nearly fifty years in the making At the center of this conspiracy is a group of respected powerful individuals who believe that

the ancient Egyptian gods are really extraterrestrials who will soon return to earth The conspirators have intimate and exclusive knowledge of this momentous second coming but they insist on keeping it to themselves What could be the purpose of such a conspiracy Why are the conspirators so desperate to keep their information a secret And what does it mean for mankind In this riveting well researched book Picknett and Price offer compelling evidence that the conspiracy exists and expose the insidious motivations of the individuals and organizations behind it Trials of the Century Scott P.

Johnson,2010-10-06 This comprehensive set of essays documents the most important criminal civil and political trials in the United States from colonial times to the present examining their impact on both legal history and popular culture Crime and punishment are of perennial interest across the human species Trials of the Century An Encyclopedia of Popular Culture and the Law examines some of the most important and infamous cases in American history placing them in both historical and legal context Among the landmark cases considered in these two volumes are the 1692 Salem Witch Trials the Scopes Monkey Trial and the O J Simpson murder trial A number of civil lawsuits and political trials are also included such as the impeachment trials of Presidents Andrew Johnson and William Jefferson Clinton Entries in the encyclopedia detail the events leading to each trial and introduce the key players with a focus on judges lawyers witnesses defendants victims media and the public In addition the aftermath of the trial and its impact are analyzed from a scholarly yet straightforward perspective emphasizing how the trial affected the law and society at large On the Wild Side Martin Gardner,2010-10-04 I have always been intrigued by fringe science writes Martin Gardner in the preface to this book perhaps for the same reason that I enjoy freak shows and circuses Pseudoscientists especially the extreme cranks are fascinating creatures for psychological study Moreover I have found that one of the best ways to learn something about any branch of science is to find out where its crackpots go wrong A unique combination of horse sense and drollery has made Martin Gardner the undisputed dean of the critics of pseudoscience This bountiful collection of essays and articles will be wholeheartedly greeted by Gardner s fans as well as by new readers This collection of articles many of which first appeared in the Skeptical Inquirer the New York Review of Books and Free Inquiry explores pseudoscience and strange religious beliefs with the author s trademark wit and verve Destined to be a classic of skeptical literature this book covers a wide range of topics including UFOs rainmaking ghosts the Big Bang ESP Oral Roberts as well as the early history of spiritualism and today s bizarre trance channeling cults The Covert War Against Rock Alex Constantine,2000-05-01 The connections between government organized crime and the music industry are examined offering compelling evidence that there may be more to the deaths of important popular musicians than has been commonly told **High Weirdness** Erik Davis,2019-11-05 An exploration of the emergence of a new psychedelic spirituality in the work of Philip K Dick Terence McKenna and Robert Anton Wilson A study of the spiritual provocations to be found in the work of Philip K Dick Terence McKenna and Robert Anton Wilson High Weirdness charts the emergence of a new psychedelic spirituality that arose from the American counterculture of the 1970s These three authors

changed the way millions of readers thought dreamed and experienced reality but how did their writings reflect as well as shape the seismic cultural shifts taking place in America In High Weirdness Erik Davis America s leading scholar of high strangeness examines the published and unpublished writings of these vital iconoclastic thinkers as well as their own life changing mystical experiences Davis explores the complex lattice of the strange that flowed through America s West Coast at a time of radical technological political and social upheaval to present a new theory of the weird as a viable mode for a renewed engagement with reality

The People of This Generation Paul Lyons, 2013-07-17 At the heart of the tumult that marked the 1960s was the unprecedented scale of student protest on university campuses around the world Identifying themselves as the New Left as distinguished from the Old Left socialists who engineered the historic labor protests of the 1930s these young idealists quickly became the voice and conscience of their generation *The People of This Generation* is the first comprehensive case study of the history of the New Left in a Northeast urban environment Paul Lyons examines how campus and community activists interacted with the urban political environment especially the pacifist Quaker tradition and the rising ethnic populism of police chief and later mayor Frank Rizzo Moving away from the memoirs and overviews that have dominated histories of the period Lyons uses this detailed metropolitan study as a prism for revealing the New Left s successes and failures and for gauging how the energy generated by local activism cultivated the allegiance of countless citizens Lyons explores why groups dominated by the Old Left had limited success in offering inspiration to a new generation driven by the civil rights movement and opposition to the Vietnam War The number and diversity of colleges in this unique metropolitan area allow for rich comparisons of distinctly different campus cultures and Lyons shows how both student demographics and institutional philosophies determined the pace and trajectory of radicalization Turning his attention off campus Lyons highlights the significance of the antiwar Philadelphia Resistance and the antiracist People for Human Rights Philadelphia s most significant New Left organizations revealing that the New Left was influenced by both its urban and campus milieus Combining in depth archival research rich personal anecdote insightful treatment of the ideals that propelled student radicalism and careful attention to the varied groups that nurtured it *The People of This Generation* offers a moving history of urban America during what was perhaps the most turbulent decade in living memory

d charmed and manipulated over the years supported him Represented by renowned district attorney and future senator Arlen Specter Einhorn was released on bail But before trial he fled the country to an idyllic town in the French wine region and disappeared It would take more than twenty years and two trials to finally bring Einhorn to justice Based on more than two years of research and 250 interviews as well as the chilling private journals of Einhorn and Maddux prize winning journalist Steven Levy paints an astonishing and complicated portrait of a man motivated by both genius and rage The basis for 1998 NBC television miniseries The Hunt for the Unicorn Killer The Unicorn s Secret is a spellbinding sociological true crime study revealing the dark and tragic dimensions of a man who defined an era only to shatter its ideals Publishers Weekly Psychic Dictatorship in the U.S.A. Alex Constantine,1995-09-01 Bombing minds rather than bodies is the warfare of the new millennium This book uncovers the terrifying extent of electromagnetic and biotelemetric mind control experimentation on involuntary human subjects The evidence presented in this book is a savage indictment of democracy turned dictatorship The sordid truth about what really goes on in the halls of power is often too much to take but it does help to have some idea of what we re up against Nexus **How the Hippies Saved Physics** David Kaiser,2012-07-16 How the Hippies Saved Physics gives us an unconventional view of some unconventional people engaged early in the fundamentals of quantum theory Great fun to read Anton Zeilinger Nobel laureate in physics The surprising story of eccentric young scientists among them Nobel laureates John Clauser and Alain Aspect who stood up to convention and changed the face of modern physics Today quantum information theory is among the most exciting scientific frontiers attracting billions of dollars in funding and thousands of talented researchers But as MIT physicist and historian David Kaiser reveals this cutting edge field has a surprisingly psychedelic past How the Hippies Saved Physics introduces us to a band of freewheeling physicists who defied the imperative to shut up and calculate and helped to rejuvenate modern physics For physicists the 1970s were a time of stagnation Jobs became scarce and conformity was encouraged sometimes stifling exploration of the mysteries of the physical world Dissatisfied underemployed and eternally curious an eccentric group of physicists in Berkeley California banded together to throw off the constraints of the physics mainstream and explore the wilder side of science Dubbing themselves the Fundamental Fysiks Group they pursued an audacious speculative approach to physics They studied quantum entanglement and Bell s Theorem through the lens of Eastern mysticism and psychic mind reading discussing the latest research while lounging in hot tubs Some even dabbled with LSD to enhance their creativity Unlikely as it may seem these iconoclasts spun modern physics in a new direction forcing mainstream physicists to pay attention to the strange but exciting underpinnings of quantum theory A lively entertaining story that illuminates the relationship between creativity and scientific progress How the Hippies Saved Physics takes us to a time when only the unlikelyest heroes could break the science world out of its rut In the Plex Steven Levy,2021-02-02 The most interesting book ever written about Google The Washington Post delivers the inside story behind the most successful and admired technology company of our time now updated with a

new Afterword Google is arguably the most important company in the world today with such pervasive influence that its name is a verb The company founded by two Stanford graduate students Larry Page and Sergey Brin has become a tech giant known the world over Since starting with its search engine Google has moved into mobile phones computer operating systems power utilities self driving cars all while remaining the most powerful company in the advertising business Granted unprecedented access to the company Levy disclosed that the key to Google s success in all these businesses lay in its engineering mindset and adoption of certain internet values such as speed openness experimentation and risk taking Levy discloses details behind Google s relationship with China including how Brin disagreed with his colleagues on the China strategy and why its social networking initiative failed the first time Google tried chasing a successful competitor He examines Google s rocky relationship with government regulators particularly in the EU and how it has responded when employees left the company for smaller nimbler start ups In the Plex is the most authoritative and in many ways the most entertaining James Gleick The New York Book Review account of Google to date and offers an instructive primer on how the minds behind the world s most influential internet company function Richard Waters The Wall Street Journal

The Perfect Thing Steven Levy, 2006-10-23 On October 23 2001 Apple Computer a company known for its chic cutting edge technology if not necessarily for its dominant market share launched a product with an enticing promise You can carry an entire music collection in your pocket It was called the iPod What happened next exceeded the company s wildest dreams Over 50 million people have inserted the device s distinctive white buds into their ears and the iPod has become a global obsession The Perfect Thing is the definitive account from design and marketing to startling impact of Apple s iPod the signature device of our young century Besides being one of the most successful consumer products in decades the iPod has changed our behavior and even our society It has transformed Apple from a computer company into a consumer electronics giant It has remolded the music business altering not only the means of distribution but even the ways in which people enjoy and think about music Its ubiquity and its universally acknowledged coolness have made it a symbol for the digital age itself with commentators remarking on the iPod generation Now the iPod is beginning to transform the broadcast industry too as podcasting becomes a way to access radio and television programming Meanwhile millions of Podheads obsess about their gizmo reveling in the personal soundtrack it offers them basking in the social cachet it lends them even wondering whether the device itself has its own musical preferences Steven Levy the chief technology correspondent for Newsweek magazine and a longtime Apple watcher is the ideal writer to tell the iPod s tale He has had access to all the key players in the iPod story including Steve Jobs Apple s charismatic cofounder and CEO whom Levy has known for over twenty years Detailing for the first time the complete story of the creation of the iPod Levy explains why Apple succeeded brilliantly with its version of the MP3 player when other companies didn t get it right and how Jobs was able to convince the bosses at the big record labels to license their music for Apple s groundbreaking iTunes Store We even learn why the iPod is white Besides his inside

view of Apple Levy draws on his experiences covering Napster and attending Supreme Court arguments on copyright as well as his own travels on the iPod's click wheel to address all of the fascinating issues technical legal social and musical that the iPod raises Borrowing one of the definitive qualities of the iPod itself The Perfect Thing shuffles the book format Each chapter of this book was written to stand on its own a deeply researched wittily observed take on a different aspect of the iPod The sequence of the chapters in the book has been shuffled in different copies with only the opening and concluding sections excepted Shuffle is a hallmark of the digital age and The Perfect Thing via sharp insightful reporting is the perfect guide to the deceptively diminutive gadget embodying our era

The Genius of Earth Day Adam Rome, 2013-04-16 The first Earth Day is the most famous little known event in modern American history Because we still pay ritual homage to the planet every April 22 everyone knows something about Earth Day Some people may also know that Earth Day 1970 made the environmental movement a major force in American political life But no one has told the whole story before The story of the first Earth Day is inspiring it had a power a freshness and a seriousness of purpose that are difficult to imagine today Earth Day 1970 created an entire green generation Thousands of Earth Day organizers and participants decided to devote their lives to the environmental cause Earth Day 1970 helped to build a lasting eco infrastructure lobbying organizations environmental beats at newspapers environmental studies programs ecology sections in bookstores community ecology centers In The Genius of Earth Day the prizewinning historian Adam Rome offers a compelling account of the rise of the environmental movement Drawing on his experience as a journalist as well as his expertise as a scholar he explains why the first Earth Day was so powerful bringing one of the greatest political events of the twentieth century to life

Crypto Steven Levy, 2001-01-08 If you've ever made a secure purchase with your credit card over the Internet then you have seen cryptography or crypto in action From Stephen Levy the author who made hackers a household word comes this account of a revolution that is already affecting every citizen in the twenty first century Crypto tells the inside story of how a group of crypto rebels nerds and visionaries turned freedom fighters teamed up with corporate interests to beat Big Brother and ensure our privacy on the Internet Levy's history of one of the most controversial and important topics of the digital age reads like the best futuristic fiction

Praise from a Future Generation John Kelen, 2007-09 Finely written and meticulously documented this book describes how very early on a small group of ordinary citizens began extraordinary efforts to demonstrate that the JFK assassination could not have happened the way the government said it did In time their efforts had an enormous impact on public opinion but this account concentrates on the months before the controversy caught fire when people with skeptical viewpoints still saw themselves as lone voices Material seldom seen by the public includes a suppressed photograph of the grassy knoll an unpublished 1964 interview with an eyewitness the earliest mention of the magic bullet and an analysis of the commotion surrounding New Orleans district attorney Jim Garrison's charge that anti Castro CIA operatives were involved
